## FOREWORD

This report was prepared primarily for those interested in livestock extension work in the seventeen western States. It gives a statistical and graphic summary of facts relating to the supply, demand, and prices of cattle, sheep, and goats, and their products, with particular application to the range country. As far as possible the tables and graphs have been brought up to January 1, 1929. The source from which the data were obtained is given for each table and on page III is a list of sources of current economic information on range livestock. Most of the tables and charts may be brought up to date from time to time from this source material.

A general bibliography of 78 pages, (Bibliographical Contribution No. 19) on Cattle, Sheep, and Goat Production in the Range Country, has been prepared by the Bureau of Animal Industry and the Library of the United States Department of Agriculture. This contains a selected list of publications by the United States Department of Agriculture and by the agricultural colleges, experiment stations, and departments of agriculture of the seventeen range States.

Pages 24, 46, 86, 88, and 110 purposely left blank.

## AVERAGE ANNUAL PRECIPITATION

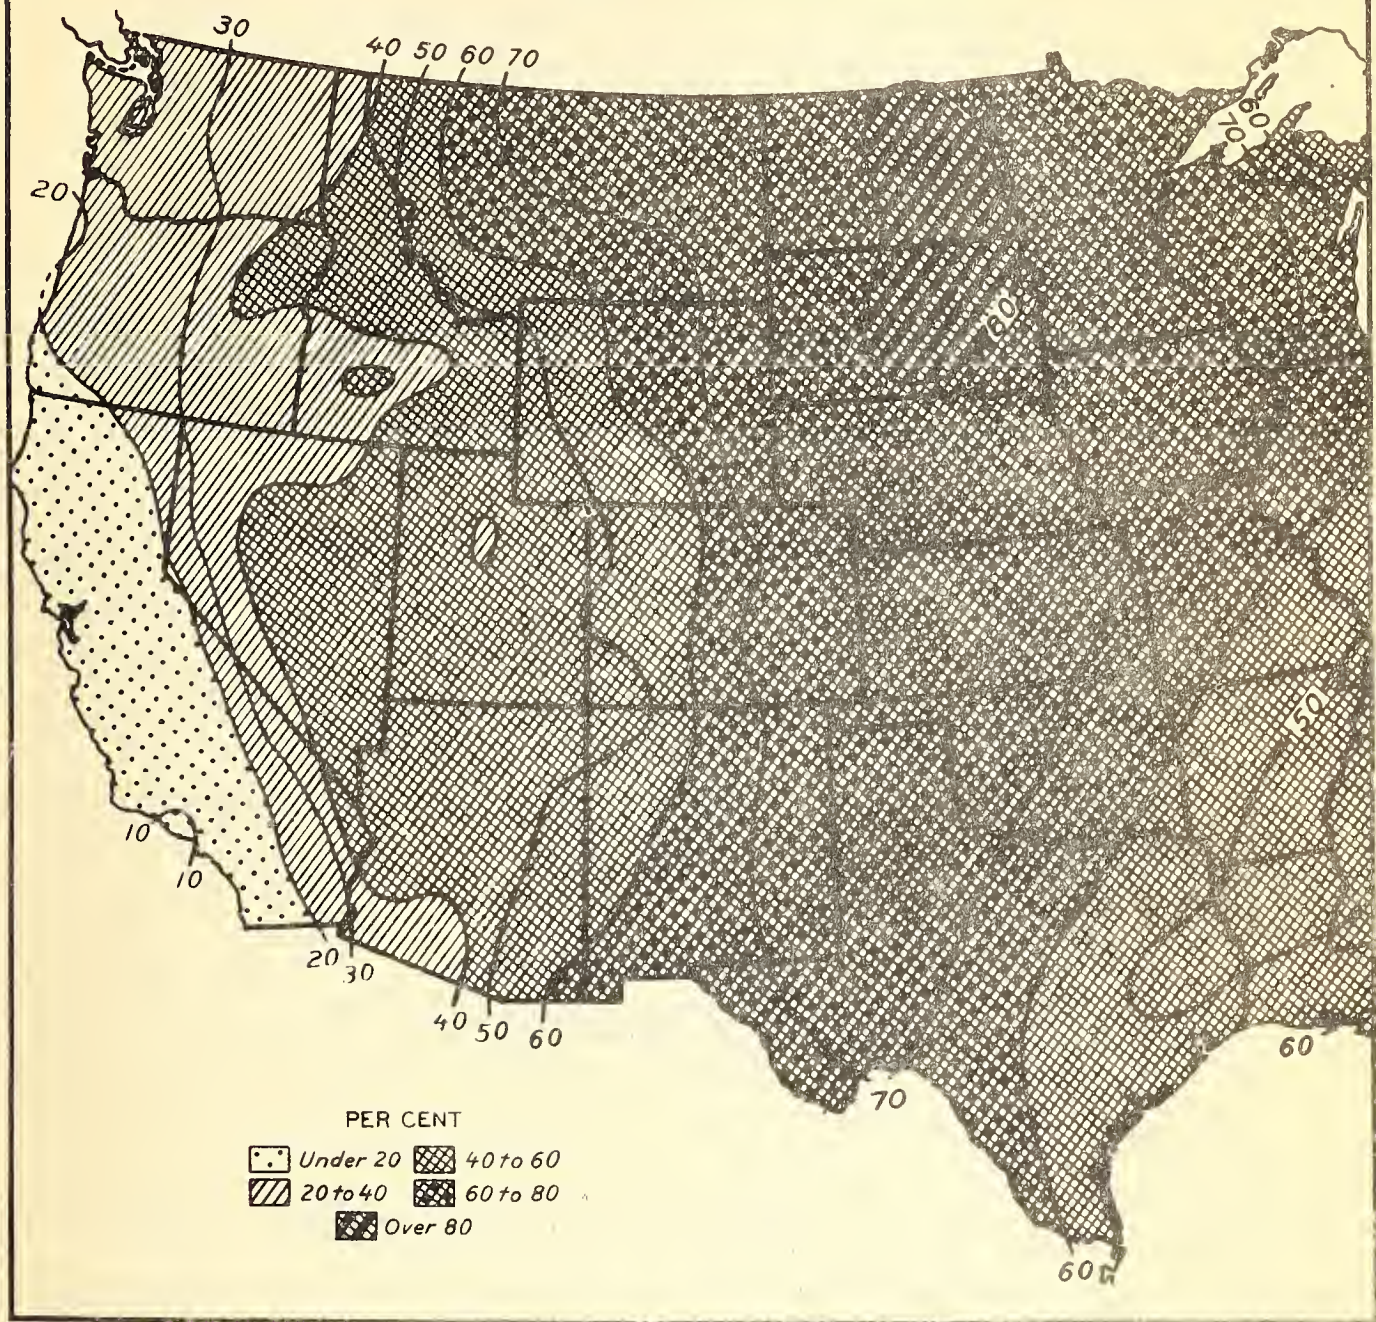

U.S. DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

FIGURE 2. A LARGE PART OF THE RANGE COUNTRY HAS LESS THAN 15 INCHES PRECIPITATION A YEAR, BUT THE SEASONAL DISTRIBUTION SHOWS MARKED DIFFERENCES. (SEE FIGURE 4)

## AVERAGE PRECIPITATION BETWEEN APR. 1 AND SEPT. 30

U. S. DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

FIGURE 3. SUMMER RAINFALL IN THE WESTERN PART OF THE RANGE COUNTRY AVERAGES ABOUT 2 INCHES, EXCEPT IN A FEW SMALL SECTIONS, AND IS A SMALL PROPORTION OF THE ANNUAL PRECIPITATION. IN THE EASTERN PART OF THE RANGE COUNTRY, THERE IS A RAINFALL OF 6 TO 10 INCHES BETWEEN APRIL 1 AND SEPT. 30, BUT THIS CONSTITUTES CONSIDERABLY MORE THAN HALF OF THE ANNUAL PRECIPITATION

## DAILY SNOW COVER AND BELOW ZERO TEMPERATURE Miles City, Montana, 1893-1925

U. S. DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

FIGURE 4. ONE OF THE HAZARDS OF THE RANGE LIVESTOCK INDUSTRY, ESPECIALLY IN THE NORTHERN GREAT PLAINS, IS HEAVY SNOWFALL ACCOMPANIED BY LOW TEMPERATURES. A RESERVE OF WINTER FEED IS NECESSARY FOR HARD WINTERS ESPECIALLY WHEN THEY FOLLOW A SUMMER OF POOR CROPS

