Washington, D. C.

P R E F A C E

This bibliography relates to the mountaineers of the Southern Appalachian region. Their home is a land of mountains, valleys, and plateaus, the eastern portion consisting of the Blue Ridge section of the Older Appalachians, and the western being the Appalachian Plateaus, sometimes called the Allegheny or the Cumberland mountains. In between lies the Great Valley, its several parts being the Shenandoah Valley in Virginia, the Valley of East Tennessee, and in Georgia and Alabama the Coosa Valley. This region is a vast area of approximately 111,000 square miles. It includes the four western counties of Maryland, the Blue Ridge, the Valley, and the Allegheny counties of Virginia, practically all of West Virginia, eastern Tennessee, western North Carolina, the four north-western counties of South Carolina, northern Georgia, and northeastern Alabama. The region is nearly as large as New York and New England, and approximately the size of England, Scotland, Wales, and Ireland.

Although many popular writers have failed to make the essential differentiations, careful students discern at least three distinct social classes in the Southern Appalachian region. These have been admirably described by Professor J. Wesley Hatcher in his essay on "Appalachian America", in the symposium, Culture in the South, edited by W. T. Couch. One group is found in the valleys of the creeks and rivers, where the soil is comparatively rich, the water supply satisfactory, and communication relatively easy. The advantages of these and other geographic factors are definitely reflected in the economic and social conditions. The second group does not differ widely from the first. Its members live along the streams where the valleys are narrower, the hills are higher and steeper, and the soil is poorer and thinner. Although there is a margin beyond bare necessity that gives a degree of independence, security, and comfort, the conditions and interests of life are on a lower plane than those of the first group.

As the third group is the primary subject of this bibliography, it calls for more detailed localization. In the words of Professor J. Wesley Hatcher, "This is the group which has been shunted to the starvation points, where slopes are steepest, soil is poorest and thinnest, exposure to sun least favorable, water supply worst, easy accessibility impossible. Here there is no incentive to labor, no margin for thrift, no basis for confidence or hope, no stimulation to aspire to higher standards or to respect the customs and values of outside society. No wonder feral men are here bred. Both physical and psysical isolation have done their worst. Incentive to anything better is lacking." Unfortunately for accurate comprehension, this group as depicted by novelists and described by popular writers has tended to be considered representative of the region as a whole, and it is hoped that this bibliography will contribute to a better understanding of these people.

No single book or article affords a convenient and accurate history of the mountaineers or of the region in which they live. The broad outlines of the beginnings of white settlement in the Southern Appalachians during the third and later decades of the eighteenth century are sketched for us by Professor Frederick Jackson Turner in his classic essay on "The Old West," reprinted in his volume on The Frontier in American History. A similar treatment is the chapter on "The Backwoodsmen of the Alleghenies, 1769-1774," in Theodore Roosevelt's Winning of the West. For the years since the American Revolution we are less fortunate as the region has been dealt with only in separate fragments, by States, counties, or towns, or in discussions of special phases of American history, such as German and Scotch-Irish immigration. The history of the mountaineers can be fully comprehended only by obliterating the State boundaries that conceal the essential unity of their homeland, by correlating the special and fragmentary studies, and by filling the gaps in the material through further research in the primary sources.

The references in this compilation have been checked with those given in earlier bibliographies on the same subject, namely, Mabel A. Babcock, The Southern Highlander (New York, Russell Sage Foundation, 1932. 4 p.), Mrs. Olive A. (Dame) Campbell, The Southern Highlands (New York, Russell Sage Foundation, 1920. 4 p.), and H. H. B. Meyer, List of References on the Mountain Whites (U.S. Library of Congress, Division of Bibliography No. 633. Mar. 6, 1922).

The card catalogs of the U. S. Department of Agriculture Library and the Library of Congress have been systematically consulted. The latter institution is the chief repository of the material listed in this bibliography.

The following indices have been used: the Agricultural Index, 1916-November 1935; the International Index to Periodicals, 1920-November 1935; the Industrial Arts Index, 1914-October 1935; Readers' Guide to Periodical Literature, 1900-November 1935; Readers' Guide to Periodical Literature Supplement, 1907-1919; and Writings on American History, 1906-1930.

To those who kindly answered our inquiries with information and suggestions on various topics in this bibliography, we express our appreciation.

Ashley, George H.

A geologist's glimpse at mountain people. Berea Quart. 12 (1):13-20. April, 1908. (1)

Ashworth, John H.

The Virginia mountaineers. So. Atlantic Quart. 12:193-211. July, 1913. (2)

The author contends that "the ordinary picturesque portrayal of the Southern mountain folk in newspapers, magazines, missionary literature and missionary expositions forms a very striking contrast to these mountain people as seen in real life...."

The view of the Virginia mountaineers, along with other Southern Highlanders, as presented in the editorial columns of leading newspapers and magazines, in John Fox, Jr.'s Blue Grass and Rhododendron, Samuel H. Thompson's The Highlanders of the South, and the scenes of the mountaineers presented at expositions in Baltimore, Boston, and Cincinnati are criticised.

The author then presents "some facts pertaining to the seventeen extreme southwestern counties of the 'old Dominion.'...In order that the statistical facts may serve as an index of the actual social, religious, educational and economic conditions of the remotest of these counties, it is necessary to give specific data by counties rather than for the section as a whole." Tables on area, population, physicians, normal-school attendance and high schools, colleges, churches, banking, rural mails, phones and railroads.

