California Department of Food and Agriculture

Agricultural Commissioners' Crop Reports

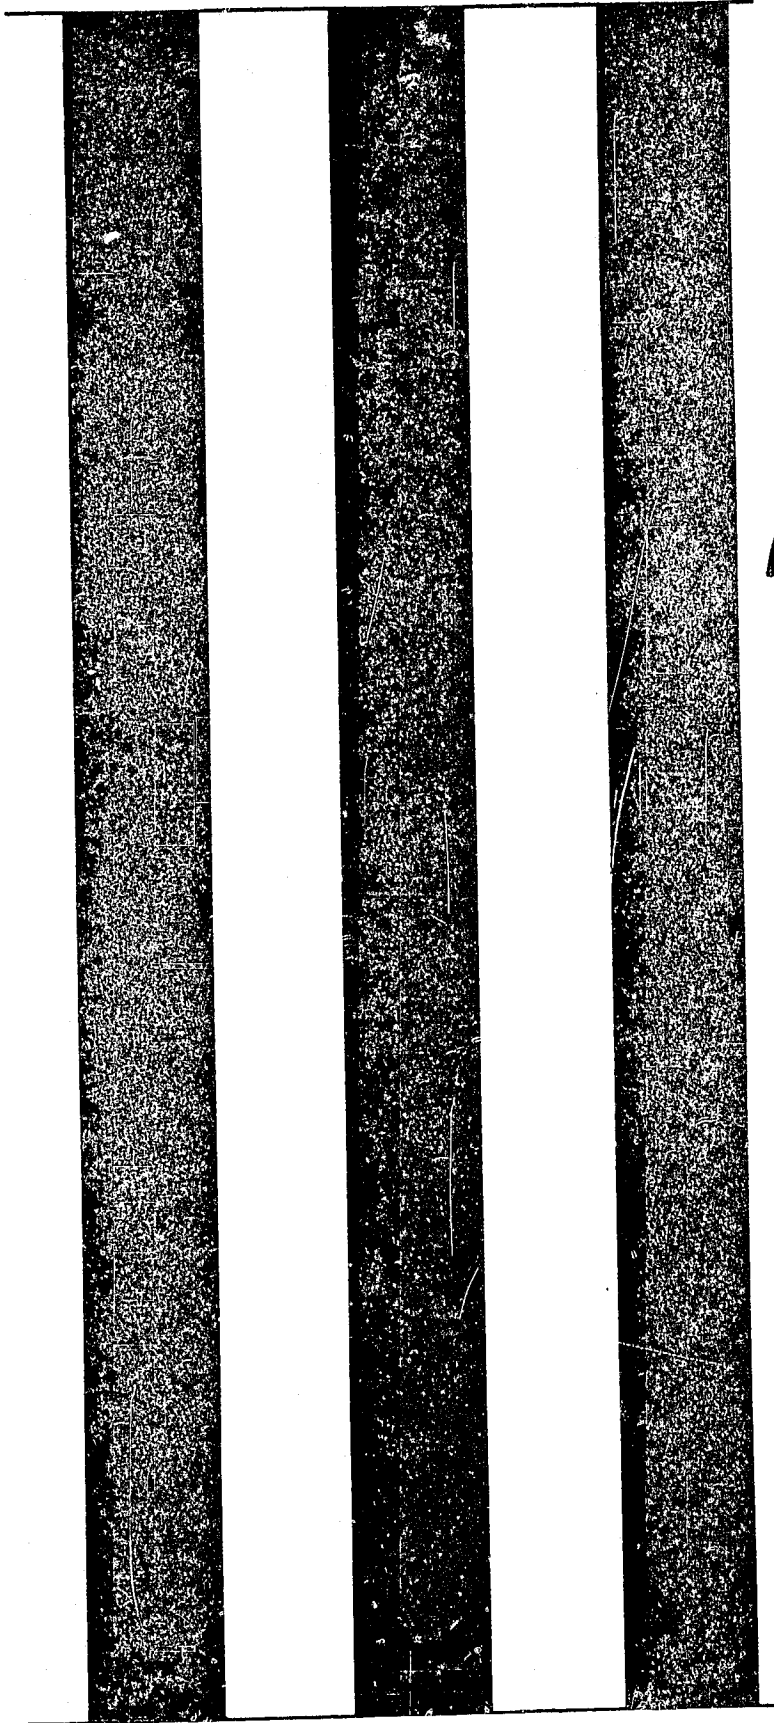

# Sonoma County

1961-1969

California County Agricultural Commissioners' Reports from the California Department of Food and Agriculture. This collection consists of annual crop and livestock data from each of the 58 California Counties. The collection covers 1915-1981; digitization of the rest of the collection is forthcoming.

