California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

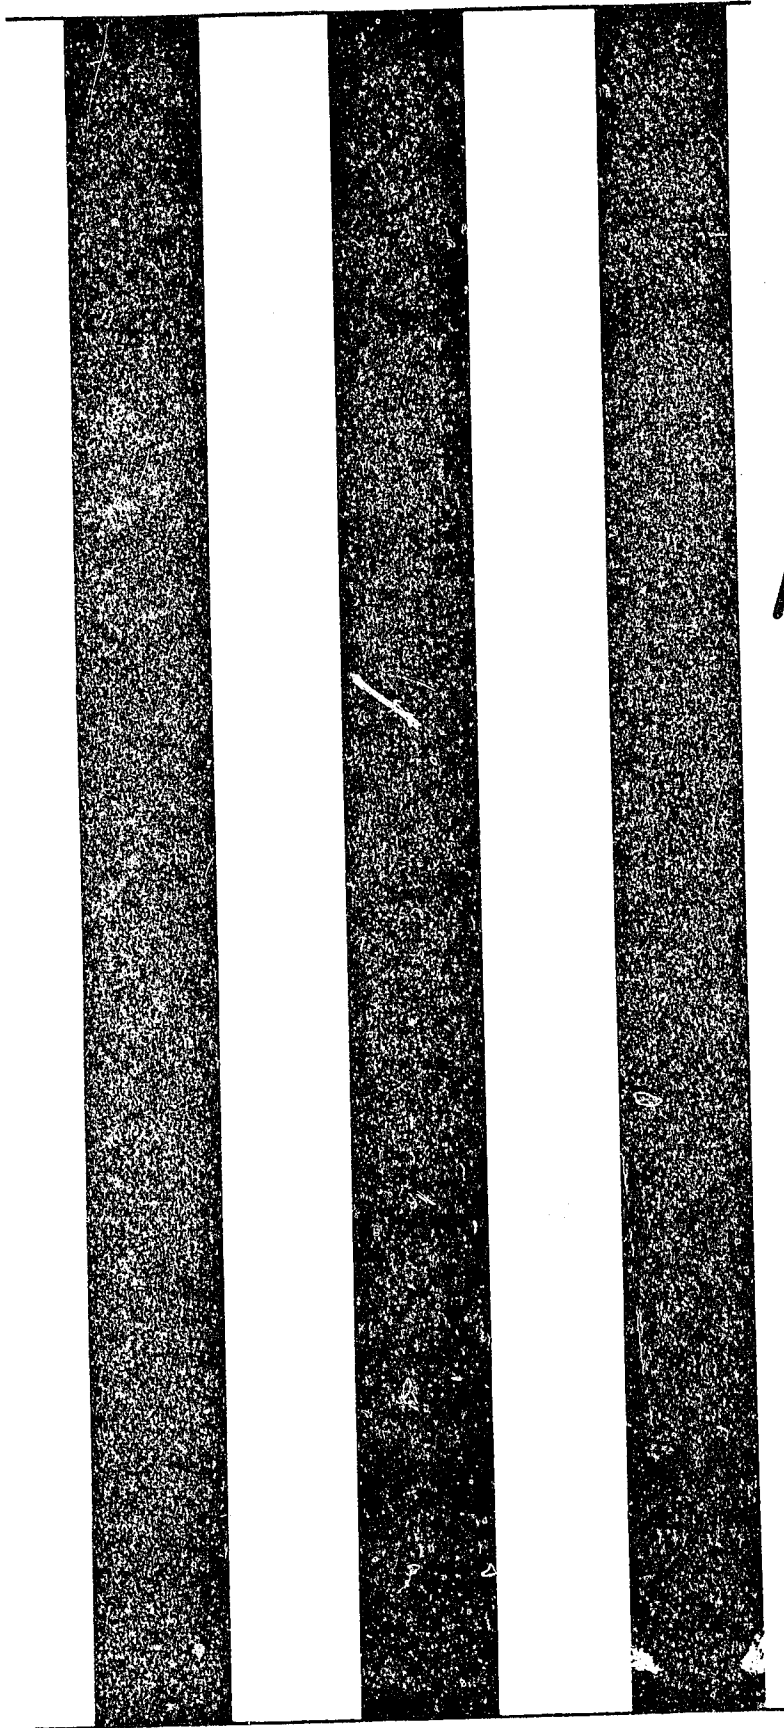

# Madera County

1969-1976

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,  
<http://giannini.ucop.edu/>.

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/>. **Please contact the Library to consult the originals.**

MADERA COUNTY DEPARTMENT OF AGRICULTURE

MADERA COUNTY DEPARTMENT OF AGRICULTURE

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA, CALIFORNIA 93637

PHONE 674-4641  
EXT. 219

March 24, 1970

Mr. Jerry W. Fielder, Director  
California Department of Agriculture

and

Honorable Board of Supervisors  
Madera County

Gentlemen:

I am pleased to submit the forty-first Annual Crop Report for Madera County as required by Section 2279 of the Agricultural Code.

The gross value of agricultural products was \$84,790,970, the highest on record and an increase of \$4,609,320, from the previous year. This increase is reflected principally in our fruit, nut, livestock and poultry production, where sizeable gains were made.

