## **ARER GUIDELINES FOR MANUSCRIPT SUBMISSION**

### **ELIGIBILITY**

At least one author must be a member of the NAREA.

### **SUBMISSION**

Four copies of the manuscript, including one original copy, should be sent to:

Dr. Peter J. Parks, *ARER* Editor  
Department of Agricultural, Food, and Resource Economics  
Cook College, Rutgers University  
55 Dudley Road  
New Brunswick, NJ 08901-8520

Submissions by electronic mail to editor.arer@aesop.rutgers.edu will also be accepted. A manuscript should be sent as an attachment using Microsoft Word or WordPerfect software. Journal information, including guidelines for manuscript submission, is available at the *ARER*'s home page URL: <http://www.narea.org/arer/>.

### **COVER LETTER**

The cover letter should indicate that the material has not been offered for publication or published in a similar form elsewhere, and so far as the author(s) knows, does not infringe upon other published material protected by copyright.

### **TITLE PAGE and ABSTRACT**

On the first page, list the title of the paper, the author(s), their title(s), department(s), institution(s), and complete address(es). On the next page, provide the title of the paper, an abstract not to exceed 100 words, and up to eight key words or short phrases (in alphabetical order) describing the content of the manuscript. The author(s)' identification should not be repeated on the abstract page or on other pages of the manuscript.

### **TEXT PREPARATION**

The manuscript should be typed on 8½" × 11" standard weight white paper, and all material, including references and footnotes, should be double-spaced with margins of at least 1". Use 12-point Times Roman or a similar font style and size. Footnotes should be numbered consecutively throughout the manuscript using superscript numbers, with the footnotes placed on a separate page at the end of the manuscript following the list of references.

### **STYLE**

Refer to a recent copy of the *ARER* for basic style and format.

### **TABLES**

Each table should be placed on a separate page. Titles should be short and descriptive.

### **FIGURES/GRAPHICS**

After a manuscript has been accepted, the corresponding author will be requested to send hard copy originals of figures ready for photographic reproduction (generated on a laser printer with at least 600 dots per inch resolution). Each figure should be placed on a separate page, and each must have a title. Figures should also be submitted in a separate disc file, in the original software used to create them. (Do not place figures/graphics within the manuscript disc file.) Preferred (but not required) software is Excel, Quattro Pro, Corel Presentations, Power Point, or Lotus Freelance. Include spreadsheet data with the graphics, either in the graphics file itself or in a separate data file.

### **MATHEMATICAL NOTATION**

Use *only essential* mathematical notation. Avoid using the same character for both superscripts and subscripts, using capital letters as superscripts and subscripts, and using overbars, tildes, carets, and other modifications of standard type. Use your word processor's character formatting for bold (vectors and matrices), italic (variables), superscript, and subscript styles.

### **REFERENCES**

List references alphabetically and unnumbered on a separate page or pages at the end of the manuscript with the heading "References." List only those actually cited. Cite references in the text by the name(s) of the author(s) and the year of publication. If there is more than one source by the same author(s) in a given year, then use, for example, 1999a, 1999b. A style sheet on references and citations is available from the editor or through the *ARER*'s home page.

### **PAGE CHARGE**

A page charge is billed to the department or agency after the article is accepted for publication.