This digitization project was funded by the Giannini Foundation of Agricultural Economics,  
<http://giannini.ucop.edu/> .

The work was completed by the staff of the Giannini Foundation Library, University of California, Berkeley, <http://are.berkeley.edu/library/> . **Please contact the Library to consult the originals.**

# AGRICULTURAL CROP REPORT

1961

County Of Sonoma

California, Counties

UNIVERSITY OF CALIFORNIA  
DAVIS  

---

APR 13 1962  
LIBRARY

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
Department of Agriculture

TELEPHONE LIBERTY 2-4312

2555 MENDOCINO AVE., ROOM 402  
SANTA ROSA, CALIFORNIA

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1961 Agricultural Crop Report for Sonoma County as required by Section 65.5 of the Agricultural Code. The report covers the acreage, production and value of all crops including livestock and livestock products.

The gross value of agricultural production for the year 1961 amounted to \$77,729,020 as compared to \$75,656,457 for the year 1960. This is an increase of \$2,072,563.

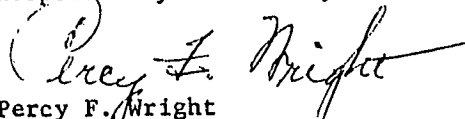

Fruit crops accounted for most of the increase. Apple, prune, and pear production was good with satisfactory prices. Wine grape production was again considerably below normal, but prices were as high as in the war years.

The total value of animals and poultry sold in 1961 was higher than in 1960 primarily due to increased production and particularly of turkeys. Prices in a number of instances were lower than in 1960.

Hops, which were for many years one of the outstanding crops in Sonoma County have all been removed. String beans replaced some of this acreage and they are also declining in importance. Most of the former hop land has been planted to orchards.

I wish to express my sincere appreciation to all those who have cooperated with my staff in making this report possible.

Respectfully submitted,

Percy F. Wright  
Agricultural Commissioner  
of  
Sonoma County

AGRICULTURAL CROP REPORT

1962

County Of Sonoma

UNIVERSITY OF CALIFORNIA  
DAVIS  
MAY 20 1962  
LIBRARY

---

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
Department of Agriculture

2555 MENDOCINO AVE., ROOM 402  
SANTA ROSA, CALIFORNIA

TELEPHONE LIBERTY 2-4312

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1962 Agricultural Crop Report for Sonoma County as required by Section 65.5 of the Agricultural Code. The report covers the acreage, production and value of all crops including livestock and livestock products.

The gross value of agricultural production for the year 1962 amounted to \$78,672,260 as compared to \$77,729,020 for the year 1961. This is an increase of \$943,240.

Outstanding in the year 1962 were the yields of Gravenstein apples, Bartlett pears and French prunes. Yields per acre exceeded all previous records and total production for the county exceeded records of recent years.

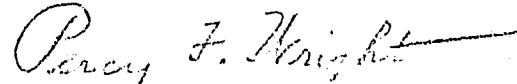

Poultrymen had another year of low prices. The farm price of eggs for the year averaged less than thirty cents (\$.30) per dozen, the lowest it has been for many years. There was some improvement in meat bird prices. The trend is towards heavier weights and the classification of broilers and fryers has been discontinued and changed to fryers and roasters.

Seed crops for a number of years were produced in large quantities on the Rohnert Seed Farms and were an important segment of the agricultural economy of the county. Many kinds of vegetable, flower and grass seeds were produced. This farming operation has been discontinued as it lies in the path of urban expansion.

For the first time in this report, a separate accounting is made for premium wine grapes and for purebred cattle and sheep. There has been an increased interest in varietal grapes for wines and vintners are paying a higher price for these grapes. Sonoma County has long been noted for its cattle and sheep ranches and the raising of purebred animals is of sufficient importance to report them separately.

I wish to express my sincere appreciation to all those who have cooperated with my staff in making this report possible.

