The *Agricultural and Resource Economics Review* (ISSN 1068-2805) (formerly the Northeastern Journal of Agricultural and Resource Economics, ISSN 0899-367X) is the official publication of the Northeastern Agricultural and Resource Economics Association (NAREA). The purpose of the *Review* is to foster and disseminate professional thought and literature relating to the economics of agriculture, natural resources, and community development. It is published twice a year in April and October. In addition to normal refereed articles, it also publishes invited papers presented at the annual meetings of the NAREA as well as abstracts of selected papers presented at those meetings. It periodically calls for articles written on a specific topic. Membership in the NAREA is open to all persons having an interest in agricultural and resource economics. Membership dues include subscription to the *Review* and are \$15.00 per year for regular membership and \$5.00 per year for students. Single copy prices are \$7.50 per issue.

Editor's Note: In its 1992 annual business meeting, the NAREA Executive Committee and the general membership voted to change the name of the *Northeastern Journal of Agricultural and Resource Economics* (NJARE) to *Agricultural and Resource Economics Review* (ARER). The *NJARE* was published starting with volume 13, number 2, October 1984 and ending with volume 21, number 2, October 1992. The name change to *ARER*, effective with the April 1993 issue, was undertaken to broaden the scope of the journal and communicate theoretical, applied, and empirical findings in agricultural and resource economics to regional as well as national and international audiences. It is the editorial policy of the *ARER* to encourage manuscript submission without regard to author(s)' affiliation and/or location. From June 1, 1992 to May 31, 1993, fifty manuscripts were submitted for publication in volume 22 of the *Agricultural and Resource Economics Review*. All manuscripts were reviewed by at least two reviewers. Eighteen manuscripts were accepted for publication. Besides the nine refereed manuscripts, three invited papers which were presented during the 1993 NAREA annual meeting are published in this issue. During the 12-month period ending on May 31, 1993, different individuals served as anonymous referees of manuscripts submitted to the *Review*, some serving more than once. Their names are listed on page 251 of this issue.
