California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

# Glenn County

1958-1964

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,  
<http://giannini.ucop.edu/>.

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/>. **Please contact the Library to consult the originals.**

## United States Department of Agriculture Stabilization And Conservation Participation — 1958

### SUPPORT PRICES ALLOWED FOR COMMODITIES (which are under loan or purchase agreement)

Barley .....	\$ 2.14½ cwt.
Beans, Pinto .....	5.47 cwt.
Medium White .....	6.42 cwt.
Small White .....	6.80 cwt.
Red Kidney .....	7.98 cwt.
Pink .....	6.60 cwt.
Small Red .....	6.70 cwt.
Large Lima .....	9.55 cwt.
Baby Lima .....	4.80 cwt.
Yellow Corn .....	2.14 cwt.
Grain Sorghum .....	2.22 cwt.
Oats .....	2.31 cwt.
Rice (20c premium for No. 1) .....	4.14 cwt.
Wheat .....	3.23 cwt.
Honey .....	.09½ lb.

### LOAN REDUCTION FOR NOXIOUS WEED SEEDS

Barley, Oats, Rye & Wheat .....	\$ .10 bu.
Flaxseed .....	.15 bu.
Grain Sorghums .....	.15 bu.

### COMMODITIES UNDER LOAN — 1958

Beans .....	3,699 cwt.	\$25,153.00	
Honey .....	73,425 lbs.	6,975.00	\$ 32,128.00

### DIRECT PAYMENTS

Wool Incentive Payment .....	\$ 95,100.00	
Agricultural Conservation Payment .....	60,700.00	
Rice Acreage Reserve (Soil Bank) .....	226,700.00	
Sugar Beet Processor & Import Tax Payment .....	23,800.00	\$ 406,300.00

INDIRECT PURCHASE BENEFIT TO DAIRY INDUSTRY\* .....

\$ 500,000.00

---

TOTAL UNITED STATES PARTICIPATION (Agriculture) .....

\$ 938,428.00

\*Purchases by the United States Department of Agriculture of dairy products — milk, butter and cheese — in the amount of over \$19,000,000 in California during 1958 reflects an indirect benefit to Glenn County dairymen of approximately \$500,000 or equivalent to \$20 per cow. The school lunch program is one of the agencies that benefit by this program.

ASSESSED VALUATION .....	\$45,349,040.00
BUDGET TO OPERATE GLENN COUNTY .....	\$ 5,759,098.00

### SOURCE OF INCOME:

Current County Taxes .....	\$ 1,891,432.00
Other Revenue .....	\$ 3,867,666.00
Current County Taxes .....	32.8%
Federal, State and Other Funds .....	67.2%

## CHEMICALS AND POISONS USED BY THIS DEPARTMENT

### RODENT AND PEST ANIMAL CONTROL:

Strychnine-treated barley .....	3,795 pounds
Strychnine-treated milo .....	186 pounds
Strychnine-treated rice .....	14 pounds
Strychnine-treated rolled wheat .....	82 pounds
Pival-treated bait .....	3,214 pounds
Warfarin-treated bait .....	2,592 pounds
"1080" treated bait .....	408 pounds

### INSECT AND FUNGI CONTROL:

Aldrin "E" .....	25 pints
Aldrin dust, 5% .....	25 pounds
BHC .....	12 pounds
Bordeaux .....	44 pounds
Chlordane dust, 5% .....	140 pounds
Chlordane, 72% .....	11 gallons
Cyanogas .....	16 ounces
DDT, 50% .....	65 pounds
DDT, 25% .....	92 quarts
Dieldrin, 1.7% .....	58 quarts
Dieldrin dust 1.5% .....	60 pounds
Dieldrin-treated bran .....	3,457 pounds
Ethion .....	1 quart
Lead Arsenate .....	24 pounds
Malathion .....	68 quarts
Malathion dust .....	58 pounds
Malathion "E" .....	8 gallons
Methyl Bromide .....	20 pounds
Niatox .....	5 gallons
Orthocide Fungicide .....	8 pounds
Paradichlorobenzine .....	3 pounds
Summer spray oil .....	75 gallons
Zinc (Ziram) .....	4 pounds

### WEED CONTROL:

Amino Triazole .....	20 pounds
Borax, soil sterilant .....	1,000 pounds
Chlorea .....	200 pounds
Contact weed killers .....	31 quarts
D-B Granular .....	50 pounds
Dowpon & Radapon .....	250 pounds
Diesel oil .....	3,029 gallons
H.C.G. .....	10 gallons
Kerosene .....	107 gallons
Polybor chlorate .....	50 pounds
Sinox .....	13 gallons
Sodium Chlorate .....	660 pounds
Spreaders .....	12 gallons
Spreader, Z-1 .....	35 pounds
2,4-D .....	595 gallons
2,4-D dust .....	300 pounds
2,4,5-T .....	12 gallons
Ureabor .....	50 pounds
White gasoline .....	213 gallons

**The Following Table Was Compiled From Commercial Pest Control Operators' Reports And From Permits Issued To Private Farm And Orchard Operators.**

Crop	Acreage Treated By Aircraft		Acreage Treated By Ground Rig		Total Acreage Treated
	Herbicides	Insecticides	Herbicides	Insecticides	
<b>FIELD CROPS:</b>					
Rice .....	24,817	13,331			38,148
Yellow Corn .....	146	365			511
Barley .....	8,888		2,982		11,870
Milo .....	300	320	1,167		1,787
Alfalfa .....	40	3,193	66	66	3,365
Ladino .....	3,384	7,024	2,807	887	14,102
Beans & Peas .....		1,015			1,015

<b>FRUITS &amp; NUTS:</b>					
Almonds .....		484		558	1,042
Walnuts .....		130		544	674
Peaches, Prunes & Apricots .....		226		674	900
Oranges .....				531	531
Pears .....		290			290
<b>MISCELLANEOUS:</b>					
Weeds & Summer Fallow ..	335		1,840		2,175
Pasture .....	760	320	245	80	1,405
Tomatoes, Cabbage		140			140
<b>TOTALS</b> .....	<b>38,670</b>	<b>27,408</b>	<b>9,107</b>	<b>3,340</b>	<b>78,525</b>

286 Permits issued to use herbicides in weed control.

50 Permits issued to use injurious materials in insect control.

New legislation requires that a permit must be obtained from the Agricultural Commissioner's office before certain pesticides can be purchased. (Section 1080 and 1080.1 Agricultural Code.) The following is a list of materials for which a permit is necessary:

1. Pest control materials containing calcium arsenate, standard lead arsenate or copper acetoarsenite (Paris Green), in dust form.
2. Pest control materials containing tetraethyl pyrophosphate (TEPP).
3. Pest control materials containing parathion.
4. Pest control materials containing ethyl-para-nitrophenyl thionebenzene phosphate (EPN).
5. Pest control materials containing octamethyl pyrophosphoramidate (OMPA).
6. Pest control materials containing 0-0-diethyl-0-2 (ethylmercapto)-ethyl thiophosphate (systox) (demeton).
7. 2,4-dichlorophenoxyacetic acid (2,4-D).
8. 2,4,5-trichlorophenoxyacetic acid (2,4,5-T).
9. 2-methyl-4-chlorophenoxyacetic acid (MCP).
10. 2,4-dichlorophenoxypropionic acid (2,4-DP).
11. 2,4,5-trichlorophenoxypropionic acid (Silvex).
12. Phosdrin (alpha-2-carbomethoxy-1-methylvinyl dimethyl).

Entering County .....	78	4,149
Leaving County .....	66	3,028
Moving within the County .....	77	2,811
Inspected during 1958 .....	78	1,953
Infected with American Foulbrood .....	9	16
Burned for American Foulbrood control .....	9	16
Infected with European Foulbrood .....	1	1

## THE AGRICULTURAL DEPARTMENT AT WORK

1958

**PLANT QUARANTINE INSPECTION:** To inspect shipments as reported when entering the county to prevent entry of weed seeds, plant diseases and insects or animals injurious to agriculture, and to determine compliance with state quarantine laws.