Change comes to the Appalachian mountaineer. Current Hist. 31: 961-967, illus. February, 1930. (17)

Introduction; causes of illiteracy; isolated communities; customs and ballads; rising tide of industrialism; economic conditions.

Calfee, John E.

The mountain problem; blue prints of the Blue Ridge. Presbyterian Mag. 35:241-242. May, 1929. (18)

"The mountaineer's two great needs are, therefore, some degree of economic security and an opportunity for mental and social development....

"The mountain problem will never be solved as such. It will gradually be absorbed: the people will take over here and there community centers, the local boarding schools, the churches for self-support, the health centers, and other outside agencies of help. There will always remain need for a few outstanding institutions dedicated to training for leadership in school, in industries and in Church."

Campbell, Robert F.

Classification of mountain whites. South. Workman 30:110-116. February, 1901. (19)

The author, pastor of the First Presbyterian Church of Asheville, N.C., and chairman of the Home Missions Committee of the Asheville Presbytery, discusses the various uses of the term "mountain whites," and then the various groupings by which they may be considered.

"First:- There are those whose ancestors settled in the broad, rich valleys, or on extensive plateaus, where we now find prosperous towns begirt with fertile farms....Second,- Radiating from these valleys and plateaus are ranges of mountains, growing more and more rugged and inaccessible, among which may be found two other grades of our mountain people. The higher grade consists of those who have preserved the general characteristics that mark the Scotch-Irish wherever they are found.... It remains to speak of a third and lower grade found in the Appalachian Mountains. The people of this class are shiftless, ignorant, and apparently without aspirations...."

The passing of the backwoods. *Ladies' Home Jour.* 35 (12):16, 44, illus. December, 1918. (63)

The author holds that as a result of the World War, "America is cleaning up her backwoods. She has sounded her bugle call for freedom and, like the Pied Piper of old, her children are rising up to follow from every hidden home in the mountains of Kentucky, Tennessee and Arkansas."

The Anglo-Saxons of the Kentucky mountains: a study in anthropogeography. *Geogr. Jour.* 17:588-623, illus. June, 1901. (85)
Reprinted in *Amer. Geogr. Soc. Bul.* 42:561-594, map. (August, 1910).
"The whole civilization of the Kentucky mountains is eloquent to the anthropogeographer of the influence of physical environment, for nowhere else in modern times has that progressive Anglo-Saxon race been so long and so completely subjected to retarding conditions; and at no other time could the ensuing result present so startling a contrast to the achievement of the same race elsewhere as to this progressive twentieth century."

Heredity. *Atlantic Mo.* 144:349-354. September, 1929. (86)

Sherman, Mandel.

Environment and mental development; a study of an isolated community. *Amer. Assoc. Univ. Women, Jour.* 23:137-140. April, 1930. (87)

"This paper is concerned with a preliminary psychological survey of an isolated community in Virginia, consisting of a group of families living in a hollow of the Shenandoah Valley so definitely circumscribed by two mountain ranges on either side that communication with the outside world was difficult." The data were collected with the aid of Dr. Cora Key.

Shockel, B. H.

Changing conditions in the Kentucky mountains. *Sci. Mo.* 3:105-131, illus. August, 1916. (88)

"This summary of changing conditions in the plateau of eastern Kentucky is based upon a month's field work, supplemented by previous and subsequent studies." The order of treatment is as follows: topography and surroundings; settlement; mineral resources; forest resources; animal resources; agriculture; manufacture; transportation; population; institutions; customs and habits; the future.

"Eastern Kentucky is a part of the Cumberland Plateau, and consists of 35 counties with an area of some 12,943 square miles, that is, about one third of Kentucky. It is a part of the Southern Appalachian Highlands."

Smith, John F.

High up in some lonesome valley. *Rural Manhood* 10:109-111. March, 1919. (89)

The author's views of what the mountaineer soldier boys faced when they returned from the World War.

Real life in the Southern mountains. *Rural Manhood* 10:53-55, 58, illus. February, 1919. (90)

In the introduction the author comments on the articles and books hitherto written on the subject as follows: "I do not hesitate to say that the writers in most cases have either unwittingly or purposely presented only one phase of the life of the people. The quaint, the retarded, the erratic have been commented on, and the more important qualities have been slighted." The people, p. 53-54; the schools, p. 54-55; the churches, p. 55; a great field for county work, p. 55, 58.

[Appalachian hamlet.] Outlook 108:896-899. Dec. 16, 1914. (92)

The observations of the Spectator, a columnist, on an Appalachian hamlet.

Steer, Mary A.

New roads through the Southern mountains. Women and Missions 3:286-289, illus. November, 1926. (93)

"The last ten years have seen marked improvement in the condition of the mountain folk. The introduction of diversified farm crops, improved methods of farming generally, and large industrial developments are putting ready money into the hands of the mountaineers. Comfortable houses are replacing windowless cabins. Educational standards have been lifted and consolidated schools have sprung up in many districts. Miles of improved highways have been built which make transportation and travel comparatively easy, and cooperative marketing organizations such as the Farmers' Federation of Asheville, North Carolina, and cooperative credit unions such as the Brasstown, North Carolina, Savings and Loan Association, are successfully operating in many communities."

