This report is issued in accordance with Section 65.5 of the Agricultural Code of the State of California and is a compilation of production figures on all agricultural commodities for which such figures are available.

Values shown are on an f.o.b. farm basis and, because of currently high production costs, etc., do not necessarily reflect a high income to the farmer.

Acknowledgments: The Yuba County Department of Agriculture is indebted to the United States Agricultural Adjustment Agency, the County Farm Advisor and other Agencies and individuals for their co-operation through making available their records and information for the compilation of this report.

This report is issued in accordance with Section 65.5 of the Agricultural Code of the State of California and is a compilation of production figures on all agricultural commodities for which such figures are available. Values shown are on an f.o.b. farm basis and, because of currently high production costs, etc., do not necessarily reflect a high income to the farmer.

Three vertical black bars of varying widths are positioned on the left side of the page, extending from the top to the bottom. They appear to be redaction marks or a barcode.

This is a statistical report compiled in accordance with the requirements of Section 65.5 of the California Agricultural Code and indicates the estimated gross value of commercial farm production in Yuba County for the year 1961. It should be borne in mind that this compilation cannot be construed as being indicative of net return as farm production costs continue to rise.

The Yuba County Department of Agriculture expresses its thanks to the several state and local farm agencies and producers without whose cooperation this report could not have been compiled.