122,247 plants in 1,216 shipments were inspected  
5,974 plants in 14 shipments were rejected.

**STANDARDIZATION:** To inspect fruits, nuts, vegetables, honey, eggs and poultry-meat at packing houses, farms, wholesale and retail markets; and to enforce requirements established for quality, pack and labeling.

372,411 packages and 378 tons of farm produce inspected.  
1,589 dozen eggs candled and 115 dozen rejected.  
2,912 packages of poultry-meat inspected and 1 lot rejected.

**SEED INSPECTION AND SEED CERTIFICATION:** Seed inspection work requires the inspection of establishments selling agricultural seeds, and to enforce seed labeling and purity requirements as set forth in the Agricultural Code. Seed certification work requires the inspection of all harvesting equipment, seed cleaning mills, and sampling and labeling of seed eligible for certification.

342 samples of seed were drawn for purity and germination tests.  
115 harvesting equipment inspections were made.  
103 seed cleaning mill inspections were made.  
3,601,991 pounds of certified seed were sampled  
2,000 tons of grain were inspected and given clean grain certificates to allow shipment out of the county. This is a new law passed by the Legislature in 1958.

**APIARY INSPECTION:** To inspect the apiaries in the county and to eradicate American Foulbrood diseased colonies as found, and to maintain a register of all bees in the county.

8,129 colonies of bees in 189 apiaries are registered in the county.  
1,953 colonies of bees in 78 apiaries were inspected for cleanliness.  
16 colonies of bees in 9 apiaries were found to be infected with American Foulbrood and were burned.

**PEST CONTROL:** To register all qualified Pest Control Operators, issue permits for application of dangerous materials for weed and insect control, and to enforce certain safety regulations.

50 permits were issued for use of injurious materials for insect control.  
286 permits were issued for use of injurious herbicides for weed control.  
65,422 acres of crops were sprayed by pest control operators.  
45,000 acres of crops were sprayed by owners.

**WEED CONTROL:** To carry on control and eradication program against all primary noxious weed locations in the county, and to carry on limited control against certain secondary noxious weeds.

231 locations of Hoary Cress were treated with 4,500 gallons of mixed sprays.  
41 locations of Russian Knapweed were treated with 1,050 gallons of spray material.  
42 locations of White Horse Nettle were sprayed with 1,000 gallons of mixed sprays.  
37 locations of Klamath Weed were treated with 600 gallons of mixed sprays.  
6 acres of Johnson Grass (strips) were treated with 4,200 gallons of mixed spray material.  
1,478 miles of county roadsides and 238 miles of State Highway were sprayed with 97,950 gallons of mixed sprays for puncture vine control.  
2,400 gallons of mixed spray materials and 2,060 pounds of dry soil sterilants were applied to test plots for weed control.

**RODENT CONTROL:** To inspect properties for field rodents and other pest animals, and to prepare bait materials for distribution for control purposes.

3,795 pounds of strychnine-treated barley were distributed for squirrel control.

5,806 pounds of mixed rat bait were distributed.

268 pounds of strychnine-treated grain were distributed for mice control.

232 pounds of various other baits were distributed.

**NURSERY INSPECTION:** To make regular inspections of all nurseries and nursery stock to prevent spread of insects, diseases and other pests.

5,400 fruit trees were rejected for root lesion nematode infestation.

**PLANT DISEASE:** To carry on control or eradication programs for certain bacterial, fungus and virus diseases.

971 properties were inspected for Quick Decline of citrus, and the Meyer Lemon trees within the boundaries of the commercial district were removed. The Meyer Lemon trees are known host plants for this disease.

**INSECT AND OTHER PEST DETECTION IN FIELDS AND ORCHARDS:** To conduct regular inspections of field and orchard crops and grain storage location for pest detection, to place and service insect traps in checking for new insects. This survey work is done to determine the presence of pests injurious to agriculture and to be constantly on the alert for any new symptoms of disease or pests that might be found and be ready to abate the nuisance before it gains a foothold.

100 fruit-fly traps, 5 Japanese Beetle traps and 16 Cherry Fruit Fly traps were placed throughout the county, and were serviced each week during the summer months.

92 Khapra Beetle cloth traps were placed in grain storage warehouses.

3 mosquito traps were placed in the county to determine the kinds of mosquitoes here and to estimate the number.

457 specimens were sent to the State Department of Agriculture for identification.

2,496 man hours were spent in the above work.

In addition to the above listed inspections, surveys were made for grasshoppers, yellow scale, olive parlatoria scale, red scale, spotted alfalfa aphid, armyworms, codling moth, corn earworm, Hoja blanca of rice, painted lady butterfly and mites.

**WEIGHTS AND MEASURES:** To test and seal all retail scales in stores, large capacity scales, milk tanks, service station gasoline pumps and meters, tank trucks, oil measures, and all other weights and measuring devices in the county.

1,018 pieces of equipment were sealed without correction.

83 pieces of equipment were sealed after correction.

56 pieces of equipment were tested and found to be out of order.

3 pieces of equipment were condemned and confiscated.

Other work under weights and measures is itemized on page 14 of this report.

**STATISTICS:** Prepare a weekly report on weather and crop conditions for the State Crop Reporting Service; compile monthly and annual reports to the Board of Supervisors and the State Department of Agriculture; and to work such other reports as required. These reports are of particular interest on a statewide comparison basis in that they supply a knowledge of general agriculture and crop conditions at the local level.

**COOPERATION:** To cooperate with the United States Department of Agriculture, State Department of Agriculture, University of California Extension Service, farm groups, and other public and private agencies in the interests of agriculture.

A vertical bar composed of five equal-width segments. From left to right, the segments are black, white, black, white, and black. The black segments have a grainy, speckled texture.

## GLENN COUNTY DEPARTMENT OF AGRICULTURE

Memorial Building, Willows, California

February 15, 1960

P. V. Harrigan  
Agricultural Commissioner  
Sealer of Weights and Measures

Telephones  
Willows — WEllington 4-4651  
Orland — UNderhill 5-2264

William E. Warne, Director  
State Department of Agriculture  
and  
Glenn County Board of Supervisors

Gentlemen:

Section 65.5 of the California Agricultural Code requires that the Agricultural Commissioner compile a report covering conditions, acreage, production and value of the agricultural products of his county; and, Section 65 requires that the Commissioner keep a record of his official acts and make an annual report to the Director of Agriculture on the conditions of the agricultural interests in his county; and, further, Section 30 indicates that the Agricultural Department shall promote and protect the agricultural industry of the state.

For the past 23 years the department has published annually a general report on the agricultural crop conditions and development in the county.

The year 1959 moved forward with the highest income ever reported for Glenn County. The gross income of \$47,028,000 is an increase of \$2,180,000 over 1958. Two crops made most of the increased gain reported with almonds gaining \$1,223,000 over last year, and rice gaining just under a million dollars. Other crops fluctuated up and down to balance out about even.

Irrigation of new land under existing irrigation districts has moved along fairly slowly.

The livestock and dairy business has continued on a firm forward movement with some increase in the number of beef cattle sold, but with a price reduction averaging a 7% drop in prices received under the 1958 sales.

For a number of years fruit and nut tree plantings have been carried forward on a very active basis, with prunes, almonds and citrus leading the field in new plantings.

Crops and conditions generally for the year 1959, when combined with good weather, were favorable to all branches of farm operation.