It must be emphasized that these figures show gross returns to the economy of the county, and in no way represent a measure of profit to the grower.

I wish to express my appreciation to the members of my staff who assisted in the compilation of this report and to the many individuals, organizations and business firms who contributed much of the information used in this report.

Respectfully submitted,

*James S. Davis*

James S. Davis  
Agricultural Commissioner

THIRD CLASS MAIL

Three vertical black bars of varying widths are positioned on the left side of the page. The bars are solid black and run from near the top to near the bottom of the page. The middle bar is the narrowest, while the two outer bars are wider and appear to have a slightly grainy texture.

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA CALIFORNIA 93637

PHONE 674-4641  
EXT. 219

March 29, 1971

Jerry W. Fielder, Director  
California Department of Agriculture

and

The Honorable Board of Supervisors  
County of Madera

J. W. Schmitz, Jr., Chairman

Harold J. Dalmat  
Elmo Del Bianco

E. Alonzo Cornwell  
Herman Neufeld

In accordance with Section 2279, Agricultural Code, I am pleased to submit the forty-second Annual Crop Report, which contains the acreage, production and gross value of agricultural products produced in Madera County in 1970.

Significant gains were made in the field crops and livestock and poultry production categories. These gains contributed greatly to the overall total gross value of \$90,778,000, the highest on record.

The values contained in this report are gross values only, and in no way reflect the net income to the grower. Production costs have continued to rise, while price increases have hardly kept pace with increased production costs.

I wish to thank the members of my staff who so ably assisted in the compilation of this report, as well as the many individuals, agencies and producers who contributed much of the information used in this report.

Respectfully submitted,

*James S. Davis*  
James S. Davis  
Agricultural Commissioner

MADERA COUNTY DEPARTMENT OF AGRICULTURE

APR 20 1972

GOV. DEPT. - LIBRARY

MADERA COUNTY DEPARTMENT OF AGRICULTURE

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA, CALIFORNIA 93637

PHONE 674-4641  
EXT. 219

March 21, 1972

Mr. Jerry W. Fielder, Director  
California Department of Agriculture

and

The Honorable Board of Supervisors  
County of Madera

In compliance with the provisions of Section 2279 of the Agricultural Code, I am pleased to submit the forty-third Madera County Agricultural Crop Report for the calendar year of 1971.

The values represented here are estimated gross receipts received by the producers and do not take into account the cost of production, transportation or marketing, and in no way reflect the net income to the grower.

The gross value of agricultural products was \$105,190,000 making it the highest on record and an increase of over \$14,000,000 from the preceding year. Significant gains were made in field crops, fruit and nut crops and livestock and poultry.

I wish to express my appreciation for the cooperation and assistance of all individuals, agencies and producers who contributed to this report, and especially the members of my staff who so ably assisted in the compilation of this report.

Respectfully submitted,

*James S. Davis*  
James S. Davis  
Agricultural Commissioner

MADERA COUNTY DEPARTMENT OF AGRICULTURE

MADERA COUNTY DEPARTMENT OF AGRICULTURE

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA, CALIFORNIA 93637

PHONE 574-4641  
EXT. 219

April 4, 1973

Mr. C. B. Christensen, Director  
California Department of Agriculture  
and  
The Honorable Board of Supervisors  
County of Madera

In compliance with the provisions of Section 2279 of the California Agricultural Code I am pleased to submit the Madera County Agricultural Crop Report for the calendar year of 1972.

Despite moderate to severe damage suffered by many vineyardists, deciduous fruit and nut crop growers, as the result of freezing injury which occurred last spring, the gross value of all agricultural products reached a record high of \$122,454,000 which is an increase of over \$17,000,000 from the preceding year. The most significant gains were made in field crops, fruit and nut crops and livestock and poultry.

The values represented here are estimated gross receipts received by the producers and do not take into account the costs of production, transportation or marketing, and in no way reflect the net income to the growers.

I wish to express my appreciation to the many individuals, agencies and producers for their information and cooperation which made this report possible and especially to the members of my staff who so ably assisted in the compilation of this annual report.

Respectfully submitted,

*James S. Davis*  
James S. Davis  
Agricultural Commissioner

# AGRICULTURAL CROP REPORT

**Madera County**

**1973**

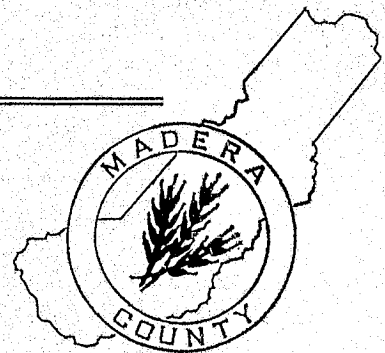

MADERA COUNTY DEPARTMENT OF AGRICULTURE

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA, CALIFORNIA 93637

PHONE 674-4641  
EXT. 219

April 12, 1974

Mr. G. B. Christensen, Director  
California Department of Food and Agriculture  
and

The Honorable Board of Supervisors  
County of Madera

Gentlemen:

I am pleased to submit the Madera County Agricultural Crop Report for the calendar year of 1973, in compliance with the provisions of Section 2279 of the California Agricultural Code.

