SOUTHERN JOURNAL OF AGRICULTURAL ECONOMICS

Guidelines for Submission of Manuscripts

Articles, comments, and replies are reviewed on a continuous basis. Only manuscripts that closely adhere to the following guidelines will receive prompt and favorable attention by the Editorial Council.

Articles

No page limit is imposed on articles. All manuscripts should be written in a clear and concise manner. An abstract, not to exceed 100 words, and 8 or fewer key words describing the content of the article should be submitted with each manuscript.

Comments and Replies

Comments and replies should contribute significantly to a broad channel of professional communication. These manuscripts should not exceed two journal pages in length (approximately four double-spaced pages.)

Guidelines for All Manuscripts

1. **COVER LETTER.** Indicate why you believe the material would interest *Southern Journal* readers and whether the material has been presented, offered for publication, or published in a similar form elsewhere. The letter should also state that the manuscript does not infringe upon other published material protected by copyright. A complete mail address and telephone number of the senior author must be given in the cover letter.
2. **COVER PAGE.** The *Journal* uses a system of blind reviews. Thus, all papers should have a cover page attached with the name of the authors, acknowledgments and institutional information. Materials subject to review should not show the identity of the author.
3. **TYPING.** All material should be double-spaced, including footnotes, quotations, references, and tables. Type on 8-1/2 x 11 inch standard weight paper with at least 1-1/4 inch margins on all sides.
4. **LINE NUMBERING.** Text lines should be numbered (in the margin) within each page to facilitate reviewer reference to specific locations.
5. **STYLE.** Consult an issue of this *Journal*. Be consistent.
6. **MATHEMATICAL NOTATIONS.** Use standard type to maximum extent. Overuse of mathematical symbols often limits readership and is costly to typeset. Where such notation is essential, use separate characters for superscripts and subscripts and avoid capital letters in superscripts and subscripts..
7. **FOOTNOTES.** Number footnotes consecutively throughout the paper. On a separate page following the article, list and number footnotes. Footnotes should be only explanatory, never for citations or directives to other literature. Reference citations must be incorporated into the text.
8. **REFERENCES.** Place all references, alphabetized by author, in a list at the end of the paper entitled "References." Only cited works should be included. All citations should appear in the text and contain the author's name and page numbers, where necessary. Citations can be inserted parenthetically, e.g., (Doe) or (Doe, p. 5). Specify the date of publication if the same author appears more than once in the reference list, e.g., (Doe 1971, p. 5). If the author's name appears as part of the sentence, a parenthetical reference is unnecessary unless you need to cite page numbers or a date.
9. **TABLES.** Omit vertical rules. Use small English letters if explanatory footnotes are necessary.
10. **CHARTS AND FIGURES.** These are photographed. Prepare charts and figures on separate white pages, with dark ink. Clean pasteups are permissible.
11. **COPIES.** Send four clean copies of all written material subject to review. Critical reviews by colleagues, prior to submission, are encouraged.
12. **MAILING.** Send manuscripts to the Editor via first class mail.