Respectfully submitted,

*P. V. Harrigan*

P. V. HARRIGAN  
Agricultural Commissioner

## GLENN COUNTY'S POSITION IN STATE PRODUCTION

Below is listed Glenn County's position in comparison to the 53 counties of California:

Glenn County ranks 21st place in Agricultural Crop Value

Land area .....		35th
Ladino clover seed .....	1st	
Sheep and Lambs .....	1st	
Safflower .....	3rd	
Rice .....	4th	
Permanent Pasture (irrigated) ....	4th	
Bees .....	7th	
Olives .....	7th	
Barley .....	8th	
Navel Oranges .....	8th	
Almonds .....	10th	
Prunes .....	11th	
Citrus (all) .....	11th	
ry Beans .....	12th	
Alfalfa (hay and seed) .....	13th	
Apricots .....	16th	
Pears .....	16th	
Dairy Cattle .....	16th	
Figs .....	17th	
Hogs .....	19th	
Sugar Beets .....	19th	
Wheat .....	20th	
Peaches .....	23rd	
Walnuts .....	24th	
Commercial timber land .....	28th	
Cattle, all .....	33rd	

### WILDLIFE

Geese .....	1st
Ducks .....	2nd
Pheasants .....	2nd
Muskrats .....	7th
Deer (Black Tail) .....	32nd

The following are commodities produced in the county that grossed over a million dollars each during 1959:

1. Rice
2. Fat Cattle
3. Cattle
4. Lambs
5. Manufacturing Milk
6. Irrigated Pasture
7. Milled Lumber
8. Alfalfa Hay
9. Barley
10. Market Milk
11. Almonds
12. Other Orchard Crops
13. Prunes
14. Ladino Clover
15. Milo

### PETROLEUM INCOME

Natural gas — 2nd largest field in California

Estimates rate Glenn County 4th richest per capita in the United States.

Population of Glenn County ..... 15,700

1947 .....	27,935,000		
1948 .....	27,070,000	23-Year Total .....	\$589,483,400
1949 .....	\$ 24,820,000		

## ECONOMIC RESOURCES

Water Resources: Sacramento River, Feather River, Stony Creek, Grindstone Creek and Butte Creek.

Water Storage: Shasta Dam on Sacramento River; Stony Gorge Dam and East Park Dam on Stony Creek.

	Acres
<b>Irrigation Districts in Operation:</b>	
Orland, U. S. Reclamation District — Stony Creek .....	20,000
Glenn-Colusa Irrigation District — Sacramento River .....	54,435
Jacinto Irrigation District — Sacramento River .....	12,560
Provident Irrigation District — Sacramento River .....	12,520
Princeton-Codora-Glenn — Sacramento River .....	7,000
Willow Creek Mutual Water Co. — Sacramento River .....	1,000
Loam Ridge Irrigation District — Pumps .....	1,200
Western Canal Company — Feather River .....	11,000
Stony Creek Valley, Riparian Water Rights .....	3,800
Pump irrigation from farm wells .....	40,600
<b>TOTAL ACREAGE UNDER IRRIGATION .....</b>	<b>164,115</b>
<b>Other Land Suitable For Irrigation:</b>	
Orland-Artois Irrigation District .....	18,000
Kanawha Irrigation District .....	2,800
West of present irrigation systems .....	71,000
Butte City District, east of Sacramento River .....	25,000
Stony Creek Valley .....	4,436
West of Orland on Stony Creek, below proposed Black Butte Dam .....	15,000
Sloping land and foothill valleys .....	40,609
<b>ADDITIONAL ACREAGE SUITABLE FOR IRRIGATION .....</b>	<b>176,845</b>
<b>TOTAL IRRIGABLE LAND IN GLENN COUNTY .....</b>	<b>340,960</b>

Total Acreage in Glenn County .....	880,000
Acres in Farm Land .....	319,000
Land leveled for irrigation in 1959, 7,225 acres.	
Irrigation wells drilled in 1959, 35	
Acres in Range Land .....	287,000
Acres in National Forest .....	221,568
Acres of Commercial Timber Land .....	113,000
Board Feet of Standing Timber .....	3,000,000,000
Species of merchantable trees: Sugar Pine, Ponderosa (yellow) Pine, Douglas Fir, White Fir, Red Fir and Incense Cedar	

## PRINCIPAL AGRICULTURAL INDUSTRIES

	No.		No.
Rice Dryers, Public & Private .....	22	Sugar Beet Processing Plants .....	1
Commercial Warehouses .....	12	Flying Service Companies (pest control, grain seeding, fertiliz- ing, weed control, fire control) ....	6
Seed Milling & Processing Plants ....	5	Agricultural Chemical Fertilizer Companies .....	4
Feed Mills .....	6	Nurseries .....	4
Poultry Processing Plants .....	5	Sawmills .....	1
Livestock Auction Yards .....	3	Well Drilling Companies (water) .....	4
Commercial Feed Lots .....	12	Natural Gas Wells in Production ....	105
Slaughter Houses .....	4		
Milk Processing Plants .....	5		
Fruit & Nut Processing Plants .....	15		
Honey & Bee Packaging Plants .....	8		

Mendocino National Forest Headquarters, Willows  
 Sacramento Valley Wildlife Refuge, Willows  
 Glenn County Chamber of Commerce, Willows

## RESOURCES

Lakes .....	Plaskett Meadows, Stony Gorge Dam and Packer Lake	
County Parks .....		5
Forest Camp Grounds, Improved Units .....		74
Visitations annually to National Forest areas .....		20,000
National Forest Acreage .....		221,568
Elevation in Forest — Highest Point .....		7,450

### Kinds of Fish:

- Mountain streams — Rainbow Trout, Steelhead
- Rivers — Striped Bass, Black Bass, Salmon, Shad,  
Catfish, Steelhead, Rainbow Trout, Sturgeon.
- Lakes — Black Bass, Catfish, Sunfish, Crappie, Bluegill.

Rivers and Creeks:	(Length in miles through Glenn County)
Sacramento River .....	40
Black Butte River, a tributary of Eel River .....	7
Stony Creek, main stream .....	68
Stony Creek, north fork .....	12
Briscoe Creek .....	12
Grindstone Creek .....	28
Cold Creek .....	6
Willow Creek .....	37
Butte Creek .....	12
Walker Creek .....	20

Estimated number of Wild Game	Estimated number of Predators	Reported killed by Licensed Hunters, Trappers and Others
Columbia Black Tail Deer .....	14,000	707
California Black Bear .....	150	—
Wild Ducks .....	1,172,400	—
Wild Geese .....	183,000	—
Ring-neck Pheasants .....	40,000	—
Calif. Valley & Mt. Quail .....	40,000	—
Mourning Doves .....	85,000	—
Band-tail Pigeons .....	15,000	—
Beaver .....	200	—
Otter .....	50	—
Mountain Lions (State Bounty— Female \$65; Male \$50) .....	—	15
Coyotes (County Bounty \$10) .....	—	3,000
Bobcats .....	—	2,000
Badgers .....	—	200
Raccoons .....	—	15,000
Skunks .....	—	10,000
Mink .....	—	500
Grey Fox .....	—	6,000
Red Fox .....	—	1,000
Muskrats, trapped .....	—	4,818

Glenn County has 18 State Licensed Trappers

## APIARY INSPECTION

	Apiaries	Colonies
Registered during 1959 .....	205	6,904
Entering County .....	76	3,424
Leaving County .....	57	2,605
Moving within the County .....	62	2,761
Inspected .....	67	1,994
Infected with American Foulbrood .....	6	47
Infected with European Foulbrood .....	1	1
Burned for American Foulbrood .....	6	47

## United States Department of Agriculture Stabilization And Conservation Participation — 1959

### SUPPORT PRICES ALLOWED FOR COMMODITIES (when put under loan or purchase agreement)

Barley .....	\$ 1.79 cwt.
Beans, Medium White .....	5.68 cwt.
Small White .....	6.06 cwt.
Red Kidney .....	7.24 cwt.
Pink .....	5.86 cwt.
Small Red .....	5.96 cwt.
Large Lima .....	8.81 cwt.
Baby Lima .....	4.21 cwt.
Yellow Corn .....	2.29 cwt.
Grain Sorghum .....	1.87 cwt.
Oats .....	1.81 cwt.
Rice (20c premium for No. 1) .....	4.07 cwt.
Wheat .....	3.18 cwt.
Honey .....	.088 lb.

### LOAN REDUCTION FOR NOXIOUS WEED SEEDS

Barley, Oats, Rye & Wheat .....	.10 bu.
Flaxseed .....	.15 bu.
Grain Sorghums .....	.15 bu.