Respectfully submitted,

Percy F. Wright  
Agricultural Commissioner  
of  
Sonoma County

# AGRICULTURAL CROP REPORT

**1963**

County Of Sonoma

UNIVERSITY OF CALIFORNIA  
LIBRARY

APR 20 1961

LIBRARY

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
**Department of Agriculture**  
2555 MENDOCINO AVE., ROOM 402  
SANTA ROSA, CALIFORNIA

TELEPHONE LIBERTY 2-4312

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1963 Agricultural Crop Report for Sonoma County as required by Section 65.5 of the Agricultural Code.

The gross value of agricultural production for the year 1963 amounted to \$67,285,765 as compared to \$78,707,260 in 1962. This is a drop of \$11,421,495.

The large drop was caused by three factors; light fruit crops, a twenty percent drop in egg production and a drop in cattle prices.

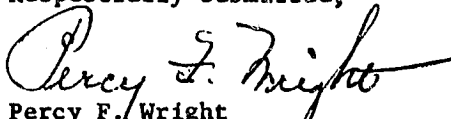

The production of gravenstein apples was down from 75,770 to 20,520 tons, prunes down from 25,690 to 13,196 tons, bartlett pears down from 13,150 to 4,513 tons and cherries down from 856 to 30 tons, all caused by inclement weather.

Egg production has been declining for a number of years, but in the year 1963 there was a decided drop. The trend has been towards large-scale cage operations and with the low egg prices of 1962 many small operators went out of business.

The drop in cattle prices is nation wide and this is reflected in the income received by Sonoma County farmers.

I wish to express my sincere appreciation to all those who have cooperated with my staff in making this report possible.

Respectfully submitted,

Percy F. Wright  
Agricultural Commissioner  
of

Sonoma County

# AGRICULTURAL CROP REPORT

## 1964

UNIVERSITY OF CALIFORNIA  
DAVIS  
MAY 7 1965  
LIBRARY

County Of Sonoma

L

---

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
Department of Agriculture  
2555 MENDOCINO AVE., ROOM 402  
SANTA ROSA, CALIFORNIA

TELEPHONE LIBERTY 2-4312

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1964 Agricultural Crop Report for Sonoma County as required by Section 65.5 of the Agricultural Code.

The gross value of agricultural production for the year 1964 amounted to \$72,828,630 as compared to \$67,027,765 in 1963. This is an increase of \$5,800,865.

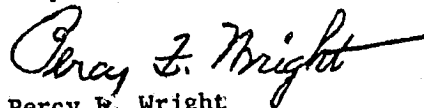

Following the poorest year in history, fruit crop yields returned to normal or above normal. All varieties of apples had a bumper crop and total production was the highest of record. Prune and bartlett pear production was about normal and wine grape production below normal.

The production of market milk continues to increase and is up forty percent in the past ten years. In contrast to this, the production of chicken eggs has been steadily declining and is down forty percent in the same period.

The figures in this report do not reflect the net return or profit to the farmer. However, they do indicate the importance of agriculture to the overall economy of the county.

I wish to express my sincere appreciation to all those who have cooperated with my staff in making this report possible.

Respectfully submitted,

Percy F. Wright  
Agricultural Commissioner  
of  
Sonoma County

TWO DISASTROUS FIRES AND A SERIOUS FLOOD IN 1964

Two separate fires started on Saturday, September 19th. The Hanley fire started on Mt. Saint Helena in Napa County and was carried by high easterly winds across Napa Valley into Sonoma County following the general direction of the Petrified Forest and Mark West Springs area to the Northern outskirts of Santa Rosa. It lasted seven days and during this time blackened 52,000 acres, destroyed 84 homes, 24 summer cabins and 105,000,000 board feet of timber. Numerous wild and domestic animals were killed.

The Nunes Canyon fire started near Kenwood and extended almost to the City Limits of Sonoma and destroyed homes on the outskirts of Agua Caliente, Fetters Hot Springs and Boyes Hot Springs. This fire charred 10,431 acres and destroyed 27 homes. It lasted six days. It was only a miracle that no lives were lost and that more homes were not destroyed by these two fires.

