Bibliography of Tree Nut Production and Marketing Research, 1960-65

Miscellaneous Publication No. 1064
Economic Research Service/U.S. DEPARTMENT OF AGRICULTURE

PREFACE

This bibliography lists production and marketing research reports on tree nuts published between 1960 and 1965. Reports published between 1945 and 1960 appear in the U.S. Department of Agriculture's Miscellaneous Publication 862, which is out of print but may be consulted in libraries. The principal source was the "Bibliography of Agriculture." In addition, State agricultural experiment stations furnished listings of their publications.

This bibliography has a section for each tree nut that is important in domestic trade channels. Listings are arranged alphabetically under subject matter headings. The call numbers are those of the National Agricultural Library, U.S. Department of Agriculture. If no call number is given, the publication is not in the Library.
