Honorable Board of Supervisors, County of San Mateo.
and
A. A. Brock, Director, State Department of Agriculture.

Gentlemen:
In accordance with the provisions of section 65.5 of the Agricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agriculrural products for San Mateo County for the year 1951.

This report brings together agricultural statistics of the county including floriculture, horticulture, livestock, truck crops and field crops, and income accrued to the growers during tie year 1951. The value of these figures is based entirely on the accuracy of information given by many cooperators and their willingness to give this information, together with investigations and detailed surveys made by members of this Department's staff. The figures for value are based on the gross income to the grower.

The sources of information fox the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of growers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with Federal-State Market News Service quotations.

In submitting the report, we wish to express our appreciation to the many individuals, firms, official agencies and growers who have given information and otherwise helped us in this compiletron.

Respectfully submitted,

Max. J. Leonard, Commissioner, Department of Agriculture, San Mateo Country.

State Department of Agriculture
Gentlemen:
In accordance with the provisions of Section 65.5 of the Ag ricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agricultural products for San Mate County for the year 1952.

This report brings together agricultural statistics of the county, including floriculture, horticulture, livestock, truck crops and field crops, and income accrued to the growers during the year 1952. The value of these figures is based entirely on the accuracy of information given by many coopertors and their willingness to give this information, together with investigations and detailed surveys made by members of this Department's staff. The figures for value are based on the gross income to the grower.

The sources of information for the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of growers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with Federal-State Market News Service quotations.

In submitting the report, we wish to express our appreciation to the many individuals, firms, official agencies and growers who have given information and otherwise helped us in this compilation.

Respectfully submitted,

Max. L. Leonard, Commissioner Department of Agriculture San Mateo County

and

## W. C. Jacobsen, Acting Director <br> State Department of Agriculture

## Gentlemen:

In accordance with the provisions of Section 65.5 of the Agricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agricultural products for San Mate County for the year 1953.

This report brings together agricultural statistics of the county, including floriculture, horticulture, livestock, truck crops and field crops, and income accrued to the growers during the year 1953. The value of these figures is based entirely on the accuracy of information given by many cooperators and their willingness to give this information, together with investigations and detailed surveys made by members of this Department's staff. The figures for value are based on the gross income to the grower.

The sources of information for the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of growers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with FederalState Market News Service quotations.

In submitting the report, we wish to express our appreciation to the many individuals, firms, official gencies and growers who have given information and otherwise helped us in this compilation.

Gentlemen:
In accordance with the provisions of Section 65.5 of the Agricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agricultural products for San Mateo County for the year 1955.

This report brings together agricultural statistics of the county, including floriculture, horticulture, livestock, truck crops and field crops, and income accrued to the growers during the year 1955. The value of these figures is based entirely on the accuracy of information given by many cooperators and their willingness to give this information, tofether with investigations and detailed surveys made by members of this Department's staff. The figures for value are based on the gross income to the grower.

The sources of information for the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of grovers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with FederalState Market News Service quotations.

In submitting this report, we wish to express our appreciation to the many individuals, firms, official agencies and growers who have given information and otherwise helped us in this compilation.

Respectfully submitted,
Miexffeomand

State Department of Agriculture

## Gentlemen:

In accordance with the provisions of Section 65.5 of the Agricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agricultural products for San Mateo County for the year 1956.

This report brings together agricultural statistics of the County, including floriculture; horticulture, livestock, truck crops and field crops, and income accrued to the growers during the year 1956. The value of these figures is based entirely on the accuracy of information given by many cooperators and their willingness to give this information, together with investigations and detailed surveys made by members of this Department's staff. The figures for value are based on the gross income to the grower.

The sources of information for the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of growers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with FederalState Market News Service ovotations.

In submitting this report, ir irish to express our applecation to the many individuals, firms, official agendies and growers who have given information and otherwise helped us in this compilation.

Respectfully submitted,

Max J. Leonard, Commissioner Department $\phi f$ Agriculture San Mateo County

W. C. Jacobsen, Director

State Department of Agriculture
Gentlemen:
In accordance with the provisions of Section 65.5 of the Agricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agricultural products for San Mate County for the year 1953.
This report brings together agricultural statistics of the County, including floriculture, horticulture, livestock, truck crops and field crops, and income accrued to the growers during the year 1958. The value of these figures is based entirely on the accuracy of information given by many cooperators and their willingness to give this information, together with investigations and destaff. The figures for value are based on the gross income to the grower.
The sources of information for the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of growers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with FederalState Market News Service quotations.

In submitting this report, we wish to express our appleciation to the many individuals, firms, official agencies and growers who have given information and otherwise helped us in this compilation.

## Gentlemen:

In accordance with the provisions of Section 65.5 of the Agricultural Code of the State of California, I herewith submit to you a report of the acreage, production and value of agricultural products for San Mateo County for the year 1959 with a comparison of the figures of 1958.

The method of compiling data in this report has been changed and enlarged over previous reports in order to follow an accepted form as agreed upon between the State Departraent of Agriculture and other counties.

This report brings together agricultural statistics of the County, including floriculture, horticulture, livestock, truck crops and field crops, and income accrued to the growers during the year 1959. The value of these figures is based entirely on the accuracy of information given by many cooperators and their willingness to give this information, together with investigations and detailed surveys made by members of this Department's staff. The figure ss for value are based on the gross income to the grower.

The sources of information for the figures contained herein for acreage, average yields and prices have been furnished through the cooperation of growers, grower associations, shippers and produce dealers. The commodity prices used, in addition, were compared with FederalState Market News Service quotations.

In submitting this report, we wish to express our appreciation to the many individuals, firms, official agencies and growers who have given information and otherwise helped us in this compilation.
