UNITED STATES DEPARTMENT OF AGRICULTURE

Bureau of Agricultural Economics

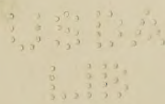

PERIODICALS RECEIVED CURRENTLY IN THE LIBRARY OF THE

U. S. BUREAU OF AGRICULTURAL ECONOMICS

Compiled by Vajen E. Hitz

Under the Direction of Mary G. Lacy, Librarian

Bureau of Agricultural Economics

Washington, D. C.

December, 1932

P R E F A C E

The Library of the Bureau of Agricultural Economics is the economics branch of the Library of the U. S. Department of Agriculture. It receives its periodicals from the Department Library and direct by mail. Periodicals^{received} from both of these sources have been included in this list, even though many are filed in the Department Library.

Where possible, incomplete years in sets have been indicated but no attempt has been made to indicate missing numbers within the last two years and lacking title pages and indexes have not been indicated. No attempt has been made to indicate changes in title.

Periodic reports of the Bureau of Agricultural Economics have been omitted as these reports have been listed in the Bureau's mimeographed publication entitled, Agricultural Economic Reports and Services of the Bureau of Agricultural Economics (latest edition, April 1932), issued by the Division of Economic Information. Certain mimeographed State reports, including crop reports issued in cooperation with this bureau, have also been omitted, as well as State agricultural experiment station and extension service bulletins and circulars.

The United States Department of Commerce, Bureau of Foreign and Domestic Commerce issues about 275 separate mimeographed statements each month giving statistics of exports and imports of various commodities. Although the ones relating to agricultural commodities are on file in this Library they are not included in this list.

Fruit auction sheets received in the Library have not been included. House organs and price sheets of foreign firms have been omitted for the most part even though they may be on file in the Foreign Files section of the Bureau.

Certain divisions receive publications of special interest to the work of the division which are not entered currently in the Library. These include such publications as reports published by the American Railway Association, received in the Transportation section of the Division of Statistical and Historical Research.

Some house organs of cooperative associations included in this list are received currently in the Division of Cooperative Marketing of the Federal Farm Board, but are sent to this Library at the end of the year for filing.

Mary G. Lacy, Librarian,
Bureau of Agricultural Economics,
U. S. Department of Agriculture.

December 23, 1932.
