PREFACE

630.1
In 81
1995
v.2
Cop. 2

ACES

The papers presented in this book are the Contributed Papers of the 1995 International Farm Management Congress. There are 36 papers in this volume submitted from some 18 different countries around the world. Nine of these were presented by the authors at the Congress, although authors of all papers attended the Congress. The papers cover a diversity of topics from dairying in Japan to risk management in Malaysia, highlighting the richness and variety of farm management studies throughout the world.

There is no doubt that these Contributed Papers and their authors have greatly helped achieve the aims of the Congress of encouraging the exchange of information and ideas and furthering the interests and success of the International Farm Management Association.

Sequential Risk Analysis and its Application to Pest Management
in Cattle Ranching, Malaysia
Hadi Chishti and Ahmad Azizan Mohamed

Structural Aspects for the Management of Dairy Farm Cooperatives
Transformation in Malaysia
Hadi Chishti

Dimensions of Risk and Management Responses to Risk on Commercial Farms in Kawasaki, Japan, South Africa
Donald J. Curran, Andrew M. van der Westhuizen

Using the Political Model to Identify the Factors that Affect Small Scale Production
in the Rural Markets in the USA: An Application of Micro Theory
A. Bryan Rutherford

Production Management of Family Farms in the USA
Hadi Chishti

Changes in Farming Practices of Small Scale Farmers in South Africa and
Country-Wide Implications
Hadi Chishti