Heavy rains in December caused serious flooding on the Russian River and other streams of the county. On December 23rd, the river crested at 47.35 feet at Guerneville and only 20 percent of the downtown area was above water. The Soil Conservation Service estimated 28,080 acres flooded, 14,200 acres of which were along the Russian River in Sonoma County, with estimated damage to farm lands and cost of removing debris at \$203,000. The U.S. Corps of Engineers estimated total damage at \$5,855,000 which included a second flooding of Guerneville after December 31st by the same storm.

Three vertical black bars of varying widths are positioned on the left side of the page. The bars are solid black and extend from near the top to near the bottom of the page. The middle bar is the widest, flanked by two narrower bars.

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
Department of Agriculture

2555 MENDOCINO AVE., ROOM 402  
SANTA ROSA, CALIFORNIA

TELEPHONE LIBERTY 2-4312

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1965 Agricultural Crop Report for Sonoma County as required by Section 65.5 of the Agricultural Code.

The gross value of agricultural production for the year 1965 amounted to \$70,668,280 as compared to \$73,020,630 in 1964. This is a decrease of \$2,352,350.

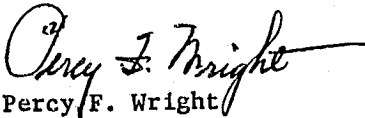

A short apple crop and lower prune values were the primary cause of the decrease. Poor pollination due to inclement weather and low vigor of apple trees as a result of a record crop the previous year accounted for the low production. Gravenstein apples had the lowest yield of record. Prune production was below normal and fifteen percent of the crop was of substandard quality. Prices were down.

The value of livestock was higher in line with the national trend. Fewer turkeys were marketed which offset this increase. Other farm marketings did not show any major change from the previous year.

It is important to point out that the gross value of agricultural production for Sonoma County has remained within a narrow range for the past twenty years. This corresponds closely with the National Farm Income. Every other major industry has shared in a historic economic expansion. Since 1945 industrial income has advanced approximately 233 percent while farm income has advanced only nine percent.

I wish to express my sincere appreciation to all those who have cooperated with my staff in furnishing information. Deputy Joseph Violetti was in charge of the compilation of this report.

Respectfully submitted,

  
Percy F. Wright  
Agricultural Commissioner  
of  
Sonoma County

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
Department of Agriculture  
2555 MENDOCINO AVE., ROOM 101-P  
SANTA ROSA, CALIFORNIA

TELEPHONE 527-2371

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1966 Agricultural Crop Report for Sonoma County as required by Section 65.5 of the Agricultural Code.

The gross value of agricultural production for the year 1966 amounted to \$79,544,980, an all time high. A number of favorable circumstances accounted for this record. The primary factor was good weather throughout the season characterized by lack of frost, a warm dry spring, intermittent summer fogs without any serious temperature extremes and a long dry fall.

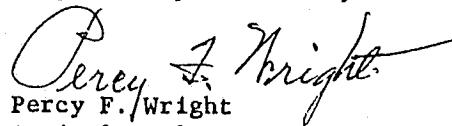

The apple crop was the largest of record. The prune crop was good and due to a short crop in other parts of the state, returns were generally good for Sonoma County growers. The quality of wine grapes was good and vintners had an excellent year.

The dairy industry of Sonoma County continues its steady growth due to its proximity to the Bay Area. This industry contributes to the agricultural economy of the county both in milk and meat animals. Egg prices were up an average of 4.6 cents per dozen, one of the best years poultrymen have had for some time.

A re-survey of orchards and vineyards was made this year, and some distinct changes in the acreages occurred as shown in this report. The changes were principally the result of a change in the method of reporting. Small units which formerly were considered an economic factor in crop production were eliminated.

I wish to express my sincere appreciation to those who have cooperated with my staff in furnishing information. This report was compiled under the direction of Deputy Joseph Violetti.

Respectfully submitted,

  
Percy F. Wright

Agricultural Commissioner  
of  
Sonoma County

PERCY F. WRIGHT  
AGRICULTURAL COMMISSIONER

County of Sonoma  
**Department of Agriculture**  
2555 MENDOCINO AVE., ROOM 101-P  
SANTA ROSA, CALIFORNIA

TELEPHONE 527-2371

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

I hereby submit the 1967 Agricultural Crop Report for Sonoma County as required by Section 2279 of the California Agricultural Code.