Work of the Presbyterian Church in preparing mountaineers for the new conditions which the changes are bringing.

Sutherland, Elihu Jasper.

The changing Southern mountaineer; from a native mountaineer's standpoint. Va. Jour. Educ. 24:72-75, 79-81. October, 1930. (94)

"The mountaineer is changing. But let it be understood that not all the things that have characterized him in the past have been bad, or ought to be discarded; that much that he has learned from his defamed ancestors, and treasured through his days of isolation, is of the world's best and that it must be preserved to sweeten and bless the lives of generations yet unborn. A few of these fine old characteristics, worthy of preservation, are their sterling independence, their simplicity in all things, their innate honesty, their hatred of cant and hypocrisy, their concern for the rights of property and their hearty hospitality...."

Thomas, Jean.

"I don't favor no traipsin' wimmin..." Amer. Mag. 107 (5):58-60, 161, 162, 163, 164, 165, illus. May, 1929. (95)

The title is an expression of the view which the mountain folks took of the author when in the Kentucky hills as a court reporter.

(100)

"It was from a desire to see something of this old frontier life
that I recently undertook a very short journey in the mountains of
eastern Kentucky. In this descriptive article I shall simply jot
down certain impressions and indicate a few lines of investigation
which this interesting social survival suggests. It is hardly
necessary to say that I have attempted no sweeping generalizations
on the basis of a four-days' ride through parts of three counties."

The illustrations include views of the following: an upright corn
field; a typical cabin; a home-made cotton gin; spinning flax; weaving
on a hand loom; three patterns of 'linsey'; a grist mill; a mill
with an overshot wheel; whipsawing; schoolhouse; a moonshine still.

Cheesemaking brings prosperity to farmers of Southern mountains.

U.S. Dept. Agr. Yearbook 1917:147-152, illus.

(167)

Also issued as Separate 737.

"Agricultural development is often delayed in isolated communities. Where communication with the outside world is difficult, farm practice changes very slowly. Until recently such was the case in many of the mountain districts of Virginia, West Virginia, North Carolina, South Carolina, Georgia, Tennessee, and Kentucky. These districts have a total area of about 50,000 square miles, or a little less than that of the State of Wisconsin. Throughout large areas of the mountain districts agricultural development has been very slow. Cheese production and the improvement of cows, however, appear to point the way toward financial and industrial independence for many parts of this area."

Agricultural conditions; conditions favoring cheesemaking; cooperative plan adopted; establishment of factories; improvement in dairying methods; factories proving to be successful; standard of living rising.

Farming Appalachia. *Amer. Rev. of Reviews* 53:329-336, illus.
March, 1916. (183)
"This is a story of the typical farming family in 'Appalachia'-
our own Southern mountainous region,- whose dwellers are the victims
of an economic tragedy in a country that would have been capable of
becoming an agricultural Eden if the people had had the good fortune
to follow an agriculture befitting their environment." The author
advocates a mountain agriculture, a tree agriculture which prospers
without the plow and its attendant erosion, and gives particular
attention to chestnuts and pecans. The thesis is clarified by
comparisons with the agriculture of Corsica.

Eaton, Allen.

A catalogue of mountain handicrafts by the members of the Southern Highland Handicraft Guild...circulated by the American Federation of Arts. [32] p., illus. [n.p. 1933]. (195)

The handicrafts of the Southern Highlands, by Allen Eaton, p. 5-11.

Price lists of the products of the members of the Guild, p. 12-27.

"The purpose of this exhibition of the work of the Southern Highland Handicraft Guild is to suggest to the people of our country the quantity, quality, and variety of hand work which is done in the area known as the Southern Highlands,...The Southern Highland Handicraft Guild is a cooperating organization to which all craftsmen and handicraft producing centers are eligible whose work measures up to the Guild's standard in quality, design, and workmanship. The purpose of the Guild is to encourage not only good design and craftsmanship, but especially originality and individuality in the things made; and to work out together problems which cannot be solved by the separate individuals or producing centers alone."- Foreword.

This exhibit was shown at Blacksburg, Va., before the American Country Life Conference, in New York City, and Washington, D. C. See Clementine Douglas, "The Guild Exhibit at Blacksburg," *Mountain Life and Work* 9 (3):28 (October, 1933). See also "Southern Mountain Folk Bring Handicraft Work to Corcoran," *Washington, D.C., Sunday Star* Oct. 14, 1933.

Palmer, Estelle.

Mountain industries in the South. Country Life in America 27: 69-70, illus. December, 1914. (204)

"Since the early days of this country, the mountain cabins of western North Carolina have been the scenes of various home industries the Biltmore Estate has made possible an educational system which develops the girls and boys into designers and producers of artistic things... What is being done at Biltmore, Berea, Maryville, and Asheville, is being done, in a smaller way, in other sections and in less conspicuous places."

The illustrations show the following: a collection of the varied output of the mountaineers; the "Blue Mountain Room" in the White House; a moonshine still; a coverlet in process of weaving; a typical mountaineer's cabin; ox team on a wagon; a mountain mill with overshot wheels; winding yarn from the distaff; inside of an old mountain home.

Selby, Forest T.