### COMMODITIES UNDER LOAN — 1959

Honey .....	17,710 lbs.	\$1,116.00	\$ 1,116.00
-------------	-------------	------------	-------------

### DIRECT PARTICIPATION

Wool Incentive .....	\$564,500.00	
Agriculture Conservation .....	84,000.00	
Soil Bank .....	119,900.00	
Cover Crops .....	30,000.00	
Sugar Beet Processor & Import .....	51,300.00	\$ 849,700.00

INDIRECT PURCHASE BENEFIT TO DAIRY INDUSTRY\* ..... 500,000.00

TOTAL UNITED STATES PARTICIPATION (Agriculture) ..... \$1,350,816.00

\*Purchases by the United States Department of Agriculture of dairy products — milk, butter and cheese — in the amount of over \$19,000,000 in California during 1959 reflects an indirect benefit to Glenn County dairymen of approximately \$500,000 or equivalent to \$20 per cow. The school lunch program is one of the agencies that benefit by this program.

ASSESSED VALUATION ..... \$54,027,430.00

BUDGET TO OPERATE GLENN COUNTY ..... \$ 6,067,961.00

### SOURCE OF INCOME:

Current County Taxes .....	(38.9%)	\$ 2,060,330.00
Other Revenue .....	(61.1%)	\$ 4,007,631.00

## CHEMICALS AND POISONS USED BY THIS DEPARTMENT

### RODENT AND PEST

#### ANIMAL CONTROL

4,672 pounds strychnine-treated barley  
117 pounds strychnine-treated milo  
22 pounds strychnine-treated wheat  
1,355 pounds strychnine-treated rice  
155 pounds "1080" treated baitings  
2,235 pounds Pival-treated bait  
2,165 pounds Warfarin-treated bait

#### WEED CONTROL

60 pounds Amino Triazole  
150 pounds Chlorea  
510 pounds Dalapon  
815 pounds Dowpon  
675 gallons diesel oil  
1 gallon multifilm  
500 pounds Polybor chlorate  
2 pints Sinox  
107 gallons 2,4-D  
2 gallons 2,4-5-T  
8 gallons Trysben  
100 pounds Ureabor  
42 gallons X-77 spreader  
950 gallons weed-oil

### INSECT AND FUNGUS CONTROL

36 pounds BHC  
50 quarts Chlordane, 72%  
135 pounds Chlordane dust, 5%  
20 pounds copper spray  
5 pounds Cyanogas  
30 pounds DDT, 50%  
235 quarts DDT liquid, 25%  
5 quarts Diazinon  
61 quarts Dieldrin, 1.7%  
120 pounds Dieldrin dust, 1.5%  
20 gallons Ethion  
40 pounds Lead Arsenate  
36 pounds Malathion  
6 gallons Malathion  
3 pounds Methyl Bromide  
12 pounds Parathion  
1 gallon Parathion  
8 pounds Phosie  
30 gallons summer oil  
2 pounds Tedion  
4 gallons X-77 spreader  
1,264 pounds Dieldrin-treated bran  
13 pounds dry spreader

**The Following Table Was Compiled From Commercial Pest Control Operators' Reports And From Permits Issued To Private Farm And Orchard Operators.**

Crop	Acreage Treated By Aircraft		Acreage Treated By Ground Rig		Total Acreage Treated

2,413,303 lbs. of seed grain were treated by Commercial Pest Control Operators.

267 Permits issued to use herbicides in weed control.

69 Permits issued to use injurious materials in insect control.

New legislation requires that a permit must be obtained from the Agricultural Commissioner's office before certain pesticides can be purchased. (Section 1080 and 1080.1 Agricultural Code.) The following is a list of materials for which a permit necessary:

1. Pest control materials containing calcium arsenate, standard lead arsenate or copper acetoarsenite (Paris Green), in dust form.
2. Pest control materials containing tetraethyl pyrophosphate (TEPP).
3. Pest control materials containing parathion.
4. Pest control materials containing ethyl-para-nitrophenyl thionebenzene phosphate (EPN).
5. Pest control materials containing octamethyl pyrophosphoramidate (OMPA).
6. Pest control materials containing 0-0-diethyl-0-2 (ethylmercapto)-ethyl thio-phosphate (systox) (demeton).
7. 2,4-dichlorophenoxyacetic acid (2,4-D).
8. 2,4,5-trichlorophenoxyacetic acid (2,4,5-T).
9. 2-methyl-4-chlorophenoxyacetic acid (MCP).
10. 2,4-dichlorophenoxypropionic acid (2,4-DP).
11. 2,4,5-trichlorophenoxypropionic acid (Silvex).
12. Phosdrin (alpha-2-carbomethoxy-1-methylvinyl dimethyl).

## GLENN COUNTY'S CATTLE HISTORY

By THELMA WHITE  
Editor, "Wagon Wheels"

Miners, passing to and fro along the "grand thoroughfare" from Sacramento to the mines in Shasta, dubbed Glenn County, then part of old Colusa, "Cow County" for the hundreds of half wild cattle that roamed the plains between Stony and Cache Creeks. The name stuck and rightly so.

Cattle were remarkably well adapted to the region they had appropriated and multiplied rapidly, living well in the mild climate and on the lush native grasses of the valley and foothills.

The sleek, well rounded, soft eyed, bovine of today would scarcely recognize her lean, rawboned, long-horned Spanish cousin, first introduced to the area by John S. Williams on the Thomas O. Larkin children's grant in 1847.

Granville P. Swift purchased the Larkin cattle and brand in 1850 and took up stock raising at "The Willows" and also at the "Dobe" north of Orland where the stock was rodeoed in the fall. Otherwise they roamed the plains at will in company of the deer, antelope and grizzly bear.

Other large herds were brought into the county between 1852 and 1855. By 1858 all the land along the river was taken, so ranches began to be located in the foothill area along water courses. As yet the ranchers owned no land, only the cattle and the camp. Claims were recognized by neighbors, the land had no value, the grass was free and the water belonged to the first comer. All that was necessary was a little "know how" and the courage to protect one's rights and the herd. So when in 1856 the government offered most of the public land in the county at public sale, for \$1.25 per acre, many a rancher, who was compelled to purchase the land his stock grazed upon, complained bitterly. In after years a number of these same ranchers became rich on the rise in the very land whose purchase they had protested.

Cattle had been first on the scene, and since they were of primary importance, no one thought of anything else than that grain land should be fenced. The river farmers made fences of rails split from native oak; a few tried herding or a ditch fence. In the foothills farmers resorted to brush fences, which zigzagged along the water courses. Generally the ranchers looked upon newly arrived small farmers as trespassers and took particular delight in their discomfort. It was not until 1872 that the "no fence law" placed the restraint of livestock upon the owner.

In drouth years stockmen suffered serious losses. After the set-back of 1864 when hundreds of head of cattle died from lack of feed, stockmen realized the possibilities of grain growing in connection with stock raising.

Meanwhile the strains had been improved by crossing the range cattle with Durham and other blood lines. A number of ranchers returned to Missouri and Kentucky and drove back across the plains enough fine stock to form the nucleus of their later herds.

W. N. Herd, county assessor of 1875, listed the total number of cattle in the county, which then included Colusa County, at 11,050. Of these, 50 were oxen.

In 1891, at the time Glenn County was divided from Colusa, the number of cattle had increased to something over fourteen thousand.

Glenn County lists 18,500 head of beef cattle kept on ranches in 1959, and 21,000 head of dairy cattle are held on 685 dairy farms. These figures fluctuate from year to year, placing Glenn County from 12th to 16th among the counties of California in number of dairy cattle and 33rd place for all cattle.

Today stock raising is as different as jet travel is from that of the covered wagon.

Irrigation prompted the first great revolutionary factor with the advent of permanent pastures—first alfalfa, then ladino clover and pasture grasses. Alfalfa, however, because of its tendency to bloat, proved a far better feed in hay form than in green pasture. Permanent pastures assure the grower a year round source of feed with a cow unit of about one and one-half cows per acre. Or the irrigated pasture can be used in conjunction with hill ranges, stubble fields or supplement to

(continued on bottom of page 16)

## THE AGRICULTURAL DEPARTMENT AT WORK 1959

**PLANT QUARANTINE INSPECTION:** A quarantine is a regulation for controlling the movement of plants and plant products; its purpose is to prevent the transmission of insect pests and plant diseases harmful to plants and animals.

