Goal

To provide an overview of NASS surveys and Datasets that address conservation programs and practices.

Objectives

- Identify NASS data collection programs;
- Identify surveys collecting data on conservation programs and practices;
- Identify datasets produced from surveys.

Government Program Land

Land in Federal Conservation Programs are included in the farm definition

- Conservation Reserve Program (CRP)
- Wetlands Reserve Program (WRP)
- Farmable Wetlands Program (FWP)
- Conservation Reserve Enhancement Program (CREP)

ARMS

■ Frequency

Conducted annually usually in three phases:

- Phase I – (May – July) collects general farm data; used to screen or qualify farms of follow-on phases.
- Phase II – (October - December) collects data on agricultural production practices, resource use, and variable cost of inputs for selected crops.
- Phase III – (February – April) collects whole farm finance (expenses and income), operator characteristics, and farm household information.