The making of a vase by a home craft potter. Indus. Educ. Mag. 28:49-51, illus. August, 1926. (205)

The pictures and the facts for this article were secured by the writer on a visit to a number of small home potteries located in central North Carolina. The pictures were taken at the Auman Pottery at Seagrove.

"At present there are perhaps no more than eight or nine people in the entire section who can work at the wheel. They formerly made only jugs, stone churns, and milk crocks, but since good roads have made travel possible, these few out-of-the-way potters have added flower pots, vases, and candle sticks to their wares."

"Twenty-five years ago a few women in Brittain's Cove, near
Asheville, began in a modest way to revive the fast dying craft of
hand-weaving in the Southern mountains. From this attempt grew the
Allanstand Cottage Industries, Inc., with a salesroom on the principal
business street of Asheville and with sales for the year 1918 amounting
to \$10,000.... In our minds its purpose was threefold: first, to
give paying work to women in isolated homes; second, to give to women
who seldom go beyond their own dooryards a new interest, the pleasure
of producing beautiful things, and to foster habits of thrift and of
keeping work up to a standard; third, to save from extinction the old-
time crafts."

School for the New Age
Saluda, North Carolina

Garland, J.

Mining mountain America. Nature Mag. 18:122-123, illus. August, 1931.

(239)

"...the Blue Ridge sprawls lazily from Pennsylvania to Georgia. In its fastnesses dwell some four million souls, their daily rounds of unremitting toil little leavened by the tides of civilization that beat against their foothills. But poor, untutored as they are, they possess locked in their memories and their heritage, the only folkways and arts that can be described as purely American.... Spurred by the realization that something precious is passing with the arts of the mountaineers, and that technological unemployment is driving an entire class back to farms that are foredoomed to failure, artists and sociologists have combined to make it possible for native workmen to return to the cherished crafts of other days. Many experiments have been tried.... An experiment that goes farther than the others, however, is the School for the New Age, at Saluda, North Carolina. Instead of refreshing the memory of mountaineers regarding their ancestors' designs,...it is developing a new art, inspiration for which is born in the natural surroundings."

55. August, 1933. (260)

From the Southwestern Review.

"In 1928 the forces of industrialism and agrarianism were delicately balanced in the South.... Now that the delicate balance has been rudely disturbed by a strong dip on the side of industrialism, the southern population has been able to revert to agrarian pursuits during the interval of adjustment."

Cook, John Harrison.

A study of the mill schools of North Carolina. 56 p., illus. New York City, Teachers College, Columbia Univ. 1925. (261)

Thesis (Ph.D.), Columbia University, 1925.

A doctoral dissertation on school conditions in North Carolina villages. Accounts of tests given mill children, with sufficient interpretation of conditions to give a graphic picture.

Machine age in the hills. 248 p., illus. New York, Macmillan Co. 1933. (313)

The effects of technology in the coal fields of Kentucky and West Virginia. In beginning his subject the author says: "A machine age twilight has settled over the coal hills of the South. There, during the past two decades, a region of small farmers was made momentarily prosperous by a sudden invasion of industry; then the wave passed, leaving them spoilt for the old way of life and helpless to face the new. Here, in miniature, is a cycle which technology seems to be working out in America at large." A section is devoted to each of the following topics: "machine age in the hills"; the people; the radical approach; the Quakers in action; and ways out.

Review by A. G. Weidler in Mountain Life and Work 9 (1):30-31 (April, 1933); by Abram L. Harris in the Nation 137:165-166 (Aug. 9, 1933). by Robert Redfield in the Amer. Jour. Sociol. 40:265-266 (September 1934).

Mountaineers underground. Mountain Life and Work 8 (1):1-3. April, 1932. (314)

Permanent part-time. Survey 22:266-268, 290, illus. May, 1933. (315)

"The opening of the Appalachian coal reserves- to supply the needs of the 1920 boom decade- suddenly changed the mountaineers into miners; and the subsequent decline in the importance of coal as an industrial fuel quite as suddenly withdrew prosperity from the mountains, leaving a bewildered people without a living wage and unable to recapture the old hill farm life." The article tells what the Quakers have done to meet this situation. "Here are fact and experience on which to base the new deal in the stricken soft-coal country."

Solow, Herbert.

Modern education. Nation 134:493. Apr. 27, 1932. (316)

A letter protesting the attitude taken by certain university officials toward the trip of students under the auspices of the National Student League to study conditions in the Kentucky coal fields.

Waste in mountain settlement work. Natl. Conf. Charities and Correction, Proc. 1908:91-95.

(343)

"There are three distinct defects in the so-called mountain settlement work as now prosecuted along the Appalachian Highland. First, lack of co-operation between workers or promoters of these isolated stations in the mountains; second, lack of correlation of the enterprises with existing permanently organized institutions...; third, lack of expert study of the social, industrial, educational and religious problems peculiar to mountain peoples in isolated communities."

Urquhart, Lewis K.

Berea's Labor Day. Factory and Indus. Managt. 78:52-55, illus.
July, 1929. (474)

Berea's Labor Day is an annual May event. It is "a day of parades,
labor awards, contests and prizes- a day set aside in recognition
of the labor activities which are, not incidental to the school program,
but a vital part of it."

