LIBRARY

AGRICULTURAL ECONOMICS PUBLICATIONS

The following is a complete list of Agricultural Economics publications of the eleven western states from July 1, 1933 to July 1, 1937. The list includes Experiment Station and Extension bulletins and circulars and mimeographed releases. It has been compiled from material sent in by each of the Agricultural Economics Departments of the eleven western states and is believed to be accurate. This list will be kept up to date each year, and the publications which have been issued during the preceding twelve months will be listed in each consecutive volume of the Proceedings.

Unless otherwise indicated, the publications are available for general distribution. An asterisk (*) indicates that the publication is not available for general distribution. A copy of such publication for reference may be obtained from the author or from the head of the department or possibly borrowed from the Experiment Station or department library. In many cases these are out of print and, particularly in the case of mimeographed releases, a copy may be secured by writing the author or the head of the department direct rather than writing the publications clerk.

MINUTES OF THE BUSINESS MEETING

The meeting was called to order by Vice-President Ben Pubols at 1:30 P. M.

Minutes of the last meeting at Laramie, Wyoming on August 1, 1936 were read and approved.

Treasurer's report was read and approved. Secretary's report was read and approved.

It was moved by J. S. Davis that the reports by states on technological and scientific discoveries not yet common knowledge be omitted from the Proceedings. Seconded by E. F. Dummeier. Carried.

The Council recommended that the 1938 meeting be held in Bozeman, Montana. Moved by George Kuhlman that the recommendation of the Council be approved. Motion seconded and carried.

The Council nominated the following men for officers for 1937-38:

President	E. F. Dummeier
Vice-President	E. D. Tetreau
Secretary-Treasurer	R. R. Renne

Moved by H. R. Wellman that the nominations be closed and that the secretary be instructed to cast a unanimous ballot for the nominations of the Council. Motion seconded and carried.

George Kuhlman suggested that the Association make available to students copies of the Proceedings of the meeting at a minimum rate. The suggestion was referred to the Executive Committee for action.

A. S. Burrior suggested that a register of graduate students and students expecting to receive degrees in June be filed with the secretary. Referred to the Executive Committee for consideration.

Moved by H. R. Wellman that (1) Each state councilman be responsible annually for preparing a complete list of publications issued in his state during the last fiscal year in the field covered by the W. F. E. A., (2) That each state consider the advisability of including mimeographed and typed releases, and (3) That 200 copies of the list be supplied to the Secretary-treasurer for the Proceedings. Motion seconded and carried.

Report of the Resolutions Committee was read by R. R. Renne. Motion was made that the report be adopted. Motion seconded and carried. (A copy of the report is attached.)

Meeting adjourned.

REPORT OF THE RESOLUTIONS COMMITTEE

The Resolutions Committee presents the following resolutions as expressive of the views and sentiments of the members of the Western Farm Economics Association in session at the University of Nevada:

1. The Association hereby expresses its sincere thanks and appreciation to the members of the University of Nevada for their kindness in making available its facilities and for providing for the needs and entertainment of its guests.
2. It also expresses its genuine thanks to the officers of the Association for their devoted services during the past year including the preparation for and conduct of the annual meeting.
3. Furthermore, it expresses its wholehearted thanks and appreciation not only to its own members who assisted through the presentation of papers and by discussion, but also to the representatives of the various Federal agencies such as the Bureau of Agricultural Economics, the Resettlement Administration, and the Forestry Service who contributed in a similar manner. It is hoped that close cooperation of these Federal agencies with the states will be continued and encouraged so as to provide united and harmonious efforts in research dealing with the economic and social problems affecting the western states.
