Guidelines for Submitting Manuscripts

To aid in reviewing manuscripts and for efficient publication of the Journal, contributors are requested to use the following guidelines in preparing manuscripts for submission to the *WJAE*.

1. *Cover letter.* The author must indicate in a cover letter (a) why the manuscript would interest *WJAE* readers; (b) whether the material in the manuscript (or modification thereof) has been published, is being published or has been submitted for publication elsewhere; (c) that the material in the manuscript, to the best of the author's knowledge, does not infringe upon other published material protected by copyright.
2. *Cover page.* Provide a cover page with the title, author's name(s), and institutional affiliation. Place only the title on the first page of the text.
3. *Typing.* Use double-spaced typing on 8½ by 11½ inch paper with 1¼ inch margins throughout the manuscript, including footnotes and references. Number all pages. Type only on one side of the paper.
4. *Style.* Use a consistent style as indicated by a professional manual of style. An example is *A Manual of Style*, University of Chicago Press.
5. *Footnotes.* Number footnotes consecutively through the manuscript. Type the content of the footnotes on separate pages after the main text. Place any acknowledgement of colleague reviews and institutional support at the beginning of the list of footnotes.
6. *References.* List all references cited in the text in alphabetical order of the author's last name on separate pages after the main text. Do not number the references. Identify citations in the text by reference to the author's last name. Citations may appear parenthetically or as part of the text. Use the author's name plus publication date for citations to different references by the same author.
7. *Tables.* Prepare tables in desired form and place each table on a separate page. Double space throughout. Begin the table's title at the left margin above the table's body using the following format:
Table 3. Regression Results.
Review of tables for accuracy is the author's responsibility.
8. *Figures.* Submit final drafts of camera-ready copy of figures, charts and graphs drawn in a professional manner. Place each figure on a separate page of heavy white paper or acetate sheeting using black india ink for photographic reproduction. Begin the figure's title at the left margin below the figure using the following format:
Figure 2. A Demand Curve.
Review of figures for accuracy is the author's responsibility.
9. *Mathematical formulation.* Avoid excessive mathematical expression and notation. When mathematical expressions are needed, check carefully for clarity in formulation. Use standard mathematical symbols to the extent possible.
10. *Abstract.* Enclose an abstract of 100 words or less on a separate page.
11. *Manuscript length.* It is normally expected that typed manuscripts will not exceed 25 pages including text, footnotes, references, tables and figures.
12. *Publication costs.* Publication costs for the *WJAE* are largely financed by page charges levied on authors of manuscripts accepted for publication. Hence, authors submitting manuscripts are expected to assume obligation for payment of page charges at the time their article is published. Additional information on page charge policies can be obtained from the editor.
13. *Four copies.* Send four legible copies to the editor. Receipt of manuscripts will be acknowledged by return mail.