The gross value of agricultural production for the year 1967 amounts to \$74,293,067 which is \$5,251,913 less than the amount reported in 1966.

Rains during the spring months accounted for the poorest fruit crops in the history of the county. Apples and pears were not fully pollinated and scab was severe. Brown rot severely reduced the prune crop and lacy scab and other defects resulted in a high percentage of sub-standard prunes.

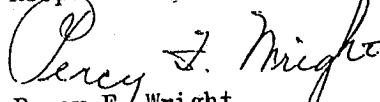

Egg producers had one of their poorest years of record following a very favorable year. Total production was up eight and one-half million dozen, but gross income remained relatively the same due to very low egg prices.

Milk now accounts for over twenty five million dollars of the agricultural income surpassing the income from poultry and poultry products. Sonoma County is the principal supplier of market milk to the Bay Area and production continues to increase following the trend of population.

It must be emphasized that this report reflects the gross value of agriculture to the county. In no way does it represent a measure of profit or loss to the producers. No doubt many producers showed a loss in their operations due to poor crops and low prices.

I wish to express my sincere appreciation to those who have cooperated with my staff in furnishing information. This report was compiled under the direction of Deputy Joseph Violetti.

Respectfully submitted,

  
Percy F. Wright  
Agricultural Commissioner

of  
Sonoma County

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

COUNTY OF SONOMA  
DEPARTMENT OF AGRICULTURE

HARRY F. McCRACKEN  
AGRICULTURAL COMMISSIONER

2555 MENDOCINO AVE., RM. 101-P  
SANTA ROSA, CALIFORNIA 95401  
TELEPHONE (707) 527-2371

TO THE HONORABLE BOARD OF SUPERVISORS AND  
THE DIRECTOR OF THE STATE DEPARTMENT OF AGRICULTURE

Gentlemen:

In accordance with Section 2279 of the California Agricultural Code, I hereby submit the 1968 Sonoma County Agricultural Crop Report. This report represents gross value of production and does not attempt to indicate net farm income or cost of production.

Although the gross value of \$78,197,807 does not make a record year, it does exceed the previous year by \$5,219,840.

Favorable weather and good growing conditions helped produce an above normal apple crop, as well as good crops in other orchard and vineyard plantings. However, these increases were offset by reduction in poultry and poultry products.

Milk still remains as the largest individual product and increased \$1,884,000 to a high of \$26,162,000.

Sincere appreciation is expressed to those who have cooperated with my staff in furnishing information for this report and to Assistant Agricultural Commissioner Joseph Violetti, under whose direction it was compiled.

Respectfully submitted,

A handwritten signature in cursive script that reads "Harry F. McCracken".

Harry F. McCracken  
Agricultural Commissioner

of  
Sonoma County

# AGRICULTURAL CROP REPORT

## County Of Sonoma

---

SONOMA COUNTY DEPARTMENT OF AGRICULTURE

COUNTY OF SONOMA  
DEPARTMENT OF AGRICULTURE

HARRY F. McCracken  
AGRICULTURAL COMMISSIONER

2555 MENDOCINO AVE., RM. 101-P  
SANTA ROSA, CALIFORNIA 95401  
TELEPHONE (707) 527-2371

MR. JERRY W. FIELDER, DIRECTOR  
CALIFORNIA DEPARTMENT OF AGRICULTURE  
AND  
THE HONORABLE BOARD OF SUPERVISORS  
SONOMA COUNTY, CALIFORNIA

Gentlemen:

I am pleased to submit the 1969 Agricultural Crop Report for Sonoma County as required by Section 2279 of the Agricultural Code.

The gross value of agricultural products for 1969 was \$76,607,105 which is a decrease of \$1,630,702 from the previous year. Lower returns were recorded in apples, pears and prunes and increases occurred in grapes, livestock and nursery products.

It must be emphasized that these figures show gross returns to the economy of the county and do not reflect the net returns to the growers.

Appreciation is expressed to those who have cooperated as individuals, agencies and producers for figures received, and particularly Joseph Violetti, Assistant Agricultural Commissioner, under whose direction it was compiled.

Respectfully submitted,

A handwritten signature in cursive script that reads 'Harry F. McCracken'.

Harry F. McCracken  
Agricultural Commissioner  
of  
Sonoma County