164,132 plants in 976 shipments were inspected and passed.

2,231 plants in 45 shipments were rejected.

460 railroad cars of milo brought into the county for storage were found to be infested with primary noxious weed seeds and were quarantined.

**STANDARDIZATION:** A wide variety of produce including fruits, nuts, vegetables, honey, eggs, poultry and meat are inspected at farms, wholesale and retail markets and packing plants to insure established quality, pack and labeling.

642,554 packages and 775 tons of farm produce were inspected.

703 dozen eggs were candled of which 49 dozen were rejected.

344 packages of poultry-meat were inspected with 2 packages rejected.

**SEED INSPECTION AND SEED CERTIFICATION:** In order to maintain standards of seed labeling and purity as set forth in the Agricultural Code, it is necessary to inspect establishments selling agricultural seeds. Seed treated with any toxic material requires informative labeling by reason of Code amendment this year. Cooperation in the state seed certification program requires the inspection of all harvesting equipment, seed cleaning mills and sampling and labeling of seed eligible for certification. The following totals cover the seed certification work:

353 samples of seed, representing 3,903,655 pounds, were drawn for purity and germination tests.

130 harvesting equipment inspections were made.

123 seed cleaning mill inspections were made.

**APIARY INSPECTION:** The apiaries of the county are inspected each year to reduce and prevent the spread of bee diseases, particularly American Foulbrood. A register is maintained of the 6,904 colonies of bees registered.

**PEST CONTROL:** In order to eradicate infestations of major weeds and insects and to enforce certain safety regulations all qualified pest control operators and owner-operators are issued permits for the application of dangerous materials.

69 permits were issued for use of injurious materials for insect control.

267 permits were issued for use of injurious herbicides for weed control.

100,888 acres of crops were treated with pesticides.

**WEED CONTROL:** Weed control is aimed at eradication of primary noxious weeds as defined by the Agricultural Code and the control of certain secondary noxious weeds.

225 locations of Hoary Cress, 59 locations of Russian Knapweed, and 56 locations of White Horse Nettle were treated; many were treated more than once.

432 contacts were made in the Johnson Grass control area.

The County Road Department, the Division of Highways and the Agricultural Department spent \$14,072 on weed control in 1959.

**RODENT CONTROL:** The department inspects properties for field rodents and other pest animals, and prepares bait materials for free distribution for control purposes. During the year 9,608 pounds were issued for rodent control purposes.

**NURSERY INSPECTION:** Regular inspections are made of all nurseries and nursery stock to prevent the spread of insects, diseases and other pests.

**PLANT DISEASE:** The department inspects properties to determine the need for control or eradication programs for certain bacterial fungus or virus diseases.

251 properties were inspected for root knot nematode.

336 properties were inspected for Quick Decline of citrus. The Meyer Lemon trees are known host plants for this disease.

57 properties were inspected for Hoja Blanca, a disease of rice.

21 properties were checked for possible "Witchweed" infestation.

**INSECT AND OTHER PEST DETECTION IN FIELDS:** Several organized inspection and trapping programs are conducted by the department, some in cooperation with State and Federal Departments of Agriculture.

30 multi fruit-fly traps, 5 Japanese Beetle traps and 12 Cherry fruit fly traps were placed throughout the county and were serviced each week during the summer months.

3 mosquito traps were placed in the county to determine the kinds and to estimate the number.

2,211 properties were inspected for the following: Red Scale, Khapra Beetle, grasshoppers, yellow scale, olive parlatoria scale, spotted alfalfa aphid, citrus white fly, armyworms, codling moth, European corn earworm, rice water weevil, pecan pest and a general insect survey.

590 specimens were sent to the State Department of Agriculture for identification.

**WEIGHTS AND MEASURES:** All retail scales in stores, large capacity scales, milk tanks, service station gasoline pumps and meters, tank truck, and oil measures are tested and sealed, as are all other weights and measuring devices in the county.

1,287 pieces of equipment were checked, 80 were found to be out of order and 6 were condemned and confiscated.

Glenn County now has 93 milk farm holding tanks ranging from 400 to 2500 gallons capacity.

**STATISTICS:** The department prepares a weekly report on weather and crop conditions for the State Crop Reporting Service; compiles monthly and annual reports to the Board of Supervisors and the State Department of Agriculture; and to work such other reports as required. These reports are of particular interest on a statewide comparison basis in that they supply a knowledge of general agriculture and crop conditions at the local level.

**COOPERATION:** The department cooperates with the United States Department of Agriculture, State Department of Agriculture, University of California Extension Service, farm groups, and other public and private agencies in the interests of agriculture.

## GLENN COUNTY'S CATTLE HISTORY

(continued from page 14)

ensure year round feed, the great bugbear of the early plains rancher. Until the last few years a feed was considered good if it had sufficient fat, protein, bulk and palatability. At present there are over 100,000 acres of alfalfa, ladino and other permanent pastures under cultivation in Glenn County.

A second revolutionary practice has been brought about with supplementary feeding. At first cotton seed cake and sugar beet pulp were fed as a supplement to range stock. Later protein and mineral concentrates were added to the diet of dairy and beef cattle. The introduction of pelleting machines enabled the composition of a complete feed from hay and other high protein mill by-products such as grain screening and legume threshings.

Here in Glenn County with a wealth of water available and all the basic ingredients to be had for the growing, cattle raising may well continue to be an expanding industry.

## GLENN COUNTY DEPARTMENT OF AGRICULTURE

Memorial Building, Willows, California

March 10, 1961

P. V. Harrigan  
Agricultural Commissioner  
Sealer of Weights and Measures

Telephones  
Willows—WELLington 4-4651  
Orland—UNderhill 5-2264

Charles Paul, Director  
State Department of Agriculture  
and  
Glenn County Board of Supervisors

Gentlemen:

Section 65.5 of the California Agricultural Code requires that the Agricultural Commissioner compile a report covering the condition, acreage, production and value of the agricultural products of his county; and, Section 65 requires that the Commissioner keep a record of his official acts and make an annual report to the Director of Agriculture on the conditions of the agricultural interests in his county; and, further, Section 30 indicates that the Agricultural Department shall promote and protect the agricultural industry of the state.

For the past 24 years this department has published annually a general report on the agricultural crop conditions and development in the county.

The 1960 farm income was tabulated at \$49,000,500 which is a little over a million dollar gain over the previous year, so apparently Glenn County farmers got their share of the farm dollar in 1960. There were a few ups and downs and some fluctuation in production of a few crops. It has been some time since a farmer had to sell his crop on a depressed market, but prices received generally were quite stable and total returns showed a slight improvement when compared to other years.

Three crops showed a decline in production. The navel orange crop was down over a half million dollars due to the excessive "June drop"; the almond crop was also off over a half million dollars, and prunes were down a third of a million dollars. Rice, again registered the highest production on record, and the various seed crops showed substantial gains.

The sheep industry showed a slight drop, but cattle showed over a half million dollars increase. The dairy industry showed an increase of nearly \$400,000 over last year, this was due to the increase in the number of dairy cattle and a slight increase in the market price of dairy products.

Irrigation of new land under pump irrigation has moved along fairly active with 5,000 acres levelled last year, and 54 electric pumps were installed.

A widespread fruit and nut tree planting program has been carried on for several years, but at an accelerated pace the past three years. Almond, prune and citrus tree plantings were far in the lead over other tree plantings.

Crops and conditions generally, when combined with good weather, were favorable to all branches of farm operations in 1960.