# USES OF LAND

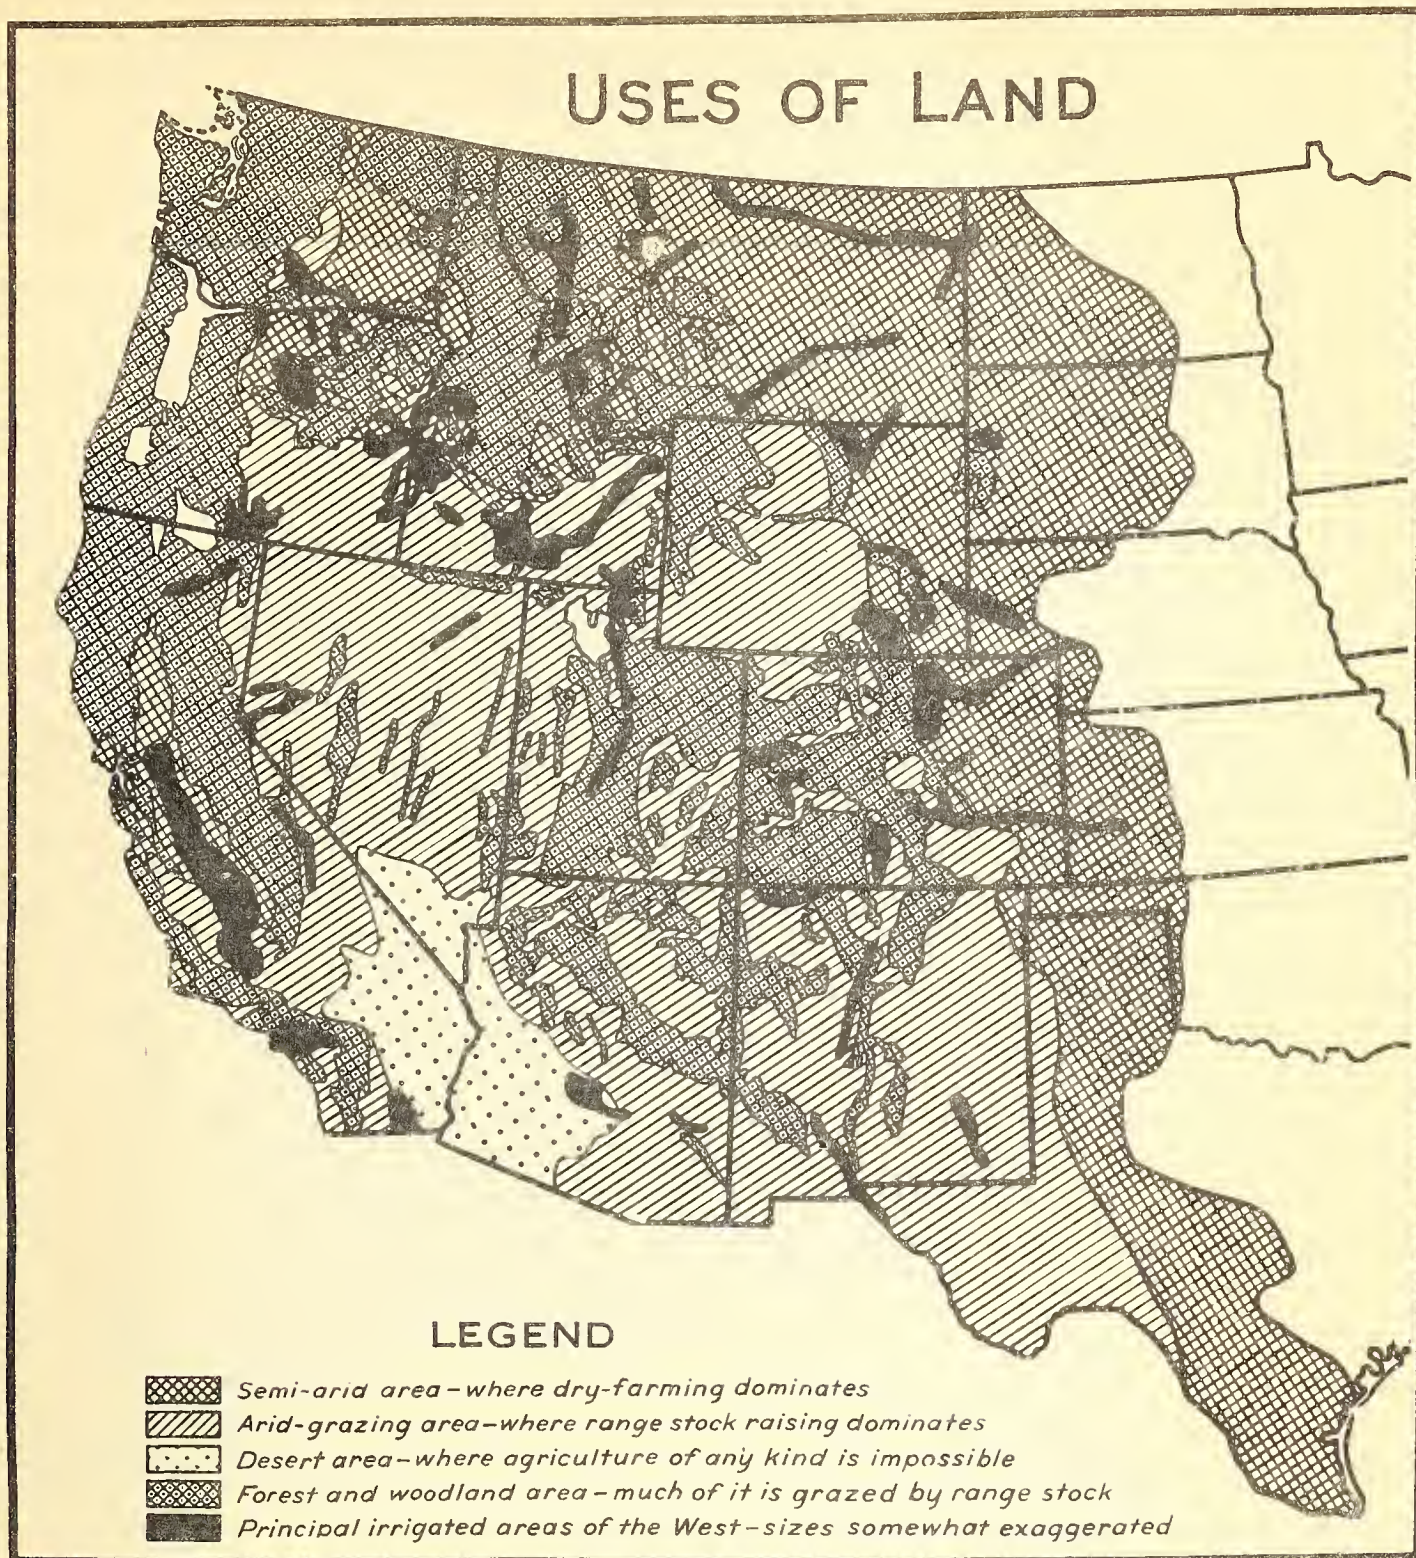

FIGURE 5. PRESENT DISTRIBUTION OF DOMINANT AGRICULTURAL USES OF LAND IN THE WESTERN RANGE COUNTRY EMPHASIZES THE DIFFICULTY OF SATISFACTORY GENERALIZATIONS EXCEPT THOSE DEPENDENT ON CAREFUL CLASSIFICATION OF THE LAND OR FOR AREAS HAVING LIKE CONDITIONS THROUGHOUT THEIR EXTENT

