Animal and Plant Health Inspection Service

Veterinary Services

## Reference of 1996 U.S. Regional Sheep Health and Management Practices

### Acknowledgements

This report has been prepared from material received and analyzed by the U.S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Veterinary Services (VS).

This study was a cooperative effort, and we would like to thank all participants for their efforts and dedication. The American Sheep Industry Association (ASI) co-sponsored the project. ASI's Animal Health Committee helped develop and deliver data collection materials and reviewed this and other reports resulting from the data. Personnel at the University of Minnesota and Colorado State University assisted in questionnaire development. The USDA's National Agricultural Statistics Service (NASS) conducted the sample selection, and the Colorado Agricultural Statistics Service prepared mailing labels and helped coordinate the mailing.

The participating producers were also critical to the success of this project. Their voluntary efforts made this study possible.

Dr. Al Strating, Director Centers for Epidemiology & Animal Health

Section II: Sample Profile for Reporting Operations
A. Regions
1. Number of reporting operations by region
B. Flock Size by Region
<ol> <li>Number of reporting operations by number of ewes present</li></ol>
C. Type of Operation
1. Number of reporting operations by type and region

#### Introduction

The National Animal Health Monitoring System (NAHMS) is sponsored by the USDA:APHIS:Veterinary Services (VS). From 1989 through 1996, NAHMS conducted national studies of the swine, dairy cattle, beef cow/calf, and beef feedlot industries to obtain information on animal health and management.

In 1995, NAHMS collaborated with the Research and Education Division of the American Sheep Industry Association (ASI) in developing a needs assessment tool to identify the most important health and productivity factors for the sheep industry. The resulting information will be used to develop programs and projects to enhance the profitability of sheep.

For this sheep study, the USDA's National Agricultural Statistics Service (NASS) collaborated with VS to select a producer sample that was statistically designed to provide estimates for the United States (48 continguous states) sheep population. The sample was selected and stratified by state and flock size to allow the regional comparisons included in this report. Regional designations shown in the figure below were based on climatic differences and differences in husbandry practices.

The NAHMS/ASI questionnaires were mailed to 19,807 eligible sheep operations in January 1996 with postage-paid, return envelopes. A reminder post card was sent 4 weeks after the initial mailing. In addition, a 1-800 telephone number was provided so that participants could call with questions.

Data were summarized from 5,174 respondents.

This is the second report documenting the needs assessment results, following a summary of estimates representing the national sheep population, the *Reference of 1996 U.S. Health and Management Practices*. Subsequent releases will discuss specific topics addressed by the study. All NAHMS sheep needs assessment results are available on the World Wide Web at http://www.aphis.usda.gov/vs/ceah. For questions about this report or additional NAHMS results, please contact:

Centers for Epidemiology and Animal Health USDA:APHIS:VS, attn. NAHMS 555 South Howes Fort Collins, CO 80521 Telephone: (970) 490-7800 Internet: NAHMS\_INFO@aphis.usda.gov

Wording on table and figure headings in this report reflect that used on the questionnaire. Unless specifically indicated, respondents were not given further definitions or instructions on how to respond.

### **Terms Used in This Report**

Flock size: data throughout the report are often summarized by five size groupings or categories based on the

total number of sheep and lambs on January 1, 1996, reported for each operation.

**Operation average:** a single value for each operation is summed over all operations reporting divided by the number of operations reporting. For instance, operation average percent of gross income is calculated by summing the reported percent over all operations then dividing by the number of operations.

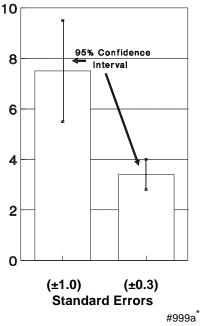

**Percent operations:** number of operations with a given characteristic divided by the total number of operations.

**Percent sheep/lambs:** the sum of the actual number of sheep/lambs on each operation with a given characteristic divided by the total number of sheep on all operations. (Percent **sheep/lambs on operations:** an operation characteristic was applied to all sheep/lambs on the operation. The total number of sheep/lambs residing on operations with a given characteristic divided by the total sheep/lambs on all operations. See the example on page 4, percent of sheep on operatons by expected change in inventory.)

**Primary breed category:** producers identified one primary breed category and all sheep and lambs on the operation were summarized in the category.

