California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

Glenn County

1965-1974

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,
<http://giannini.ucop.edu/>.

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/>. **Please contact the Library to consult the originals.**

Three vertical black bars of varying widths are positioned on the left side of the page. The bars are solid black and extend from near the top to near the bottom of the page. The middle bar is the narrowest, while the two outer bars are wider and appear to be part of a larger rectangular frame.

April 1, 1966

Mr. Charles Paul, Director
California State Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 65.5 of the California Agricultural Code.

I wish to emphasize that the crop value data in this report are gross values and in no way reflect true income to the farmers.

Unfortunate adverse climatic conditions during the year created a drop of over one million dollars in the total production below that of the previous year.

To all of those who so willingly contributed statistical data for this report, I wish to express my sincere appreciation.

Respectfully submitted,

Leland Brown
Agricultural Commissioner

April 1, 1967

Mr. Earl Coke, Director
California State Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 65.5 of the California Agricultural Code.

I wish to emphasize that the crop values shown in this report are gross values and in no way reflect net income to the farmers.

Significant revisions were made in the number of cattle and calves sold during 1965. This was necessary because the latest United States Census of Agriculture revealed fewer cattle in the county than had been estimated.

To all of those who so willingly contributed statistical data for this report, I wish to express my sincere appreciation.

Respectfully submitted,

Leland Brown
Agricultural Commissioner

PHONE 916 - 934-4651

April 1, 1968

Earl Coke, Director
California State Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 2279 of the California Agricultural Code.

The monetary figures shown herein are indicators of gross farm value, and should not be used to estimate net farm income. In some cases the cost of producing the crop may even be greater than the gross value, thus resulting in a net loss to the farmer.

Unseasonably late rains interfered with the planting and pollination of many crops, thereby causing a reduction in total farm value.

To all of those who so willingly contributed statistical data for this report, I wish to express my sincere appreciation.

Respectfully submitted,

Leland Brown
Agricultural Commissioner

PHONE 916 - 934-4651

March 19, 1969

Jerry W. Fielder, Director
California Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 2279 of the California Agricultural Code.

The monetary figures shown herein indicate the gross farm value, and should not be used to estimate net farm income. In some cases the cost of producing the crop may even be greater than the gross value, thus resulting in a net loss to the farmer.

Increased production of rice, fruits and nuts in 1968 resulted in a five million dollar increase in gross value over 1967.

I wish to express my appreciation to all individuals and organizations who so willingly cooperated with me and my staff in contributing the necessary information for this report.

Respectively submitted,

Leland Brown
Agricultural Commissioner

April 1, 1970

Jerry W. Fielder, Director
California Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 2279 of the California Agricultural Code.

The monetary figures shown herein indicate the gross farm value, and should not be used to estimate net farm income. In some cases the cost of producing the crop may even be greater than the gross value, thus resulting in a net loss to the farmer.

I wish to express my appreciation to all individuals and organizations who so willingly cooperated with me and my staff in contributing the necessary information for this report.

Respectively submitted,

Leland Brown
Agricultural Commissioner

				1968-1969	23.25

Three vertical black bars of varying widths are positioned on the left side of the page. The bars are solid black with some visible grain or noise, suggesting they might be a scan of a physical document. They are arranged in a row, with the middle bar being the widest and the two outer bars being narrower.

April 1, 1971

Jerry W. Fielder, Director
California Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 2279 of the California Agricultural Code.

The monetary figures shown herein indicate the gross farm value, and should not be used to estimate net farm income. In some cases the cost of producing the crop may even be greater than the gross value, thus resulting in a net loss to the farmer.

I wish to express my appreciation to all individuals and organizations who so willingly cooperated with me and my staff in contributing the necessary information for this report.

Respectively submitted,

Leland Brown
Agricultural Commissioner

COUNTY OF GLENN

DEPARTMENT OF AGRICULTURE

P. O. Box 351
WILLOWS, CALIFORNIA 95988

W. LELAND BROWN
Solicitor of Wildlife and Fisheries
PHONE 916 - 934-4651

April 1, 1972

The Director of Agriculture
California Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 2279 of the California Agricultural Code.

In order to make this report more meaningful to the nonfarm community, figures for twenty years ago (1951) are shown in addition to the 1970 and 1971 statistics. In many instances these figures indicate that the value of agriculture commodities were actually lower twenty years ago than they were during 1971.

In all cases the monetary figures shown herein indicate the gross farm value, and should not be used to estimate net farm income.

I wish to express my appreciation to all individuals and organizations who so willingly cooperated with me and my staff in contributing the necessary information for this report.

Respectively submitted,

W. Leland Brown
Agricultural Commissioner

Production and Value of Agricultural Products

W. LELAND BROWN, Agricultural Commissioner
SEALER OF WEIGHTS & MEASURES

April 1, 1973

C. B. Christensen, Director
State Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

This Annual Crop and Livestock Report is compiled in accordance with Section 2279 of the California Agricultural Code.

The year 1972 was characterized by disaster; the worst drought in 33 years, the most severe freeze since 1932, and finally, unusually heavy fall rains. In spite of these obstacles, the gross value of agricultural production set a new high in 1972 at \$55,387,600. However, inflation plus the natural disasters added considerably to the cost of production, so gross value should not be equated with net farm income.

I wish to express my appreciation to all individuals and organizations who so willingly cooperated with me and my staff in contributing the necessary information for this report.

Respectively submitted,

Leland Brown
Agricultural Commissioner

LB/ec

County of Glenn Department of Agriculture

Ed Romano, Agricultural Commissioner
SEALER OF WEIGHTS & MEASURES

April 1, 1974

C. B. Christensen, Director
State Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

I am pleased to submit the 1973 Annual Crop and Livestock Report for Glenn County as required by Section 2279 of the California Agricultural Code.

Agricultural production reached a record high of \$93,383,400, an increase of \$38,027,000 over 1972.

Values given in this report are gross receipts received by the growers and they in no way reflect the net income to the growers. As shown in the recapitulation, the increase of gross income in 1973 over 1962 is comparable to that for 1972.

I wish to express my appreciation for the cooperation and assistance of all individuals who contributed to this report, and especially members of our staff who compiled the report.

Respectfully submitted,

Ed Romano
Agricultural Commissioner

SEALER OF WEIGHTS & MEASURES

April 1, 1975

Dr. L. T. Wallace, Director
State Department of Agriculture
and
The Honorable Board of Supervisors
County of Glenn

Gentlemen:

I am pleased to submit the 1974 Annual Crop and Livestock Report for Glenn County as required by Section 2279 of the California Agricultural Code.

Agriculture continued to be the leading industry in the county setting a record gross value of \$104,142,000, an increase of \$9,879,000.

Values given in this report are gross receipts received by the growers and they in no way reflect the net income to the growers. As shown in the recapitulation, field crops, with rice leading the way, accounted for the major portion of increase, while livestock and poultry showed a decrease from 1973.

I wish to express my appreciation for the cooperation and assistance of all individuals who contributed to this report, and especially members of my staff who compiled the reports.

Respectfully submitted,

Ed Romano
Agricultural Commissioner