## WESTERN RANGE GRAZING SEASON AREAS

### LAND CLASSES

-  SUMMER RANGE
-  YEARLONG RANGE
-  WINTER RANGE
-  DESERT LAND (NO GRAZING)
-  IRRIGATED AREAS

Area	Chief forages	Length of season	Area to support a cow
		Months	Acres
Northern Great Plains	Gramma, buffalo, needle, and wheat grasses	5 to 10	10 to 30
Southern Great Plains	Gramma, buffalo, bluestem, beard, and mesquite		
	grasses; scrub oaks	8 to 12	15 to 35
Black Hills	Gramma, buffalo, and bluestem grasses	3 to 5	25 to 30
Central Rocky Mountains	Blue, fescue, wheat, brome, and redtop grasses; Baltic rush; and "weeds." <sup>1/</sup>	3 to 6	15 to 25
New Mexico - Arizona Mountains	Gramma, fescue, beard, and wheat grasses; scrub; oak, mountain mahogany	5 to 8	12 to 25
West-central Montana foot hills and high plains	Fescue, wheat, blue June, porcupine, brome, gramma grasses	5 to 7	15 to 30
Northern Rocky Mountains	Pine, wheat, blue, brome, and fescue grasses	3 to 6	20 to 150
Central Idaho	Pine, wheat, brome, fescue, and blue grasses	3 to 7	25 to 30
Wasatch, Uinta, and Wyoming Mountains	Wheat, porcupine, fescue, and blue grasses - bluebells and other "weeds" <sup>1/</sup> browse	3 to 7	8 to 25
Northeastern, Nevada, southern Idaho, and central Oregon	Wheat, blue, and fescue-grasses; sagebrush, shadscale, greasewood	4 to 8	35 to 40
East-central Nevada Mountains	Wheat, blue, and fescue grasses; browse	4 to 6	25 to 50
Wyoming semideserts	Salt grasses; sagebrush, shadscale, greasewood	2 to 6	35 to 100
Utah, Nevada, Arizona deserts	Salt, grama, three-awn, and annual grasses; annual "weed" <sup>1/</sup> ; sagebrush, winter fat, greasewood, shadscale, mesquite, paloverde, cacti	2 to 5	50 to 150
New Mexico-Arizona foothills and basins	Gramma, tobosa, galleta, three-awn, muhlenbergia, and salt grasses; sagebrush, shinnery, and other browse	4 to 12	15 to 75
San Luis Valley of Colorado	Blue, salt, and fescue grasses; Baltic rush; sagebrush	7 to 9	30 to 40
Utah foothills and valleys	Wheat, porcupine, and June grasses; sagebrush	5 to 7	20 to 30
Nevada semideserts	Salt, and lyme grasses; greasewood, shadscale, sagebrush	1 to 4	75 to 150
Southeastern Oregon and Snake River plains	Fescue, wheat, and lyme grasses; sagebrush	2 to 5	50 to 100

<sup>1/</sup> On the range "weeds" refers to miscellaneous herbaceous plants.

FIGURE 26. DIFFERENT CUTS OF BEEF MEET A GREATLY DIFFERENT DEMAND IN DIFFERENT CITIES. IN CHICAGO, FOR INSTANCE, THERE IS A WIDE SPREAD IN PRICE BETWEEN SIRLOIN AND ROUND STEAK WHILE IN NEW YORK THE SPREAD IS ONLY SLIGHT. THESE CONSUMER PREFERENCES ARE REFLECTED BACK TO THE PRODUCER IN THE PRICE HE RECEIVES FOR DIFFERENT KINDS OF CATTLE. IN THIS CHART NOTE ALSO THE GRADUAL UPWARD TREND OF RETAIL PRICES AND THE VERY HIGH PRICES PREVAILING DURING A PART OF 1928

# RELATION BETWEEN PRICE AND SUPPLY OF CATTLE AT CHICAGO 1890-1928

FIGURE 27. PRICE OF BEEF STEERS IS MAINLY DETERMINED BY THE RECEIPTS. WHEN RECEIPTS DECREASE SHARPLY AS THEY HAVE IN RECENT YEARS PRICES RISE SHARPLY

INDEX NUMBERS OF PRICES OF BEEF STEERS, LAMBS,  
WOOL, AND ALL COMMODITIES.

U.S. DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

FIGURE 30. PRICES OF LAMBS AND WOOL HAVE BEEN RELATIVELY HIGHER THAN THE GENERAL LEVEL OF ALL COMMODITY PRICES FOR SEVERAL YEARS WHEREAS BEEF AND CATTLE PRICES HAVE BEEN ABOVE THE GENERAL PRICE LEVEL ONLY SINCE 1926

CATTLE: NUMBER, SLAUGHTER, PRICES, AND BEEF PRODUCTION, 1899-1929  
 EACH EXPRESSED IN PER CENT OF ITS AVERAGE FOR 1900-1927

U.S. DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

FIGURE 31. PRICES FOR RANGE CATTLE GO HIGHER IN TIMES OF HIGH PRICES FOR CATTLE AND GO LOWER IN TIMES OF LOW PRICES FOR CATTLE THAN IS TRUE OF PRICES FOR GRAIN-FED CATTLE. IT IS USUALLY ABOUT TWO YEARS AFTER CATTLE NUMBERS REACH THE LOW POINT IN THE CYCLE THAT THE LOW POINT IN SLAUGHTER AND THE PEAK IN PRICES ARE REACHED