"There are four schools in Berea, the Foundation-Junior High with
some 800 students, the Academy, the Normal School and the College with
450 to 500 students each. In the Foundation and secondary schools,
the aim is to select boys and girls over sixteen who cannot be served
by local public schools, or who are in need of special vocational
training to equip them for richer life in the mountains. From the
secondary groups and from mountain schools, Berea is trying to bring
into the college department a chosen group of men and women....
Perhaps the need for tying a labor program into an educational plan
will be better understood when it is known that 93-per cent of the
students come from the mountain counties of eight southern Appalachian
states- from families whose annual cash incomes may be only \$100
or even less!"

The use of games in the life of the John C. Campbell Folk School.

Campbell, Olive D.

A co-operating community. Mountain Life and Work 5 (1):19-21. April, 1929. (543)

"...December, 1925, saw the beginning of a unique experiment, known as the John C. Campbell Folk School, in the community of Brasstown, North Carolina. Brasstown is not a town, but the post-office for a small rural community at the junction of Big and Little Brasstown Creeks, in the southwestern corner of North Carolina, on the borders of Cherokee and Clay Counties. The John C. Campbell Folk School is not a school in the ordinary sense of the word, but represents a new kind of rural education which has many different phases of activity. Community and school are one as far as possible, in an effort to secure a better life in the country...."

The following cooperative organizations have been established: Brasstown Savings and Loan Association, a community hatchery, a farmer's association, a cooperative handicraft association, and a cooperative creamery.

". . . The John C. Campbell Folk School is an experiment in the application of the Danish principles.
"Beginning its life in January, 1926, as a home in the community it has sought, through active share in the community activities, to build a firm foundation of local understanding for the school proper, which opens in December, 1927. The farm of some 180 acres, in charge of an able young Danish farmer, is at once a frank recognition of the economic problem of the region, a demonstration of new methods, and in time will be, we hope, a means of partial self-support.
"The school is incorporated under the laws of North Carolina, and has the approval and deep interest of the Conference of Southern Mountain Workers. The American Missionary Association, the Board of National Missions of the Presbyterian Church, U.S.A., and the National Council of the Protestant Episcopal Church, contribute toward the support. Otherwise the school is dependent upon gifts from interested friends who recognize the importance of this new type of education."

Moonlight Schools and Adult Illiteracy

Mrs. Cora Wilson Stewart was superintendent of schools in Rowan County, Kentucky, when she conceived the idea of opening night schools for adults on evenings when the light of the moon would make travel on the dark country roads possible. The work of organizing these "moonlight schools" began on Labor Day, Sept. 4, 1911. Meanwhile they have been extended to twenty-five other counties in the State. In 1914 an Illiteracy Commission was created by the State of Kentucky to further the work. At the time of the writing of the article, such schools were conducted in seventeen states.

FOLKLORE AND FOLK SONGS

Articles

Bascom, Louise Rand.

Ballads and songs of western North Carolina. Jour. Amer. Folklore 22:238-250. April, 1909. (675)

Introduction; Kitty Kline; Bonny Blue Eyes; Midnight Dew; My Own True Love; Jesse James; John Hardy; Lulu.

Botkin, B. A.

Folk speech in the Kentucky mountain cycle of Percy Mackaye. Amer. Speech 6:264-276. April, 1931. (676)

Bradley, William Aspenwall.

The folk culture of the Kentucky Cumberlands. Dial 64:95-98. Jan. 31, 1913. (677)

The author holds that "in spite of all that has been written, less is really known about the Cumberlands than about any other corner of the country.... This applies particularly to the novelists... It is to be encountered even in the work of such a writer as Miss Ellen Churchill Semple..." The author attacks Miss Semple's statement that the mountaineers are "the purest Anglo-Saxon stock in the United States" and also her statement that there are no negroes in the mountains. The last half of the article pertains to ballads.

"Song-ballets and devil's ditties." Harper's Mag. 139:901-914, illus. May, 1915. (678)

"...the mountain people have their primitive culture as well as their primitive civilization. And who shall say that the root of this mountain culture, whose flower is pride, courtesy, and a noble bearing, does not lie in these old ballads which have for so many generations shaped their imagination, rendered their speech expressive, and helped to impart to each of their acts, however humble or homely, that sense of style which, more than anything else, even in what is evil and sinister, accounts for the romantic appeal made by these rude mountaineers?"

Reprinted in Berea Quart. 18 (4):5-20 (October, 1915).

Brockway, Howard.

The quest of the lonesome tunes. Art World 2:227-230, illus. June, 1917. (679)

The experiences of Miss Loraine Wyman and the author in the Cumberland Mountains in southeastern Kentucky during the spring of 1916 while searching for folk songs. Miss Wyman had made the singing of folk songs her especial field and the author is a composer who was seeking new material.

Folklore and folk songs: Articles

The substance of this paper appeared with the same title in Music Teachers' Natl. Assoc. Papers and Proc. Studies in Musical Education, History and Aesthetics, ser. 14, p. 59-67 (Hartford, Conn. 1920). Also published in part with the title, "Out of the Primitive," in All the Arts 3 (8):31-33 (Detroit, 1920).

Witchcraft in North Carolina. Studies in Philology (University of North Carolina) 16:217-287. July, 1919. (687)

Bibliographical footnotes.