Respectfully submitted,

*P. V. Harrigan*

P. V. HARRIGAN  
Agricultural Commissioner

**1960 PRODUCTION AND VALUE OF AGRICULTURAL PRODUCTS**

## GLENN COUNTY'S POSITION IN STATE PRODUCTION

Below is listed Glenn County's position in comparison to the 58 counties of California:

Glenn County ranks 25th in Agricultural Crop Value

Land area .....	35th
Ladino Clover Seed .....	1st
Sheep and Lambs .....	1st
Safflower .....	4th
Rice .....	4th
Permanent Pasture (irrigated) ....	4th
Hogs .....	6th
Olives .....	7th
Navel Oranges .....	7th
Bees and Honey .....	7th
Almonds .....	10th
Prunes .....	10th
Barley .....	11th
Figs .....	14th
Alfalfa Hay .....	16th
Cattle, All .....	16th
Apricots .....	16th
Pears .....	17th
Dairy Products .....	18th
Wheat .....	22nd
Sugar Beets .....	23rd
Dry Beans .....	23rd
Walnuts .....	24th
Peaches .....	24th
Commercial Timber Land .....	28th

**WILDLIFE**

Geese .....	2nd
Ducks .....	4th
Pheasants .....	4th
Muskrats .....	4th
Deer .....	33rd

The following are commodities produced in the county that grossed over a million dollars each during 1960:

1. Rice
2. Fat Cattle
3. Cattle
4. Milled Lumber
5. Manufacturing Milk
6. Sheep and Lambs
7. Irrigated Pasture
8. Barley
9. Alfalfa Hay
10. Fruit Crops
11. Market Milk
12. Ladino Clover Seed
13. Nut Crops

### PETROLEUM INCOME

Natural gas — 2nd largest field in California

Estimates rate Glenn County 4th richest per capita in the United States.

Population of Glenn County ..... 17,245

### AGRICULTURE INCOME TOTALS FOR 24 YEARS

Year	Amount	Year	Amount
1937 .....	\$ 6,450,700	1950 .....	\$ 30,637,000
1938 .....	5,670,300	1951 .....	39,005,000
1939 .....	7,698,200	1952 .....	42,473,700
1940 .....	8,206,700	1953 .....	33,267,000
1941 .....	10,587,500	1954 .....	31,364,000
1942 .....	11,973,200	1955 .....	34,570,000
1943 .....	13,824,600	1956 .....	37,970,000
1944 .....	19,047,000	1957 .....	43,000,000
1945 .....	18,577,000	1958 .....	45,448,000
1946 .....	22,260,000	1959 .....	47,987,800
1947 .....	27,935,000	1960 .....	49,000,500
1948 .....	27,070,000		
1949 .....	\$ 24,820,000	24-Year Total .....	\$638,843,200

## United States Department of Agriculture Stabilization And Conservation Participation — 1960

### SUPPORT PRICES ALLOWED FOR COMMODITIES (when put under loan or purchase agreement)

Barley .....	\$ 1.81 cwt.
Beans, Medium White .....	5.71 cwt.
Small White .....	6.09 cwt.
Red Kidney .....	7.27 cwt.
Pink .....	5.89 cwt.
Pinto .....	4.96 cwt.
Small Red .....	5.99 cwt.
Large Lima .....	8.73 cwt.
Baby Lima .....	4.24 cwt.
Yellow Corn .....	2.25 cwt.
Grain Sorghum (Discolored Discount .07 cwt.) .....	1.84 cwt.
Oats .....	1.81 cwt.
Rice (20c premium for No. 1) .....	4.16 cwt.
Wheat .....	3.12 cwt.
Honey .....	.09 lb.

### LOAN REDUCTION FOR NOXIOUS WEED SEEDS

Barley, Oats, Rye & Wheat .....	.10 bu.
Flaxseed .....	.15 bu.
Grain Sorghums .....	.15 bu.

### COMMODITIES UNDER LOAN — 1960

Farm Stored Rice Loans .....	347,300 bu.	\$ 16,437.18	
Warehouse Stored Loans .....	6,165,600 bu.	276,450.40	
Farm Storage Facility Loans .....		120,501.30	
Warehouse Stored Bean Loans .....	2,340 bu.	1,642.68	\$ 415,031.56

### DIRECT PARTICIPATION

Wool Incentive .....	\$396,300.00	
Agriculture Conservation .....	70,000.00	
Soil Bank .....	119,900.00	
Sugar Beet Processor & Import .....	70,580.00	\$ 656,780.00

### INDIRECT PURCHASE BENEFIT TO DAIRY INDUSTRY .....

500,000.00  
\$1,571,811.00

### TOTAL UNITED STATES PARTICIPATION (Agriculture) .....

\$54,543,840.00

### ASSESSED VALUATION .....

#### BUDGET TO OPERATE GLENN COUNTY:

Budget of County (under Board of Supervisors) .....	\$ 3,793,934.20
Special Districts Governed through Board of Supervisors .....	79,998.71
Budgets of Districts Governed by Local Boards (Schools, Cemetery Districts, Fire & Levee Districts) .....	2,817,553.77

\$ 6,691,486.68

### SOURCE OF INCOME:

Current County Taxes — General County .....	\$1,034,971.78
Special Districts .....	1,211,163.03
Other Revenue (State, Federal, including cash on hand) — General County .....	2,758,962.42
Special Districts .....	1,686,389.45

\$6,691,486.68

## RESOURCES

Lakes .....	Plaskett Meadows, Stony Gorge Dam and Packer Lake	5
County Parks .....		74
Forest Camp Grounds, Improved Units .....		23,000
Visitations annually to National Forest areas .....		221,568
National Forest Acreage .....		7,450
Elevation in Forest — Highest Point .....		

### Kinds of Fish:

Mountain streams — Rainbow Trout, Steelhead  
 Rivers — Striped Bass, Black Bass, Salmon, Shad,  
 Catfish, Steelhead, Rainbow Trout, Sturgeon.  
 Lakes — Black Bass, Catfish, Sunfish, Crappie, Bluegill.

Rivers and Creeks:	(Length in miles through Glenn County)	
Sacramento River .....		40
Black Butte River, a tributary of Eel River .....		7
Stony Creek, main stream .....		68
Stony Creek, north fork .....		12
Briscoe Creek .....		12
Grindstone Creek .....		28
Cold Creek .....		6
Willow Creek .....		35
Butte Creek .....		12
Walker Creek .....		20

### Estimated number of Wild Game

		Estimated number of Predators	Reported killed by Licensed Hunters, Trappers and Others
Columbia Black Tail Deer .....	12,000	—	864
California Black Bear .....	100	—	6
Wild Ducks .....	1,075,000	—	—
Wild Geese .....	200,000	—	—
Ring-neck Pheasants .....	50,000	—	—
Calif. Valley & Mt. Quail .....	60,000	—	—
Mourning Doves .....	90,000	—	—
Band-tail Pigeons .....	10,000	—	—
Beaver .....	450	—	138
Otter .....	30	—	1
Mountain Lions (State Bounty — Female \$60; Male \$50) .....	—	10	4
Coyotes (County Bounty \$10) .....	—	4,000	156
Bobcats .....	—	2,500	2
Badgers .....	—	200	0
Raccoons .....	—	1,700	119
Skunks .....	—	15,000	246
Mink .....	—	400	7
Grey Fox .....	—	8,000	15
Red Fox .....	—	1,500	0
Muskrats, trapped .....	—	—	4,032

Glenn County has 18 State Licensed Trappers

## APIARY INSPECTION

	Apiaries	Colonies
Registered during 1960 .....	184	5,790
Entering County .....	32	2,143
Leaving County .....	20	1,343
Moving within the County .....	41	1,459
Inspected .....	60	2,286
Infected with American Foulbrood .....	6	11
Infected with European Foulbrood .....	3	12
Burned for American Foulbrood .....	6	11

## ECONOMIC RESOURCES

Water Resources: Sacramento River, Feather River, Stony Creek, Grindstone Creek and Butte Creek.

Water Storage: Shasta Dam on Sacramento River; Stony Gorge Dam and East Park Dam on Stony Creek.