# U.S. PRICE OF CATTLE AND PRICE OF STEERS AT CHICAGO

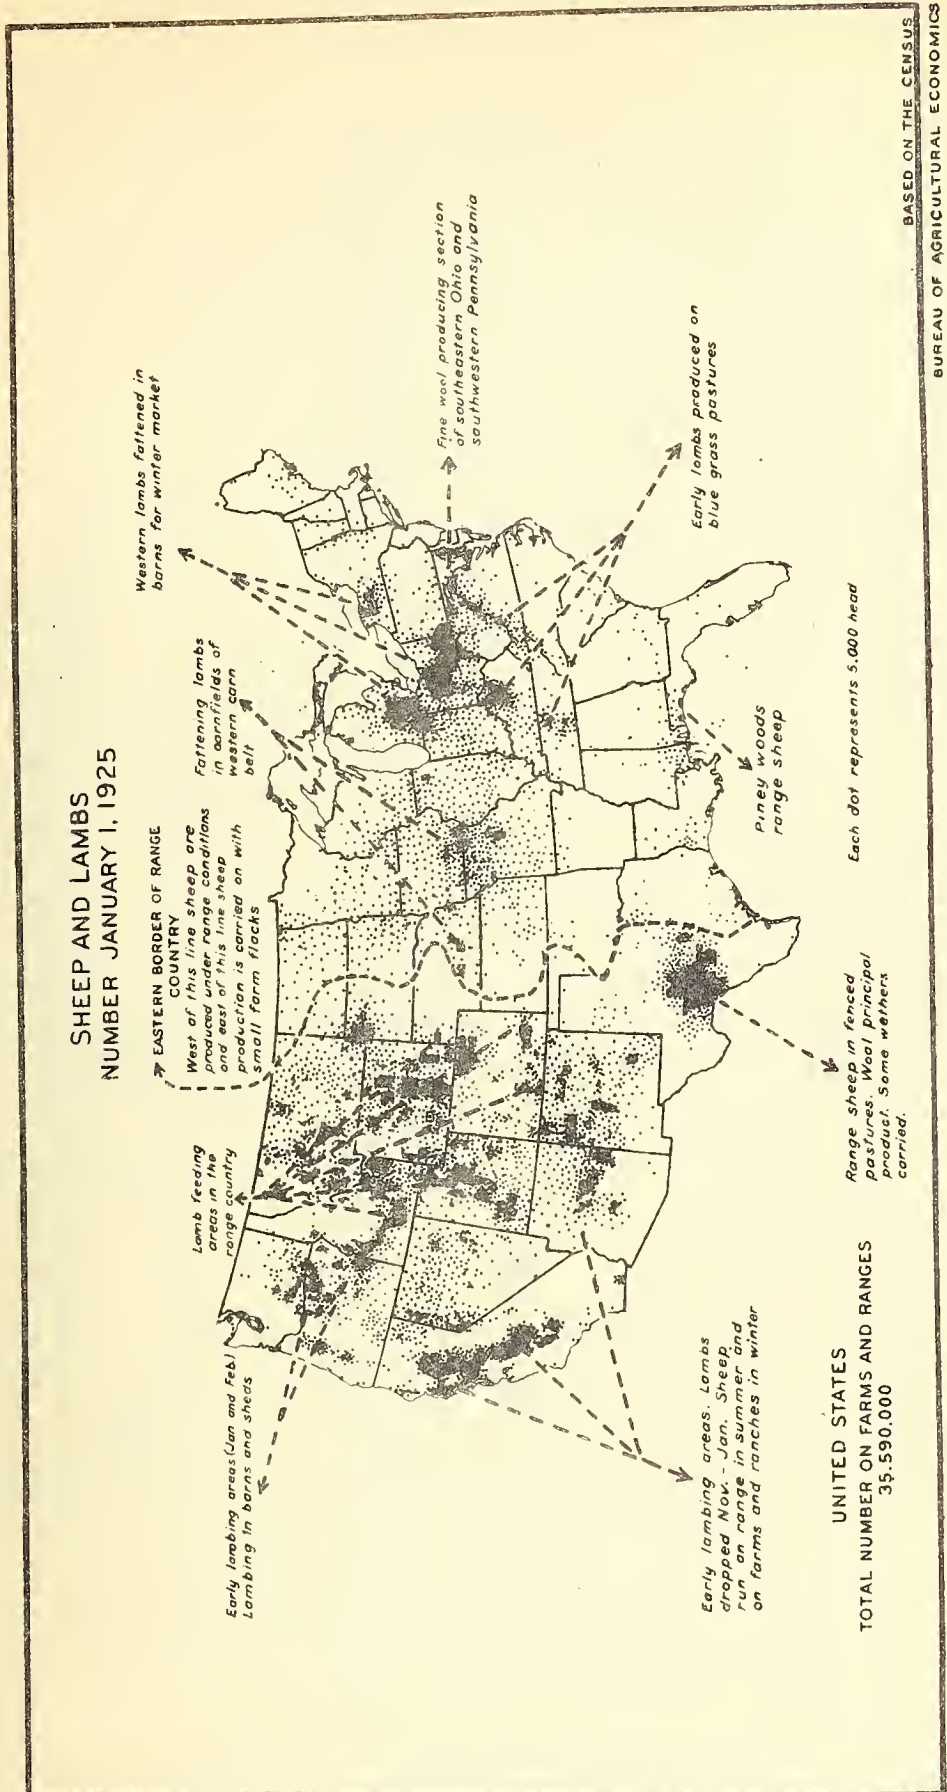

U.S. DEPARTMENT OF AGRICULTURE

BUREAU OF AGRICULTURAL ECONOMICS

FIGURE 34. THREE RATHER WELL DEFINED COMPLETE CYCLES ARE EVIDENT IN THE PRICES OF CATTLE AND STEERS IN THE UNITED STATES BETWEEN THE YEARS 1880 AND 1921. THE CYCLES ARE SIMILAR IN THE FARM PRICES OF CATTLE AND CHICAGO PRICES OF STEERS EXCEPT THAT THE FARM PRICE USUALLY FLUCTUATES MORE VIOLENTLY THAN THE CHICAGO PRICE. SINCE 1921 CATTLE PRICES HAVE BEEN TRAVELING UPWARD ON ANOTHER CYCLE, REACHING HIGH LEVELS IN 1927 AND 1928

CROP AND MARKET REPORTS AND PERIODICALS PUBLISHED BY  
THE U.S. DEPARTMENT OF AGRICULTURE OF PARTICULAR  
INTEREST TO RANGE LIVESTOCK PRODUCERS. 1/

PERIODICALS

The Agricultural Yearbook published annually about May includes a large amount of statistical information relating to livestock.

The department publishes from time to time statistical bulletins bringing up to date the available statistics relating to a commodity or related commodities.

The following of interest to stockmen have been published:

Statistical Bulletin No. 3, Sheep, Lamb, Mutton and Wool Statistics, Ending March 31, 1923.

Statistical Bulletin No. 11, Hay and Feed Statistics, Ending December 31, 1924.

Statistical Bulletin Nos. 14 to 17, Prices of Farm Products Received by Producers, Ending Year 1925.

Statistical Bulletin No. 20, Statistics of Cattle, Calves, Beef, Veal, Hides and Skins, Ending December 31, 1925.

The annual "Agricultural Outlook" issued about February 1, brings together facts relating to prospective world-wide and nation-wide supply and demand conditions which are not readily available to farmers. This outlook information is designed to aid farmers to make sound plans for the farming year before the time for planting and breeding.

Supplementary Outlook Reports on Beef Cattle and Sheep are issued in August of each year.

Meat Production, Consumption and Foreign Trade in the United States is an annual mimeographed report compiled by John Roberts, Editorial Office, Bureau of Animal Industry, giving the number of animals of each kind of meat animals slaughtered in the United States and the estimated annual production, exports, imports and consumption of beef and veal, lamb and mutton, pork and lard. Data going back to 1900 are shown.

The "Annual Livestock Review" is a printed bulletin issued about July 1 containing statistics and information about the livestock industries for the preceding calendar year.

1/ Many of the state agricultural colleges issue timely economic information of interest to stockmen. Ask your state college for this information.