"The...sketch, prepared at the request of the [branch of the American Folk-Lore] Society, was designed originally to deal with only one of the many phases of folk superstition- Witchcraft; but owing to the heterogeneous character of the collectanea submitted, it has in process of time become a sort of omnium-gatherum of North Carolina tradition regarding magic and supernaturalism. Its purpose is twofold; first, to enumerate such items of witch lore as have already been collected in North Carolina and to point out their traditional character; second, by means of illustrations from the folk-lore of neighboring territory, to indicate what other articles of the diabolical creed future collectors may hope to discover."

The cherry-tree carol. Jour. Amer. Folk-lore 29:293-294. April, 1916. (703)

Cf. the note on p. 417.

"Following Music" in a mountain land. Musical Quart. 3:364-384. July, 1917. (704)

"The fastnesses of the Kentucky mountains, too exclusively identified with feuds and illicit stills, may boast this particular aesthetic activity known in the vernacular as 'followin' music'. The quaint phrase is a general formula. The music to which it refers may be thus classified: traditional English and Scotch ballads; songs of later origin bordering on folk-ballads; local improvisations, notably feud songs; finally, religious and play songs."

The Kentucky mountain dulcimer. Musician 22:21. January, 1917. (705)

"...in humble Kentucky Mountain cabins, where many Old World traditions and customs still linger, the Kentucky highlander re-echoes upon his dulcimore the strains which rang from voice and harp of highland minstrels of the British Isles long years ago."

Old ballad burthens. Musical Quart. 4:293-306. April, 1918. (706)

"...it has been said that all the earliest ballads and other traditional songs once had a refrain or burden, their link with 'the dance, work or play of the people, going back to that choral repetition which is the protoplasm of all poetry'...."

"During a visit to the Kentucky Mountains...among the most valued of the songs there collected were those still retaining a vestige of the repetition which has been pronounced the 'organic test.' the 'fundamental fact' of ballad structure...."

"With their abiding charm well have these old burthens been described as an 'imperious choral...a murmur of voices in concert, borne over great stretches of space and through many changes of time'."

Kentucky folk-lore. Jour. Amer. Folk-lore 14:30-38.
January-March, 1901. (721)

"On numerous botanical collecting trips through Southern Kentucky, I have found that there still prevail many of the superstitious ideas of a less civilized age. Implicit faith is placed in signs, or 'tokens' ... omens and charms, even by very sensible, well-informed people.... many of the ideas given below are common to people of other States, but the greater part of them are peculiar to this section,..."

Puckett, Newbell N.

Religious folk-beliefs of whites and negroes. Jour. Negro Hist.
16:9-35. January, 1931. (722)

Rothbert, Otto A.

Josephine McGill- pioneer in the Kentucky ballad field. Hist.
Quart. 3:28-29. October, 1928. (724)

The work of Josephine McGill (1877-1919), Kentucky composer and pioneer, in gathering and preserving the quaint ballads surviving in the Kentucky mountains.

Shearin, Hubert G.

British ballads in the Cumberland mountains. Sewanee Rev. 19:
313-327. July, 1911. (725)

The author says: "My pastime for some years has been to gather the folk-songs of this region; over three hundred are now in the collection." The article is devoted to the "songs coming from the mother country on the lips of pioneers, to live for three hundred years thereafter by oral transmission solely, ... These...[are] presented in the following order: first, ballads from England and Scotland which can be identified by their parallels as preserved in the numerous printed editions, notably those of Professors Child and Kittredge... second, songs whose original British variant is either lost or difficult of identification, yet which from internal evidence are undoubtedly insular; third, ballads from Ireland."

Summary and excerpts under the title, "Oversea Ballads in Kentucky Valleys," in Amer. Rev. of Reviews 44:497-498 (October, 1911).

Smith, Arthur.

"Hill Billy" folk music. Etude 51:154, 208. March, 1933. (726)

Lowly native white folk of the South who sing about Kinnie Wagner, "who did not fear the chair," about Billy the Kid, "who, at the age of twelve, killed his first man," about Floyd Collins, Mary Phagan, Jessie James and Frank Dupree.

Child, Francis James, editor.

The English and Scottish popular ballads. 5 v. Boston and New York, Houghton, Mifflin & Co. [etc. 1883-98]. (750)

Issued in ten parts. Part 10 edited after the author's death by G. L. Kittredge.

Biographical sketch of Professor Child, by G. L. Kittredge, v. 1, p. xxiii-xxxi.

Various other editions; first edition, 1857-59.

"It is a notable fact that when Professor Child's great work on British folk-songs was given to the world (1898), the Harvard professor was leaving untouched not only scores of traditional ballads down in the Kentucky mountains, but hundreds. He thus blazed a trail in the world of balladry from which subsequent balladists have been slow to depart;... For this reason the great mass of traditional British ballads in America, as well as those indigenous to American soil, have been somewhat belated in coming into their own."- Josiah H. Combs, p. 31-32.

Cobb, Anne.

Kinfolks; Kentucky mountain rhymes. 81 p. Boston, Houghton Mifflin Co. 1922. (751)

In this unusual volume of verse a poet has caught the rugged outlines of the Cumberland Mountaineers. She has taught and lived among these people for fifteen years, and is now associated with the Hindman Settlement School at Hindman, Kentucky.

White Top Mountain Folk Festival

Buchanan, Annabel Morris.