Irrigation Districts in Operation:	Acres
Orland, U. S. Reclamation District — Stony Creek .....	20,000
Glenn-Colusa Irrigation District — Sacramento River .....	54,435
Jacinto Irrigation District — Sacramento River .....	12,560
Provident Irrigation District — Sacramento River .....	12,520
Princeton-Codora-Glenn — Sacramento River .....	7,000
Willow Creek Mutual Water Co. — Sacramento River .....	1,000
Loam Ridge Irrigation District — Pumps .....	1,200
Western Canal Company — Feather River .....	11,000
Stony Creek Valley, Riparian Water Rights .....	3,800
Pump irrigation from farm wells .....	45,600
<b>TOTAL ACREAGE UNDER IRRIGATION .....</b>	<b>169,115</b>
Other Land Suitable For Irrigation:	
Orland-Artois Irrigation District .....	18,000
Kanawha Irrigation District .....	2,800
West of present irrigation systems .....	66,000
Butte City District, east of Sacramento River .....	25,000
Stony Creek Valley .....	4,436
West of Orland on Stony Creek, below proposed Black Butte Dam .....	15,000
Sloping land and foothill valleys .....	40,609
<b>ADDITIONAL ACREAGE SUITABLE FOR IRRIGATION .....</b>	<b>171,845</b>
<b>TOTAL IRRIGABLE LAND IN GLENN COUNTY .....</b>	<b>340,960</b>

Total Acreage in Glenn County .....	880,000
Acres in Farm Land .....	319,000
Land leveled for irrigation in 1960, 5,000 acres.	
Irrigation wells drilled in 1960, 54	
Acres in Range Land .....	287,000
Acres in National Forest .....	221,568
Acres of Commercial Timber Land .....	113,000
Board Feet of Standing Timber .....	3,000,000,000
Species of merchantable trees: Sugar Pine, Ponderosa (yellow) Pine, Douglas Fir, White Fir, Red Fir and Incense Cedar	

## PRINCIPAL AGRICULTURAL INDUSTRIES

	No.		No.
Rice Dryers, Public & Private .....	37	Sugar Beet Processing Plants .....	1
Commercial Warehouses .....	12	Flying Service Companies (pest control, grain seeding, fertilization, weed control, fire control) ..	6
Seed Milling & Processing Plants ....	5	Agricultural Chemical Fertilizer Companies .....	4
Feed Mills .....	6	Nurseries .....	4
Poultry Processing Plants .....	5	Sawmills .....	1
Livestock Auction Yards .....	3	Well Drilling Companies (water) .....	4
Commercial Feed Lots .....	12	Natural Gas Wells in Production ....	85
Slaughter Houses .....	4		
Milk Processing Plants .....	5		
Fruit & Nut Processing Plants .....	15		
Honey & Bee Packaging Plants .....	8		

Mendocino National Forest Headquarters, Willows  
 Sacramento Valley Wildlife Refuge, Willows

"Where Water Is King"

## COUNTY OF GLENN

WILLOWS, CALIFORNIA

Charles Paul, Director  
California State Department of Agriculture  
and  
The Board of Supervisors of Glenn County

Gentlemen:

The California Agricultural Code, Section 65.5, requires the Agricultural Commissioner to compile a report covering the condition, acreage, production and value of the agricultural products of his county; and Section 65 requires that the Commissioner keep a record of his official acts and make an annual report to the Director of Agriculture on the conditions of the agricultural interests in his county; and, further, Section 30 indicates that the Agricultural Department shall promote and protect the agricultural industry of the state.

This is the 25th annual crop report by the Glenn County Agricultural Commissioner. The report covers in a brief way the general trends in the agricultural development of Glenn County.

The Glenn County farm income for 1961 was the highest on record and has been tabulated at \$50,857,400. This is a gain of \$1,501,800 over the previous high mark made in 1960. With few exceptions, most crops showed substantial increases. The crops that made the greatest gains were almonds, prunes, and dairy products; and their total increase for the year was \$946,000. The two principal crops showing a decrease were sheep and lambs, and citrus. The loss suffered by the sheepmen was created largely by the effects from imports, marketing problems and a lighter than usual lamb crop. The loss in citrus was caused by the "June drop," which was a direct result of the intense heat last June and caused the trees to lose most of their fruit.

Growing nursery stock, a relatively new industry in Glenn County, includes citrus trees, roses and various ornamental type plants. Sales for this new industry amounted to \$41,000 from the first year of operations.

Approximately 4,500 acres of land were leveled for irrigation, and 35 new wells were drilled and pumps installed. The general trend is toward more irrigated crops as water for irrigation becomes available.

Respectfully submitted,

*P. V. Harrigan*

P. V. HARRIGAN  
Agricultural Commissioner

## GLENN COUNTY'S POSITION IN STATE PRODUCTION

Below is listed Glenn County's position in comparison to the 58 counties of California:

Glenn County ranks 24th in Agricultural Crop Value

Land area .....	35th
Ladino Clover Seed .....	1st
Sheep and Lambs .....	2nd
Safflower .....	4th
Rice .....	4th
Permanent Pasture (irrigated) .....	5th
Olives .....	5th
Hogs .....	6th
Figs .....	6th
Bees and Honey .....	8th
Almonds .....	9th
Apricots .....	9th
Prunes .....	11th
Barley .....	12th
Navel Oranges .....	13th
Cattle, All .....	13th
Pears .....	17th
Alfalfa Hay .....	18th
Wheat .....	18th
Dairy Products .....	19th
Peaches .....	20th
Sugar Beets .....	22nd
Dry Beans .....	23rd
Walnuts .....	24th
Commercial Timber Land .....	28th

### WILDLIFE

Geese .....	4th
Ducks .....	4th
Muskrats .....	4th
Pheasants .....	9th
Deer .....	33rd

The following are commodities produced in the county that grossed over a million dollars each during 1961:

1. Rice
2. Hogs
3. Cattle
4. Milled-Lumber
5. Manufacturing Milk
6. Sheep and Lambs
7. Irrigated Pasture
8. Barley
9. Alfalfa Hay
10. Fruit Crops
11. Market Milk
12. Ladino Clover Seed
13. Nut Crops

### PETROLEUM INCOME

Bee Hive Bend — Largest Natural Gas field in California

Estimates rate Glenn County 4th richest per capita in the United States.

Population of Glenn County ..... 20,200

### AGRICULTURE INCOME TOTALS FOR 25 YEARS

Year	Amount	Year	Amount
1937 .....	\$ 6,450,700	1950 .....	\$ 30,637,000
1938 .....	5,670,300	1951 .....	39,005,000
1939 .....	7,698,200	1952 .....	42,473,700
1940 .....	8,206,700	1953 .....	33,267,000
1941 .....	10,587,500	1954 .....	31,364,000
1942 .....	11,973,200	1955 .....	34,570,000
1943 .....	13,824,600	1956 .....	37,970,000
1944 .....	19,047,000	1957 .....	43,000,000
1945 .....	18,577,000	1958 .....	45,448,000
1946 .....	22,260,000	1959 .....	47,987,800
1947 .....	27,935,000	1960 .....	49,355,600
1948 .....	27,070,000	1961 .....	50,857,400
1949 .....	24,820,000		
		25-Year Total .....	\$690,055,700

## United States Department of Agriculture Stabilization And Conservation Participation — 1961

### SUPPORT PRICES ALLOWED FOR COMMODITIES (when put under loan or purchase agreement)

Barley .....	\$ 2.15 cwt.
Beans, Medium white .....	6.40 cwt.
Small white .....	7.21 cwt.
Red kidney .....	8.39 cwt.
Pink .....	7.01 cwt.
Pinto .....	6.08 cwt.
Small red .....	7.11 cwt.
Large lima .....	9.93 cwt.
Baby lima .....	5.28 cwt.
Yellow Corn .....	2.14 cwt.
Grain Sorghum (Discolored Discount .07 cwt.) .....	2.26 cwt.
Oats .....	1.94 cwt.
Rice (20c premium for No. 1) .....	4.71 cwt.
Wheat .....	3.12 cwt.
Honey .....	.09 lb.