"Crops and Markets" is a printed monthly publication of the Department of Agriculture. It carries weekly data on prices, shipments to and receipts at stated markets of commodities under these general classes; livestock, meats and wool; dairy and poultry products; fruits and vegetables; grain, hay; feed; seed; and cotton. It contains the monthly price and production statistics compiled by the several divisions of the Bureau of Agricultural Economics; statistics on movements to market, complete and detailed reports of the crop reporting service, reports of the foreign market situation and special articles of economic and statistical interest concerning leading agricultural products. "Crops and Markets" is sent free only to libraries, the press, government officials, workers in agricultural colleges and experiment stations and other institutions or individuals actually assisting the United States Department of Agriculture in collecting or disseminating agricultural information. Those not entitled to receive "Crops and Markets" free under any of the above classifications, can obtain it by direct application to the office of the Superintendent of Documents, Government Printing Office, Washington, D. C. at 60 cents per year, payable in cash or money order.

"The Agricultural Situation" is a 24-page bulletin issued, on the first of each month, by the Bureau of Agricultural Economics. It contains a brief general summary of current conditions, including pertinent statistics relating to production, movement, consumption, and price of the important farm products. Its general purpose is to furnish extension workers and others with a very concise picture of economic conditions in agriculture from month to month. Its free distribution is limited to the United States Department of Agriculture or State College workers or cooperators, to libraries, and the press. It is obtainable from the Superintendent of Documents, Government Printing Office, at 25 cents a year.

"Foreign Crops and Markets" issued each week includes current comment and statistical information on foreign market conditions, prices, farm wages, international trade and other economic factors that affect the supply of and demand for agricultural products in foreign countries. Its distribution is limited to producers, dealers in agricultural products, farm journals, newspapers, agricultural and trade organizations, etc., who utilize the material or publish and circulate it to interested persons or organizations.

Special numbers of interest to stockmen are:

1. Cattle and beef
  - a. Annual review of the world situation in cattle and beef. Appears in June, July or August. Last review carried in "Foreign Crops and Markets" for August 6, 1928. Additional reviews, probably on a semi-annual basis, are being planned.
2. Sheep and wool
  - a. Monthly summaries of the international wool situation. Appear under the series title "WOOL" in cooperation with the Division of Livestock, Meats and Wool, and are issued about the second or third week of the month. Last issue was dated March 18, 1929.
  - b. Annual reviews of the world situation in sheep and wool. Appear in December, January or February, with the latest review carried in the February 11 and 18 issues of "Foreign Crops and Markets."

3. Mutton and lamb.

- a. Annual review of the international trade in mutton and lamb. Appears in June or July. Last review carried in "Foreign Crops and Markets" dated July 16, 1928.