Interstate folk festival held in Virginia. *Musical Amer.* 51 (14): 26. September, 1931. (772)

"The first Interstate Mountain Folk Music Festival, held on White Top Mountain, near this city [Marion, Va.] on Aug. 15, was most successful. The festival was planned by Mrs. John P. Buchanan of Marion, composer and chairman of the American Music Section in the National Federation of Music Clubs, and John A. Blakemore of Abingdon, manager of the White Top Company. The object was to arouse public interest in the rich store of folk music to be found in this vicinity."

Virginia, North Carolina, and Tennessee were represented by contestants.

I. G. Greer of Boone, N.C. gave a talk on the folk music of North Carolina.

Crawford, Bruce.

Folk music at White Top. *New Republic* 76:74-75. Aug. 30, 1933. (773)

"It was to see and hear the mountain banjo-pickers, fiddlers, ballad singers and dancers, and to restore appreciation of American folk music, that composers, collectors of ballads and representatives of folk societies attended the Folk Festival held August 11 and 12 at White Top, Virginia.

"This is the third annual festival sponsored by Mrs. J. P. Buchanan, of Marion, Virginia, and John M. Blakemore, of Abingdon, with the able assistance of John Powell, pianist and composer, of Richmond."

D., M. B.

Reviving balladry in the Virginia mountains; thousands attend outdoor festival which preserves ancient melodies. *Musical Amer.* 52 (14):7, illus. September, 1932. (774)

"Between five and six thousand visitors, from twenty-one states, witnessed the successful conclusion of the White Top Folk Festival, on White Top Mountain, near Marion, in Southwest Virginia on Aug. 13.

"White Top is the centre of a region which contains some of the finest folk music in America. The inhabitants are for the most part descendants of the original English and Scotch-Irish settlers who first penetrated the Southern Appalachian highlands. Ancient Anglo-Saxon folk music still exists here in purest form, with early American folk tunes and ballads based upon the history and legends of this region."

White Top Mountain Folk Festival

Jackson, George Pullen.

White Top Festival keeps folk music alive. Musical Amer. 53 (14):
7, 30, illus. September, 1933. (775)

"The third annual White Top Folk Festival held on Friday and Saturday,
Aug. 11 and 12, on the lofty mid-Appalachian peak from which it takes
its name, was attended by more than 20,000 people, while the folk
singers, players and dancers, gathering from many states of the
southeast to compete for prizes, numbered around 400."

There were exhibits of "coverlids," pillow tops, hooked rugs, and
examples of folk art.

Feud. Amer. Mag. 119 (2):71, 112-114, illus. February, 1935. (791)

"Another fragment of real life- set down in sharp, clear outlines by a distinguished author who knows, loves, and lives with the small-town people of whom he writes."

Armstrong, Anne W.

The southern mountaineers. Yale Rev. 24:539-554. March, 1935. (792) ✓

"It has been generally assumed, and correctly, that the decline in the mountaineers' prosperity is due to progressive deterioration in their steep little farms through soil erosion and generally unenlightened husbandry, and, in some degree, to the gradual destruction of forests with the resulting loss of hunting and trapping which, in earlier days, were no small item in helping to provide their living. But over and above any such natural forces as were working slowly for their ultimate undoing, was a situation imposed upon them from the outside that in less than two decades worked them incalculably greater harm than natural forces had done in nearly two centuries. This was Prohibition."

In characterizing the people themselves, she says: "But over and above the spirit of joyousness which pervades this robust people, habitually shy and restrained before strangers, but lively- even bold and daring- among themselves, they possess at once with a barbarism that will make them sink their teeth into the lip of a refractory horse or mule, precisely as a wild Indian would do, a tact so deep and innate and delicate, a kindness so spontaneous, a politeness so marvellous, as to shame any but the most insensitive among dwellers in the outside world who have contact with them. It is their generosity, however, of which their hospitality- famed wherever their own fame has reached- is but one phase, which especially distinguishes these people from others more highly 'civilized.'"

Asher, E. J.

Inadequacy of current intelligence tests for testing Kentucky mountain children. Pedagogical Seminary and Jour. Genetic Psychology 46:480-486. June, 1935. (793) ✓

A report based on a survey instituted to determine the intelligence status of rural-school children in a mountain county in southeastern Kentucky.

Corey, Herbert.

T V A as the Valley people see it. Nation's Business 23 (8):
22-24, 54-57, illus. August, 1935. (800)

"So far as I was able to discover the dwellers in the Valley accept with gratitude the material benefits showered on them by the TVA. Money has poured on them in a flood. Thirteen thousand local men are at work for the TVA and at equitable if not generous wages. The rates for electric current have been reduced. There is a prospect of further reduction. If Congress continues to appropriate money, other millions will be spent in the Valley....

"Yet they seem able to take a detached view of the Tennessee Valley experiment. They do not know whether it will work in the long run or not. They are willing to find out, especially as they are well paid for being willing. They are neither accepting its political significances and implications nor are they in opposition. If the thing goes wrong they are confident that it can be corrected. If it goes right no correction need be made.

Schools for the mountaineers (editorial). New Republic
78:202-203. Apr. 4, 1934. (828)

"While the existing institutions are being encouraged, new ones
should be added on a different basis. The basis is simple- that
tuition and board should be provided as cheaply as possible; that the
students have an opportunity to earn while they are learning, under
favorable conditions; that they have some form of self-government and an
opportunity to retain and develop their own good customs; that they
shouldn't feel themselves dependent on alien charity."