Substantial increases in practically all commodity prices, plus favorable growing and harvesting conditions gave Madera County an all time record high gross value of \$171,664,000. This is an increase of over \$49,000,000 from the preceding year.

Most of the significant gains were made in field crops, fruit and nut crops, livestock and poultry.

The estimated gross receipts received by the producers, which are reflected in this report do not in any way take into account the costs of production, transportation or marketing and should not be construed as any measure of net income to the grower. While the whole farming segment has benefited from higher farm prices, the increased cost of production in all cases, has also effected the farmers net income.

I want to thank the many individuals, agencies and producers for their cooperation and information from which this report was compiled, and a special thank you to the members of my staff who so ably assisted in the compilation of this annual report.

Respectfully submitted,

*James S. Davis*  
James S. Davis  
Agricultural Commissioner

# *Agricultural Crop Report*

MADERA COUNTY  
1974

Madera County Department of Agriculture  
128 South Madera Avenue Madera, California 93637

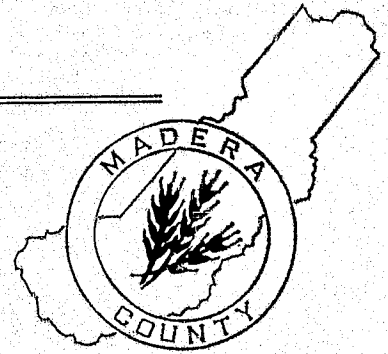

MADERA COUNTY DEPARTMENT OF AGRICULTURE

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA, CALIFORNIA 93637

PHONE 874-4641  
EXT. 219

Dr. Luther T. Wallace, Jr., Director  
California Department of Food and Agriculture

and

The Honorable Board of Supervisors  
County of Madera

Gentlemen:

In accordance with Section 2279 of the Agricultural Code, I am pleased to submit the 1974 Madera County Agricultural Crop Report. I want to emphasize that the values contained in this report are gross values only and in no way reflect the net income to the grower.

The total gross value of \$183,581,000 shown in this report is again an all time high for Madera County, exceeding last year's record figure by over \$11,000,000.

The areas in which substantial gains were made were in the Field Crops, Apiary, Livestock and Poultry Products. All other categories showed some decline in total gross value, due mainly to reduced prices received for various commodities and in some cases reduction in planted acreage. However, these declines were more than offset by substantial increases in various commodity prices received by many of our field crops and livestock products.

I wish to thank the members of my staff who so ably assisted in the compilation of this report, and the many individuals, processors, producers and other agencies for their cooperation and information from which this report was compiled.

Respectfully submitted,

A handwritten signature in cursive script that reads "James S. Davis".

James S. Davis  
Agricultural Commissioner

MADERA COUNTY DEPARTMENT OF AGRICULTURE

OFFICE OF AGRICULTURAL COMMISSIONER

128 SOUTH MADERA AVENUE  
MADERA, CALIFORNIA 93637

PHONE 674.4641  
EXT. 219

Dr. Luther T. Wallace, Jr., Director  
California Department of Food and Agriculture

and

The Honorable Board of Supervisors  
County of Madera

Gentlemen:

I am pleased to submit the 1975 Annual Crop Report for Madera County in accordance with Section 2279 of the California Agricultural Code.

The total gross value shown in this report is \$183,279,000, a decrease of \$590,000 from the previous year. However, this total still represents the second highest for Madera County.

The greatest decline occurred in our field crop category where the sharp reduction in cotton acreage and lower cotton seed prices accounted for practically all of this loss. Sizeable gains were made in vegetable crops, livestock and poultry and livestock and poultry products.

All values shown in this report are gross values only and do not reflect net income to the growers.

I want to thank the many individuals, organizations and processors for their cooperation in providing information used in this report and to the members of my staff who assisted in its compilation.

Respectfully submitted,

*James S. Davis*  
James S. Davis  
Agricultural Commissioner

and

The Honorable Board of Supervisors  
County of Madera

Gentlemen:

In accordance with Section 2279 of the California Agricultural Code, I hereby submit the 1976 Crop Report for Madera County.

The total gross value is \$198,927,000, an increase of nearly 8½ per cent over 1975. It is emphasized that this is a gross figure and does not reflect net income to growers. Increased production and handling costs continue to affect farmers' net return.

Some segments of the county's agriculture suffered severe losses due to drought, strikes, and unseasonal rains. Examples are in raisin grapes, livestock, and tomatoes. The Field Crop category showed the largest gain with cotton accounting for most of the increase. Fruit and nut crops also increased significantly with wine grapes and almonds the leading gainers.

I wish to thank the members of my staff, the staff of the Agricultural Extension Service and the many other individuals who contributed to the preparation of this report.

Respectfully submitted,

Donald O. Cripe  
Agricultural Commissioner

About the Cover:

This old windmill in western Madera County, outlined against a cloudless sky, serves as a dramatic symbol of the importance of water to California agriculture; a fact emphasized by this year of critical water shortage.