The Price Situation, a mimeographed publication released about the 15th of each month gives a quite complete yet brief account of the reasons for changes in prices of each of the important commodities during the past month and any information as to the outlook that is available. A summary of the more important features is published in Crops and Markets each month. "The Price Situation" is available to college people, extension workers and a few others but is not available for general distribution.

CROP AND MARKET REPORTS

Except where otherwise noted these reports will be sent, free of charge, to any person who requests them and shows a need for them.

Crop and Livestock Estimates

Monthly crop reports. These reports, which show acreage, condition, prices, numbers, probable production, or value of principal crops and livestock, are published monthly in "Crops and Markets". A summary in multigraph form is issued on the release dates as provided by the Crop Report regulations, the cotton report being issued separately. State reports, many showing data by counties, are issued by the Agricultural Statisticians in each State.

The following is the list of estimates and reports issued by the Division of Crop and Livestock Estimates with the approximate release date which will be of particular interest to stockmen in the range states:

Most of the State statisticians in the western States issue monthly range and livestock condition reports, giving in detail conditions in various sections of the State. For most States special annual reports are issued covering crops and livestock information. For livestock these show such information as numbers of different kinds returned for taxation, usually by counties; State sanitary and livestock board health inspection and brand inspection figures; cars of livestock loaded and unloaded during the year, reported market receipts of livestock during the year, and other similar information.

## Feed

Weekly feed market reports. This report, issued in cooperation with State marketing bureaus, contains prices of feed delivered at the most important markets in each State besides a review of feed marketing conditions, principally of interest to buyers in the State in which the report is issued.

## Hay

Weekly hay market review. This review covers the hay market situation throughout the country. It is prepared each Saturday in the Washington office and distributed the same day from that office and from the field offices at Minneapolis, Chicago, and Kansas City. This report is available to newspapers, county agents or other agencies that need it or can give it further distribution.

Quarterly hay market reviews. These reviews give the results of surveys which are made quarterly as of March 15, June 15, September 15, and December 15, to determine the quality and relative quantity of the marketable surplus of the various kinds of hays together with information as to the rate of marketing and amount and location of the principal marketable surpluses on the different dates. Price trends and other important market factors are discussed. These reviews are not for general distribution but are available to State Marketing Officials, County Agents, marketing associations, and to trade and farm papers.

## Livestock, Meats and Wool

Daily report of livestock markets. This report shows supply and demand, prices and trend of market for cattle, calves, hogs, sheep and lambs at Chicago, East St. Louis, Kansas City, Omaha, Los Angeles, San Francisco, Denver, Ogden, Salt Lake City, Fort Worth, Portland, South St. Paul, Wichita, Jersey City and New York. It is issued daily from the local offices of the Bureau in the foregoing cities, and in addition is issued in combination with the daily report of meat trade conditions and wholesale prices from the offices at Boston and Philadelphia. All of the above named offices and offices at South St. Joseph, Sioux City, Pittsburgh, Lancaster, Cleveland, Cincinnati, Buffalo and Indianapolis release similar information to the press, commercial news associations, radio stations and C. N. D. services of the commercial telegraph companies.

Weekly review of livestock markets. This report is issued each Thursday at Chicago, East St. Louis, Kansas City, Omaha, South St. Paul, Denver, Fort Worth and Wichita; each Friday at Los Angeles and Salt Lake City (latter including Salt Lake and Ogden markets) and each Saturday at San Francisco and Portland. Each Wednesday the Boston office releases a report of the Brighton market. These reports review market conditions for the week at the market where released and include detailed information as to receipts, demand and prices paid for the various classes and grades of livestock. A less detailed review of conditions at Chicago, East St. Louis, Kansas City and Omaha is released each Friday at Boston, New York, and Philadelphia, in combination with the weekly review of meat trade conditions.

Livestock Market Statistics. (weekly). This report shows comparative receipts of cattle at seven markets; native beef steers sold out of first hands at Chicago for slaughter; movements of stocker and feeder cattle from twelve markets into seven States, periodically and seasonally; weights and prices of stocker and feeder steers shipped from Chicago; weekly average weight and cost of hogs at five markets; comparative receipts of hogs at seven markets; percentage of lambs, ewes and yearlings in sheep receipts at Chicago; comparative receipts of sheep at seven markets; movement of breeding and feeding sheep and lambs from twelve markets into seven States, and average weights and prices of feeding and breeding sheep shipped from Chicago, periodically and seasonally. It is released each Monday from the Chicago office. A report showing the numbers, average weights, average prices and State destinations of stocker and feeder cattle by class and weight selections shipped from South St. Paul during the week with comments on market conditions is issued each Wednesday from that office. A report reviewing the calendar week's market on stocker and feeder cattle and breeding and feeding sheep and showing the numbers, average weights and average prices by weight selections of stocker and feeder steers, State destination of all classes of stocker and feeder cattle, total shipments of stocker and feeder cattle, hogs and sheep and State destinations of breeding and feeding sheep and lambs is released each Monday from Kansas City.

Weekly report of stocker and feeder shipments from 12 markets. This report, released each Thursday as a part of the daily or weekly livestock summary at Chicago, Kansas City, Omaha, East St. Louis, St. Paul, Wichita, Denver, Fort Worth, Salt Lake City and San Francisco, shows the shipments of stocker and feeder cattle, hogs, and sheep from twelve markets for the preceding week with comparisons of the preceding week and the corresponding week a year earlier, and the percentage of increase or decrease as compared with the three-year average of the corresponding weeks.