A reply by Jesse Stuart to this editorial is given under the title,
"Leave the Mountaineers Alone?", in the New Republic 78:366 (May 9,
1934).

UNITED STATES DEPARTMENT OF AGRICULTURE

Library

Bibliographical Contributions

- No. 1. A check list of publications of the Department of Agriculture on the subject of plant pathology. 1837-1913. 1919. (Superseded by no. 8.)
- No. 2. Check list of publications of the state agricultural experiment stations on the subject of plant pathology. 1876-1920. 1922. (Superseded by no. 16)
- No. 3. Check list of publications issued by the Bureau of Plant Industry, United States Department of Agriculture, 1901-1920 and by the divisions and offices which combined to form this bureau, 1862-1901. 1921
- No. 4. Bibliography on the preservation of fruits and vegetables in transit and storage, with annotations. 1922.
- No. 5. Index to some sources of current prices. 1923.
- No. 6. Partial list of publications on dairying issued in the United States, 1900 to June, 1923. 1925.
- No. 7. Bibliography on the marketing of agricultural products. 1924. (Superseded by U.S. Department of Agriculture Miscellaneous Circular 35).
- No. 8. Author and subject index to the publications on plant pathology issued by the U.S. Department of Agriculture up to January 1, 1925. 1925.
- No. 9. World food supply. A selected bibliography. 1925.
- No. 10. Refrigeration and cold storage. A selected list of references covering the years 1915-1924 and the early part of 1925. 1925.
- No. 11. List of manuscript bibliographies and indexes in the U.S. Department of Agriculture including serial mimeographed lists of current literature.
- No. 12. Peat: A contribution towards a bibliography of the American literature through 1925. 1926.
- No. 13. A classified list of soil publications of the United States and Canada. 1927.
- No. 14. List of the publications on soils issued by the U.S. Department of Agriculture, 1844-1926. 1927.

- No. 15. List of the publications on soils issued by the State agricultural experiment stations of the United States through 1926. 1927.
- No. 16. Author and subject index to the publications on plant pathology issued by the State agricultural experiment stations up to December 1, 1927. 1928.
- No. 17. Bibliography on ice cream up to and including the year 1926. 1928.
- No. 18. Agricultural and home economics extension in the United States. A selected list of references. 1928.
- No. 19. Cattle, sheep and goat production in the range country. A selected list of publications issued by the U. S. Department of Agriculture and the agricultural colleges, experiment stations, and departments of agriculture of the seventeen range states. 1928.
- No. 20. Check list of publications on entomology issued by the U. S. Department of Agriculture through 1927, with subject index. 1930.
- No. 21. List of publications on apiculture contained in the U. S. Department of Agriculture and in part those contained in the Library of Congress. 1930.
- No. 22. George Washington and agriculture. A classified list of annotated references, with introductory note. September 1931.
- No. 23. Agriculture of the American Indians. A classified list of annotated historical references with an introduction. Ed. 2. June 1933.
- No. 24. Selected references on the history of English agriculture. July 1935.
- No. 25. References on the significance of the frontier in American history. October 1935.
- No. 26. Selected references on the history of agriculture in the United States. November 1935.
- No. 27. A list of American economic histories. November 1935.
- No. 28. References on the Mountaineers of the Southern Appalachians. December 1935.

The U. S. Department of Agriculture Library

The Library of the U.S. Department of Agriculture consists of the main library and the branch libraries in the various Bureaus of the Department. It is a scientific, technical, economic, and statistical library. The Library is especially strong in agriculture in all its branches, including animal husbandry and dairying, agricultural statistics, agricultural economics, veterinary medicine, chemistry, economic zoology and entomology, forestry and lumbering, botany, plant pathology, agricultural bacteriology, and meteorology. The books and periodicals in the Bureau libraries, being part of the collection of the Department Library, are included in its card catalogue except in the case of the Weather Bureau whose library is for the most part independently administered.

The Library contains over 265,000 volumes and pamphlets. More than 4400 periodicals are received currently, exclusive of serials such as annual reports, proceedings and the like. A list of both the periodicals and serial publications being received currently was issued in 1922 as U.S. Department of Agriculture circular 187. The Library's collection of local, state and national official publications of American and foreign institutions and organizations having to do with agriculture and the related sciences is especially notable. While exchanges are received from all parts of the world, constant vigilance is necessary in order to keep the library on the mailing lists and to learn of new publications. In spite of all efforts there are many gaps in the Library's collections. The cooperation of scientific workers and of publishing institutions in building up its collections is earnestly solicited. The Library of the Department is desirous of establishing exchange relations with all institutions which issue publications pertaining to the work of the Department, and will be glad to learn of special collections and old, out of print books and periodicals pertaining to agriculture or the related sciences.

The Department of Agriculture Library has no official connection with the Library of Congress but has the privilege of borrowing from that and other Washington libraries, material needed for use in the investigations of the Department. It lends to a limited extent from its own collections, for purposes of research, to other libraries and institutions throughout the country, especially to the various state agricultural colleges and experiment stations whose work is along similar lines. While the first duty of the Library is to serve the Department, it endeavors, as the national agricultural library, to render as wide service as possible.

The Library has recently inaugurated a Biblio-Film Service which furnishes film copies of scientific articles from publications in its collections. A circular of information in regard to the service will be forwarded on request.