### 95% Confidence Intervals 95% Confidence 8 Interval

**Examples of** 

\* Identification numbers are assigned to each graph in this report for public reference.

Population estimates: averages and proportions weighted to represent the population. Most of the estimates in this report are provided with a measure of variability called the standard error and denoted by (±). Chances are 95 out of 100 that the interval created by the estimate plus or minus two standard errors will contain the true population value. In the example at right, an estimate of 7.5 with a standard error of  $\pm 1.0$  results in a range of 5.5 to 9.5 (two times the standard error above and below the estimate.) The second estimate of 3.4 shows a standard error of  $\pm 0.3$  results with a range of 2.8 and 4.0.

Sample profile: information that describes characteristics of the operations from which data were collected.

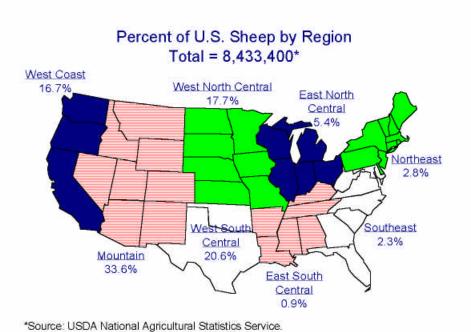

#3230

#### 6. Altered management practices

a. Percent of operations that altered the following management practices in the last 5 years due to animal welfare concerns by region:

	Percent Operations							
		~			West		West	
D	West	Standard		Standard	North	Standard		Standard
Practice	<u>Coast</u>	<u>Error</u>	<u>Mountain</u>	Error	<u>Central</u>	Error	<u>Central</u>	Error
Docking tails	16.6	$(\pm 2.5)$	15.2	$(\pm 2.2)$	17.2	$(\pm 1.8)$	19.1	$(\pm 3.6)$
Castration	14.7	$(\pm 2.4)$	14.1	$(\pm 2.1)$	18.7	$(\pm 1.9)$	18.1	$(\pm 3.5)$
Shearing	11.0	$(\pm 2.1)$	15.5	$(\pm 2.1)$	15.7	$(\pm 1.8)$	15.0	$(\pm 3.0)$
Disposal of dead animals and offal	15.5	$(\pm 2.2)$	22.9	$(\pm 3.3)$	27.7	$(\pm 2.1)$	15.0	$(\pm 2.8)$
Housing	16.3	$(\pm 2.5)$	14.2	$(\pm 2.0)$	16.5	$(\pm 1.8)$	11.7	$(\pm 2.5)$
Predator control	23.7	$(\pm 2.8)$	24.1	$(\pm 2.1)$	15.1	$(\pm 1.7)$	21.0	$(\pm 3.3)$
	East		East					
	North	Standard	South	Standard		Standard		Standard
<u>Practice</u>	<b>Central</b>	Error	<b>Central</b>	Error	<u>Northeast</u>	Error S	Southeast	Error
Docking tails	18.7	$(\pm 2.1)$	24.7	$(\pm 5.7)$	17.4	$(\pm 2.4)$	17.7	$(\pm 3.5)$
Castration	17.0	$(\pm 2.1)$	21.9	$(\pm 5.2)$	8.0	$(\pm 1.6)$	14.1	$(\pm 3.3)$
Shearing	16.5	$(\pm 2.1)$	20.3	$(\pm 5.1)$	12.3	$(\pm 2.0)$	13.1	$(\pm 3.3)$
Disposal of dead animals and offal	21.5	$(\pm 2.1)$	25.2	$(\pm 6.5)$	15.2	$(\pm 2.2)$	20.5	$(\pm 3.8)$
Housing	16.3	$(\pm 2.2)$	31.4	$(\pm 7.4)$	14.8	$(\pm 2.2)$	16.1	$(\pm 3.5)$
Predator control	15.2	$(\pm 1.9)$	29.2	$(\pm 7.3)$	15.1	$(\pm 2.1)$	18.7	$(\pm 3.4)$

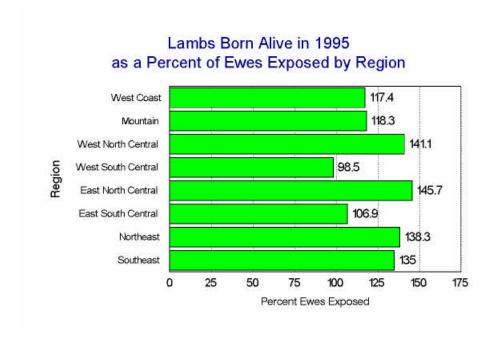

#### B. Births, Deaths, Culling, and Illness

#### 1. Productivity

a. Lamb outcomes as a percent of ewes exposed in 1995 by region:

	<u>Percent Lambs</u>							
					West		West	
	West	Standard	1	Standard	North	Standard	South	Standard
<u>Outcome</u>	Coast	Error	Mountain	Error	<b>Central</b>	Error	<b>Central</b>	Error
Aborted (at less than full term)	1.7	$(\pm 0.2)$	1.9	$(\pm 0.3)$	2.2	$(\pm 0.2)$	1.3	$(\pm 0.2)$
Born dead (full term)	3.5	$(\pm 0.3)$	2.7	$(\pm 0.2)$	5.3	$(\pm 0.2)$	2.7	$(\pm 0.4)$
Born alive	117.4	$(\pm 2.3)$	118.3	$(\pm 2.8)$	141.1	$(\pm 1.3)$	98.5	$(\pm 1.6)$

	East		East					
	North	Standard	South	Standard	l ;	Standard	S	Standard
Outcome	<b>Central</b>	Error	<b>Central</b>	<u>Error</u>	Northeast	Error	Southeast	Error
Aborted (at less than full term)	1.7	$(\pm 0.2)$	2.8	$(\pm 0.8)$	1.3	$(\pm 0.2)$	1.5	$(\pm 0.2)$
Born dead (full term)	6.4	$(\pm 0.3)$	6.2	$(\pm 0.9)$	6.3	$(\pm 0.5)$	6.4	$(\pm 0.5)$
Born alive	145.7	$(\pm 1.9)$	106.9	$(\pm 5.9)$	138.3	$(\pm 2.7)$	135.0	$(\pm 3.6)$

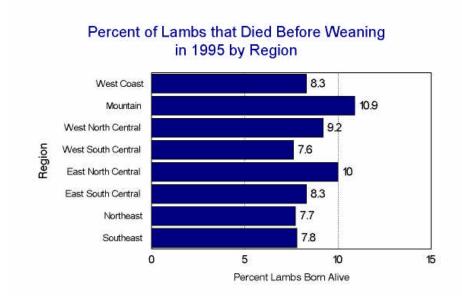

#3233

#3234

b. Of lambs born alive, percent that died before weaning by region:

			Percen	t Lambs			
				West		West	
West	Standard	l	Standard	North	Standard	South	Standard
Coast	Error	Mountain	<u>Error</u>	<b>Central</b>	Error	<b>Central</b>	<u>Error</u>
8.3	$(\pm 0.6)$	10.9	$(\pm 0.7)$	9.2	$(\pm 0.5)$	7.6	(± 1.1)
East		East					
North	Standard	South	Standard		Standard		Standard
<b>Central</b>	Error	<b>Central</b>	Error	<b>Northeas</b>	t Error	Southeast	t Error
10.0	$(\pm 0.9)$	8.3	$(\pm 1.0)$	7.7	$(\pm 0.7)$	7.8	$(\pm 0.5)$

#### 2. Culling and Mortality

a. Sheep 1 year of age and older that left the flock in 1995 due to death or culling, as a percent of January 1, 1996, inventory (ewes and rams 1 year of age or older) by region:

	Percent Sheep							
					West		West	
	West	Standard		Standard	North	Standard	South	Standard
Exit Reason	Coast	<u>Error</u>	<b>Mountain</b>	<u>Error</u>	<b>Central</b>	Error	<u>Central</u>	Error
Were culled	13.2	$(\pm 1.4)$	12.7	$(\pm 0.5)$	15.2	$(\pm 10.7)$	24.3	$(\pm 8.5)$
Died	5.9	$(\pm 0.5)$	4.6	$(\pm 0.2)$	5.4	$(\pm 0.2)$	4.1	$(\pm 0.3)$
Total	19.1		17.3		20.6		28.4	
	East		East					
	North	Standard	South	Standard		Standard		Standard
Exit Reason	<b>Central</b>	<u>Error</u>	<b>Central</b>	Error	<b>Northeas</b>	t Error	<b>Southeast</b>	Error
Were culled	14.5	$(\pm 1.0)$	38.3	$(\pm 20.5)$	13.0	$(\pm 1.2)$	13.6	$(\pm 1.4)$
Died	6.4	$(\pm 0.5)$	<u>11.9</u>	$(\pm 2.7)$	5.0	$(\pm 0.3)$	6.4	$(\pm 0.6)$
Total	20.9		50.2		18.0		20.0	