Daily report of meat trade conditions and wholesale prices. (Western dressed meats). This report shows supply and demand, prices and trend of market for western dressed fresh beef, veal, pork, lambs and mutton in Boston, Chicago, New York and Philadelphia. It is issued daily except Saturday from the following local offices of the Bureau: Boston, New York, Philadelphia, Chicago, East St. Louis, Kansas City and Omaha. At Boston and Philadelphia this report is combined with the daily report of livestock markets described above.

Weekly review of meat trade conditions. The review is issued each Friday from the following offices: Boston, New York, Philadelphia, Chicago, East St. Louis, Kansas City, Omaha, and South St. Paul. At each of the three eastern cities, Boston, New York and Philadelphia, the review covers local trading in western dressed fresh meats, and is issued in combination with brief reviews of the livestock market conditions at Chicago, East St. Louis, Kansas City, and Omaha. At the other markets it reviews the week's wholesale trade in fresh meats at New York and Chicago.

Weekly review of wool markets. This is a mimeographed, two-page report carrying a review of conditions in the Boston wool market, quotations of prices of the principal grades of domestic and foreign wool and mohair, comments on conditions in the producing sections, data on receipts and shipments of wool in the markets and imports of wool at the principal ports, and reports of wool market conditions in general throughout the world. The releases are made at Boston on Monday of each week. A similar report in somewhat shorter form reviewing conditions on the Boston wool market and quotations on the principal grades of domestic wool and mohair, one mimeographed page, is issued from the branch offices of the Bureau in Chicago, Kansas City, Omaha, East St. Louis, St. Paul, New York, Philadelphia, Salt Lake City, Denver, Fort Worth, Wichita and San Francisco on Monday of each week.

Monthly summaries of cold-storage holdings of frozen and cured meats. One summary shows the stocks of frozen and cured beef and pork including lard, frozen lamb and mutton and miscellaneous meats in storage on the first of each month in the United States. The other summary shows stocks of meats and lard in the four cities, Boston, New York, Philadelphia and Chicago. The summary showing the total for the United States is released from Washington and the branch offices of the Bureau in Boston, New York, Philadelphia, Chicago, East St. Louis, Kansas City, Omaha, South St. Paul and Denver, about the twelfth of the month following the date covered. The summary showing the stocks in the four cities can be obtained from the above named offices and from Wichita and is available as a rule the day after the holdings for the United States have been released. These reports are primarily for the press and trade organizations, but will be sent regularly to anyone requesting them. The figures are included in the monthly report of cold-storage holdings published in "Crops and Markets."

Animals slaughtered under federal inspection. (Monthly) About the twenty-fifth of each month these reports showing the number of cattle, calves, swine, sheep and lambs and goats slaughtered under federal inspection during the preceding month with totals and comparisons are issued from the Boston, Chicago, Denver, Fort Worth, Kansas City, Los Angeles, East St. Louis, New York, Omaha, Philadelphia, North Portland, South St. Paul, San Francisco and Wichita offices of the Bureau. The complete table is also published in "Crops and Markets".

Summary, receipts and disposition of livestock at public stock yards. (Monthly) This summary shows the receipts and disposition of cattle, calves, hogs, sheep and lambs, horses and mules approximately at 65 public stockyard markets with comparisons for the corresponding month of the preceding year and the five-year average for the month. It is released about the fifteenth of each month following the month covered by the table from the branch offices of the Bureau at Boston, Chicago, Denver, Fort Worth, Kansas City, East St. Louis, Philadelphia, St. Paul, San Francisco and Wichita. The complete table is also published each month in "Crops and Markets".

Special grass cattle market reports. (Daily) This report covering Chicago, Kansas City, Omaha, East St. Louis and St. Joseph markets, is released in mimeographed form from the Fort Worth, Wichita, Denver, Salt Lake City and San Francisco offices of the Bureau during the period from July 1 to November 15 each year. These reports are released daily except Saturday and Sunday during this period and consist of running comments on market conditions and prices paid for cattle marketed from the range and large pasture areas. The Friday reports also include brief reviews of the grass cattle markets for the week.

Annual release, reviewing the Chicago, Kansas City, East St. Louis and Omaha grass cattle markets for the past season/ released by the offices named around December 15.

Quarterly wool stock report. This is a four-page mimeographed report showing the stocks of wool, tops and noils held by dealers and manufacturers in the United States. The report is issued quarterly and is based on surveys made of stocks held on March 31, June 30, September 30 and December 31 of each year. Stocks of raw wool are tabulated by grade. Holdings of dealers are summarized according to cities; holdings of manufacturers are summarized according to sections. The report is issued jointly by the Department of Agriculture which collects and compiles the returns on dealers' stocks, and the Department of Commerce which collects and compiles the returns on manufacturers' stocks. The releases are made at Washington about thirty days after the survey dates.

Weekly bankers' special. Weekly mimeographed reviews of the local livestock market, prepared especially for distribution to banks and other financial institutions, are released on Thursdays by the Chicago, South St. Joseph, East St. Louis and South St. Paul offices.

Weekly press reports. Weekly mimeographed reviews of the local livestock market designed especially to serve the needs of the press, particularly the country press and agricultural and trade publications, are released on varying days of the week by the South St. Paul, East St. Louis, South St. Joseph, Chicago, Los Angeles and San Francisco offices.
