However, the editors reserve the right to hold approved manuscripts for a subsequent issue if their inclusion in the nearest issue would delay its printing or for other reasons approved by the Executive Committee. The current manuscript review period ranges from a low of 3 months to more than 12 months, the length depending upon the condition of the manuscript as submitted, the reviews of council members, authors revision time and decisions in the editorial office. All papers approved for publication by the editors are subsequently sent to the copy editor for markup and editing. Printer imposed deadlines for 1984 are May 1 and October 1 for the July and December issues, respectively, for mail-out in the month of issue.

VIII. Comments of Outgoing Editors

We wish to take this opportunity to express our appreciation for the hard work and dedication of the Editorial Council for 1983. While largely unheralded, the effort of these 15 professionals and their cooperating colleagues is primarily responsible for the high quality of the *SJAE* and its growing recognition within the agricultural economics profession, regionally, nationally and internationally. Also, we wish to extend our appreciation to the members of the Executive Committee of the SAEA during our tenure of service as editors for their many evidences of confidence and support. Further, we thank the members of the Association for the opportunity to serve as Editors of the *SJAE* over the 1981-83 period. Our experience has been both challenging and rewarding.
