INTRODUCTION

This supplement is designed for use with the Poultry and Egg Situation, a report issued periodically by the Economic Research Service. A summary table containing data designed to keep statistics of this supplement up to date appears in the Poultry and Egg Situation, along with other special tables.

Most of these statistical series originate within the Statistical Reporting Service of USDA. A number of series were developed by other USDA agencies including the Economic Research Service, Consumer and Marketing Service, and Foreign Agricultural Service. Non-USDA agencies contributing series are the Bureau of the Census and the Bureau of Labor Statistics.

Since this publication mainly features information for the United States as a whole, users of poultry and egg statistics may wish to supplement this information with data from the following reports which contain annual data by States: (1) Chickens and Eggs--Farm Production, Cash Receipts, and Gross Income, and (2) Turkeys--Farm Production, Disposition, and Gross Income. They are available from the U.S. Department of Agriculture, Statistical Reporting Service, Washington, D.C. 20250.

This publication was prepared in the Poultry and Egg Section, Economic and Statistical Analysis Division, Economic Research Service, by Eunice O. Armstrong, with the assistance of Bessie J. Byrd and Joan A. Thomas, under the supervision of William E. Cathcart.

1/ Includes Alaska and Hawaii beginning in 1961.

2/ Beginning January 1, 1965, the classes of chickens changed. Pullets not yet laying are now divided into two groups, those 3 months old and older, and those under 3 months old.

3/ Loss during the year of chickens on hand January 1.

4/ Loss not include young chickens lost.

5/ Preliminary.

From 1950-64, other chickens include some pullets under 3 months of age; from 1965 to date, included are cockerals used for breeding and other male chickens.

1/ Beginning in 1960, includes Alaska and Hawaii.

2/ Estimated farm output plus nonfarm production estimated at 10 percent of farm production in 1950-54. Beginning in 1955, this adjustment was reduced 1 percentage point per year to zero in 1964.

3/ Shell eggs and the approximate shell-egg equivalent of dried and frozen eggs.

4/ Storage stocks include shell eggs and the approximate shell-egg equivalent of frozen eggs. In 1950-58 commercial storage holdings also included the shell-egg equivalent of reported stocks of dried eggs solids.

5/ Beginning in 1955 exports under the Mutual Security Act of 1951 and USDA donations to Territories.

6/ Estimated on the basis of chickens hatched.

7/ Includes USDA donations to military and military feeding of civilians in occupied territories.

8/ Excludes storage losses of 1 million dozen in 1950.

9/ Preliminary.

Table 14.--Chicken: Supply and utilization, 1950-68

[illegible]

1/ Includes chickens, other than commercial broilers, sold from and consumed on farms where produced, plus nonfarm production of these chickens estimated at 10 percent of farm output in 1950-54. Beginning in 1955, this percentage adjustment was reduced 1 point annually, reaching zero in 1964. The factor for converting from liveweight to ready-to-cook weight was increased gradually from 68.84 percent in 1950 to the current level of 72 percent in 1958.

22/ Includes exports of turkey through 1957, dressed weight or ready-to-cook equivalents.

Beginning in 1955, exports under P. L. 480 and USDA donations to Territories.

2/ Beginning in 1977, exports under 1, 2, 400 and open donations to territories.

3/ Includes USDA donations to military and military feeding of civilians in occupied territories.

4/ Includes USDA donations to military and military feeding of civilians in occupied territories.

1/ Chicken and turkey meat excludes slaughter on farms for home use and non-farm production. Estimates of monthly poultry meat production based on available indications of marketings developed from information on inventories, numbers raised, intentions to raise and market poultry as well as data on chick placements and current monthly marketings. 2/ Includes farm slaughter, lard and rendered pork fat.