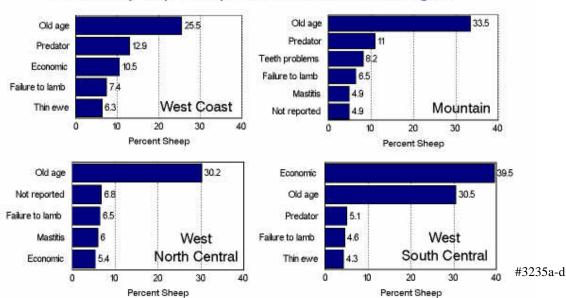

USDA:APHIS:VS 13 Sheep '96

b. Of sheep 1 year of age and older that were culled or died in 1995, percent culled or died by reason:

	<u>Percent Sheep</u>							
					West		West	
	West	Standard	i i	Standard	North	Standard	South Standard	
Exit Reason	Coast	Error	Mountain	<u>Error</u>	<b>Central</b>	<u>Error</u>	Central Error	
Mastitis	6.0	$(\pm 1.3)$	4.9	$(\pm 0.5)$	6.0	$(\pm 0.4)$	1.4 $(\pm 0.6)$	
Poor udder/teat conformation	1.9	$(\pm 0.6)$	2.5	$(\pm 0.3)$	3.0	$(\pm 0.6)$	$0.6  (\pm 0.3)$

## Percent of Operations by the Five Most Important Categories that Limited Profitability by Region

### Section II. Sample Profile for Reporting Operations

#### A. Regions

1. Number of reporting operations by region:

Region	Number Operations
East North Central	844
East South Central	139
Mountain	862
Northeast	510
Southeast	328
West Coast	597
West North Central	1440
West South Central	<u>454</u>
Total	5,174

#### **B. Flock Size by Region**

1. Number of reporting operations by number of ewes present on January 1, 1996:

		Number Operations								
			West	West	East	East				
	West		North	South	North	South				
Number Ewes	Coast	Mountain	<b>Central</b>	<b>Central</b>	<b>Central</b>	<b>Central</b>	Northeast	Southeast		
0	120	139	335	111	176	26	99	66		
1-49	241	244	512	77	440	75	302	159		
50-99	84	92	271	51	145	18	58	69		
100 - 499	99	193	269	94	77	19	46	30		
500 or more	47	191	38	119	5	0	4	1		
Not reported	<u>_6</u>	3	<u>15</u>	2	_1	1	_1	3		
Total	597	862	1,440	454	844	139	510	328		

2. Number of reporting operations by total sheep inventory present on January 1, 1996:

	Number Operations								
			West	West	East	East			
	West		North	South	North	South			
Number Sheep	Coast	<u>Mountain</u>	<u>Central</u>	<b>Central</b>	<b>Central</b>	<u>Central</u>	Northeast	Southeast	
Less than 50	337	340	725	173	545	88	369	199	
50-99	78	95	267	25	157	27	69	70	
100-499	122	212	354	108	128	24	64	50	
500 - 999	22	63	53	63	10	0	6	5	
1,000 or more	38	152	41	85	4	0	2	2	
Not reported	0	0	0	0	0	0	0	2	
Total	597	862	1,440	454	844	139	510	328	

### C. Type of Operation

1. Number of reporting operations by type and region:

	Number Operations							
			West	West	East	East		
	West		North	South	North	South		
<u>Type</u>	<u>Coast</u>	<u>Mountain</u>	<u>Central</u>	<u>Central</u>	<u>Central</u>	<u>Central</u>	Northeast	Southeast
Herded range flock	17	92	4	2	2	0	1	3
Fenced range flock	72	191	109	188	35	5	28	17
Farm flock	368	410	970	137	613	101	363	238
Intensive confinement	9	14	49	5	20	1	10	3
Multiple	14	26	14	9	4	4	6	4
Not specified	<u>117</u>	<u>129</u>	<u>294</u>	<u>113</u>	<u>170</u>	<u>28</u>	<u>102</u>	<u>63</u>
Total	597	862	1,440	454	844	139	510	328