### COMMODITIES UNDER LOAN — 1961

Warehouse Stored Loans .....	13,355 bu.	\$ 15,558.00	
Farm Storage Facility Loans .....		165,875.00	
Warehouse Stored Bean Loans .....	53,100 lb.	4,127.00	\$181,433.00

### DIRECT PARTICIPATION

Wool Incentive .....	\$298,670.00	
Agriculture Conservation .....	78,839.00	
Soil Bank .....	139,155.00	
Sugar Beet Processor & Import .....	64,628.00	\$581,292.00
<b>TOTAL UNITED STATES PARTICIPATION (Agriculture) .....</b>		<b>\$762,725.00</b>

## PRINCIPAL AGRICULTURAL INDUSTRIES

	No.		No.
Rice Dryers, Public & Private .....	43	Sugar Beet Processing Plants .....	1

"Where Water Is King"

## COUNTY OF GLENN

WILLOWS, CALIFORNIA

To: Charles Paul, Director  
California State Department of Agriculture  
and  
The Board of Supervisors of Glenn County

Gentlemen:

The California Agricultural Code, Section 65.5, requires the Agricultural Commissioner to compile a report covering the condition, acreage, production and value of the agricultural products of his county; and, Section 65 requires that the Commissioner keep a record of his official acts and make an annual report to the Director of Agriculture on the conditions of the agricultural interests in his county, and, further, Section 30 indicates that the Agricultural Department shall promote and protect the agricultural industry of the state.

This is the 26th annual crop report by the Glenn County Agricultural Commissioner. The report covers in a brief way the general trends in the agricultural development of Glenn County.

The 1962 overall farm income for Glenn County topped all previous records with \$55,708,300 tabulated for the total return. This record income is \$4,850,900 over the 1961 all-time high.

A great deal of credit for the increased income can be attributed to the rice crop which was the result of a higher yield per acre from a larger acreage harvested. The \$10,660,000 for the 1962 rice crop keeps it as Glenn County's No. 1 Crop.

An increase in the planting of safflower has placed this crop in the "over a \$1,000,000 farm income" group. This fairly new crop continues to take an increasingly more important place in Glenn County's farm income.

Good growing weather and ample moisture, either by rainfall or irrigation, can be credited for the successful farm year of 1962.

Respectfully submitted,

*P. V. Harrigan*

P. V. HARRIGAN  
Agricultural Commissioner

## GLENN COUNTY'S POSITION IN STATE PRODUCTION

Below is listed Glenn County's position in comparison to the 58 counties of California:

Glenn County ranks 25th in Agricultural Crop Value

Land area .....	35th
Ladino Clover Seed .....	1st
Hogs .....	3rd
Sheep and Lambs .....	3rd
Rice .....	4th
Permanent Pasture, irrigated acres	4th
Olives .....	4th
Safflower .....	7th
Almonds .....	9th
Barley .....	10th
Navel Oranges .....	11th
Prunes .....	11th
Cattle, All .....	12th
Pears .....	14th
Apricots .....	16th
Dairy Products .....	17th
Alfalfa Hay .....	18th
Honey .....	19th
Dry Beans .....	19th
Wheat .....	20th
Peaches .....	20th
Sugar Beets .....	21st
Walnuts .....	21st
Commercial Timber Land .....	28th

<b>WILDLIFE</b>	
Geese .....	4th
Ducks .....	4th
Muskrats .....	4th
Pheasants .....	9th
Deer .....	33rd

The following are commodities produced in the county that grossed over a million dollars each during 1962:

1. Cattle
2. Rice
3. Barley
4. Milled Lumber
5. Irrigated Pasture
6. Manufacturing Milk
7. Sheep and Lambs
8. Ladino Clover Seed
9. Alfalfa Hay
10. Market Milk
11. Prunes
12. Hogs
13. Safflower

### PETROLEUM INCOME

Bee Hive Bend — One of the Largest Natural Gas Fields in California

Estimates rate Glenn County 4th richest per capita in the United States.

Population of Glenn County ..... 20,200

### AGRICULTURE INCOME TOTALS FOR 26 YEARS

Year	Amount	Year	Amount

1,102,864 lbs. of seed grain was treated by Commercial Pest Control Operators.

**CHEMICALS AND POISONS USED BY THIS DEPARTMENT**

**RODENT AND PEST**

**ANIMAL CONTROL:**

6,429 Pounds strychnine-treated bait  
 5,257 Pounds anti-coagulant bait  
 22 Pounds "1080" treated bait  
 3 Pints Toxaphene  
 1 Quart Endrin

**WEED CONTROL:**

30 Pounds Amino Triazole  
 70 Quarts Amitrole T  
 20 Pounds Atrazine 80W  
 350 Pounds Chlorea  
 75 Pounds Dowpon  
 358 Gallons diesel oil  
 19 Pounds Karmex  
 200 Pounds Polybor-chlorate  
 2 Quarts Sinox  
 200 Gallons sodium arsenite  
 142 Quarts 2,4-D  
 60 Pounds Simazine  
 8 Quarts Trysben  
 2 Quarts VPM  
 150 Gallons weedoil  
 5 Quarts X-77 spreader

**INSECT AND FUNGUS CONTROL:**

70 Pounds BHC  
 39 Pints Chlordane  
 61 Pounds Chlordane dust  
 18 Pounds COCS  
 8 Ounces Cyanogas  
 54 Pounds DDT  
 23 Gallons DDT (Liquid)  
 28 Pounds Diazinon  
 11 Pints Dieldrin  
 5 Pounds Dieldrin dust  
 846 Pounds Dieldrin-treated bran  
 1 Quart Endrin  
 20 Pounds Lead Arsenate  
 11 Pounds Malathion  
 10 Gallons Malathion  
 2 CC's Methyl Bromide  
 2 Pounds PDB  
 1 Quart Pyrethium  
 64 Gallons summer oil  
 11 Pints Tigress insecticide  
 11 Cans Raid insecticide  
 10 Ounces X-77 spreader

## 1962—Ten Most Important Insect/Mite Species—Glenn County

INSECT	Crop (s)	County Crop Value (\$)	Estimated Damage and Loss			
			Assessable Yield Loss (\$)	Control Cost (\$)	% Loss of Crop Value	Estimated Over-all Loss (\$)
Spider Mites	Beans, clover & orchards	\$ 6,800,000	\$402,000	\$74,000	7%	\$476,000

# COUNTY OF GLENN

WILLOWS, CALIFORNIA

W. LELAND BROWN  
Agriculture Commissioner  
Sealer of Weights and Measures

Office  
MEMORIAL BUILDING  
Area Code 916 • Phone 934-4651

Mr. Charles Paul, Director  
California State Department of Agriculture  
and  
The Honorable Board of Supervisors  
County of Glenn

Gentlemen:

This is the 27th Annual Crop and Livestock Report compiled in accordance with Section 65.5 of The California Agricultural Code.

The total estimated value of all agricultural commodities produced in Glenn County during 1963 amounted to \$41,059,100. This is \$2,258,200 less than the 1962 revised estimate of \$43,317,300. Nearly all major commodities declined in value except for the seed industry, which showed a slight increase.

Methods of computing production and value have been changed to conform with recommended state reporting procedures. The 1962 figures have been revised to add continuity to the 1962 and 1963 estimates.

The value figures presented in this report represent the gross farm income of agricultural production, and do not reflect net income to the producers. Cost of production, harvesting, packing and other costs should be deducted to arrive at a true net value.

I wish to express my appreciation to all individuals and organizations who so willingly cooperated with me and my staff in contributing the necessary information for this report.

Respectfully submitted,

*Leland Brown*

LELAND BROWN  
Agricultural Commissioner

W. LELAND BROWN  
COMMISSIONER  
Sealer of Weights and Measures

May 1, 1965

Mr. Charles Paul, Director  
California State Department of Agriculture  
and  
The Honorable Board of Supervisors  
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 65.5 of the California Agricultural Code.

The total estimated value of all agricultural commodities produced in Glenn County during 1964 amounted to \$43,683,410. This is \$2,721,610 more than the 1963 revised estimate of \$40,961,800. Nearly all major commodities increased in value except for the seed and livestock industries, which showed a decrease.

The value figures presented in this report represent the gross farm income of agricultural production, and do not reflect net income to the producers. Cost of production, harvesting, packing and other costs should be deducted to arrive at a true net value.

I wish to express appreciation to all individuals and organizations who so willingly cooperated in contributing the necessary information for this report.

Respectfully submitted,

*Leland Brown*

LELAND BROWN  
Agricultural Commissioner
